Preparing for Your 11 Step Morning Meditation

Preparation is essential for maximizing the benefits of the 11 step morning meditation. Creating a conducive environment and setting a clear intention can significantly improve the quality of the practice. Establishing a regular time and place for meditation helps cultivate consistency and discipline.

Choosing the Right Environment

Selecting a quiet, comfortable space free from distractions is crucial. This area should promote relaxation and focus, with minimal noise and comfortable seating. Natural light and fresh air can enhance the ambiance, making it easier to settle into meditation.

Setting a Consistent Schedule

Meditating at the same time each morning helps integrate the practice into daily life. Early morning hours are often ideal, as the mind is typically less cluttered, and the day's demands have not yet begun.

Consistency supports habit formation and deepens the meditation experience.

Preparing the Mind and Body

Engaging in light stretching or gentle movement before meditation can help release physical tension. Drinking a glass of water and wearing comfortable clothing also contributes to physical ease, allowing better concentration during the meditation session.

Step-by-Step Guide to the 11 Step Morning Meditation

The core of the 11 step morning meditation consists of sequential practices that build upon each other to enhance mindfulness and inner calm. Each step is designed to gently guide the practitioner deeper into a meditative state.

Step 1: Settling In

Begin by sitting comfortably with a straight spine. Close the eyes and bring attention to the body, noticing any areas of tension. Allow the body to relax while maintaining alertness.

Step 2: Deep Breathing

Engage in slow, deep breaths through the nose, filling the lungs completely and exhaling fully. This breathing pattern helps activate the parasympathetic nervous system, promoting relaxation.

Step 3: Body Scan

Mentally scan the body from head to toe, observing sensations without judgment. This step cultivates bodily awareness and releases residual tension.

Step 4: Centering Awareness

Focus attention on the present moment by observing the breath or bodily sensations. This anchors the mind and reduces distractions.

Step 5: Mindful Observation of Thoughts

Notice thoughts as they arise without engagement or judgment. Allow them to pass like clouds, fostering a non-reactive mental state.

Step 6: Cultivating Gratitude

Bring to mind things to be grateful for, enhancing positive emotions and promoting mental well-being.

Step 7: Visualization

Visualize a peaceful scene or desired outcome, strengthening focus and intention setting for the day ahead.

Step 8: Affirmation

Silently repeat positive affirmations or intentions to reinforce confidence and motivation.

Step 9: Grounding

Feel connection to the ground or chair, fostering stability and presence in the body.

Step 10: Gentle Movement

Slowly incorporate gentle stretches or movements to awaken the body and transition out of meditation smoothly.

Step 11: Closing

End the session by taking a few final deep breaths and opening the eyes slowly, carrying the calm awareness into the day.

1. Settle in a comfortable seated position.
2. Practice deep breathing to relax.
3. Conduct a body scan to release tension.

4. Center the mind on present sensations.
5. Observe thoughts without attachment.
6. Cultivate gratitude and positive feelings.
7. Visualize calm and success.
8. Repeat positive affirmations.
9. Ground yourself in the present moment.
10. Engage in gentle movement.
11. Close the meditation mindfully.

11 step morning meditation: The Twelve Step Pathway Michael Cowl Gordon, 2023-11-01 Uses the hero's journey as the path on which to travel for overcoming addiction and crisis and rescuing your own story. This is a book about becoming heroic. A hero is a person who faces great danger, overcomes incalculable odds, and accomplishes that which would have been thought (especially by the hero) to be impossible to achieve. Considering the fear and pain that a person must experience in such an adventure, it is a role that few would desire for themselves. And yet, more of us find ourselves in circumstances demanding heroism than one might imagine. In fact, people who are never called upon to be heroic at some point in their lives are in the minority, if they exist at all. This is not a book for people who might want to become heroic someday. It is for people who are in the midst of a crisis, and who must make a decision about whether they are going to face their situation, survive, rise above themselves, and share their newfound knowledge with others who may need salvation. And it is for those who are already traveling such a journey and who would like to gain a new understanding of themselves, what their journey was and is about, and why it is so important. Using the twelve step framework for understanding the inner work a person must do in order to overcome addiction, Michael Cowl Gordon walks readers through the journey to inner salvation and peace. Using the hero's journey as the path on which to travel through these steps, he uncovers the deep work that it takes to be the hero in your own story.

11 step morning meditation: *11* Sherolynn Braegger, 2009-11 I found God in the stillness. This book is a testimony to the incredible healing power and the promises of the Twelve Step Recovery Program. As a recovering alcoholic I quickly worked through the Twelve Steps with a sponsor. Step 11 states that we must seek through prayer (asking God,) and meditation (listening to God,) to form conscious contact with the God of our understanding. I practiced this step faithfully. On May 15, 2005 to my utter amazement a dialog with God began whom I now lovingly refer to as My Holy One. There is one major reason I do believe that I established this communication, I BELIEVED THAT GOD WOULD ANSWER ME IF I ASKED! Enclosed in this book are some of the questions I always wanted to ask God such as: Creation, Souls, Heaven, evolution, the physics of the Universe, Biblical accuracy, the devil, war, poverty, Mary and Jesus, and much more. I also discovered that God has needs. He needs us to listen to Him. This extraordinary contact is not for the special or for the chosen ones. Anyone can do this if they truly desire it. It is our birthright. We All inherited this ability from God. God also wants us to know that He does not exist in a far away corner of the universe, He exists everywhere. He is even in the dirt that we walk upon. He assures us that We Are One. There is no separation between Us. God lives and breathes with us. He experiences our life journeys by way of an exchange of information with our souls. As spiritual entities we were ALL born in One Holy Moment of Creation and when we leave this earth we will surely return to Our Divine Nature once again. If you are searching to fill a void in your heart when or if all other Gods have failed, if you are looking for a Higher Power who can be a mentor, a friend, and a Father, I humbly ask you to give this One a try. As I was taught in AA..... God is either EVERYTHING, or He is NOTHING.

11 step morning meditation: A Roadmap Through Early Recovery E.M. Evoli , 2024-12-26 Hello there! My name is Evoli and I am an alcoholic. This isn't my real name, but in the need to remain anonymous, I chose a name which spelled backwards is "I Love". And today, this is my mantra. I am a former drunk, puke 'n rally, and sometimes blackout bed-wetter. Frequenter of coyote ugly one-night stands who put the Ass in Class! For years I was a blackout binge drinker and at times a daily drug user. Eventually, I became a daily "functional" drinker. It worked (I thought) until it didn't. I'm a professional Interior Designer and business owner. I now know I don't need alcohol and drugs to cope with life and to have a good time. I've had more fun and created more memories in my sobriety than I ever thought possible. My sober journey has been one of immense and gradual changes in the way I approach life. I found the two most important things; a sense of belonging and purpose. Today, I don't just exist.... I Live! I Love myself! And you can too!

11 step morning meditation: Twelve Steps to Spiritual Freedom Joanna Thyer, 2014-02-01 The twelve step addiction recovery process often comes in many variations and interpretations; while each variation may focus on different aspects of recovery, they all stem from the groundbreaking work of Bill W. and Dr. Bob Smith, the founders of the organization known as Alcoholics Anonymous. *Twelve Steps to Spiritual Freedom: Understanding the Christian Roots of Twelve Step Programs* aligns this 20th century construct with its roots in centuries old practices. This sensible approach brings together the deep spiritual tradition of Christianity to complement and support the hands-on, daily work of twelve-step programs. Interspersed with personal experiences, *Understanding the Christian Roots of Twelve Step Programs* identifies and contextualizes the natural connections between Christian mysticism and the wisdom of twelve step programs and makes this information usable for readers. With her intelligent and pragmatic approach, author Joanna Thyer speaks to those who struggle within twelve step programs and to the counselors, therapists, social workers, and family and friends who support their recovery efforts. Knowing the origins can make the journey through addiction recovery grounded, personal, and rooted in faith.
