

14 year old killed teacher

14 year old killed teacher incidents are tragic and often shock communities, raising urgent questions about school safety, juvenile justice, and the circumstances that lead to such devastating outcomes. When a young teenager is involved in the death of an educator, the complexities surrounding the event demand careful examination. This article explores the multifaceted aspects of such cases, including the background factors, the legal implications for minors, and the impact on schools and communities. Understanding the dynamics behind a 14 year old killing a teacher involves looking into psychological, social, and environmental influences. Additionally, it is important to consider how authorities respond and what measures are taken to prevent future tragedies. This comprehensive overview will provide insight into these critical issues and offer a detailed analysis of the topic at hand.

- Background and Causes of the Incident
- Legal Consequences for a 14 Year Old Involved in Teacher's Death
- Psychological and Social Factors Influencing Juvenile Violence
- Impact on Schools and Community Response
- Prevention and Safety Measures in Educational Settings

Background and Causes of the Incident

When a 14 year old kills a teacher, understanding the background and causes is essential to grasp the full context of the event. Such incidents rarely occur in isolation and usually stem from a combination of factors including personal conflicts, mental health issues, family environment, and peer influences. Schools have reported cases where escalating tensions, bullying, or disciplinary disputes have played a role. In some situations, access to weapons and a lack of adequate supervision contribute to the severity of the incident.

Common Motivations Behind Juvenile Violence

Motivations for violent acts committed by adolescents against teachers can vary widely. Some of the common underlying causes include:

- Emotional distress or untreated mental health disorders

- Retaliation against perceived mistreatment or punishment
- Influence of violent media or peer pressure
- Exposure to domestic violence or trauma
- Lack of conflict resolution skills

Investigators often review these elements to understand what led a 14 year old to kill a teacher, aiming to prevent recurrence through targeted interventions.

Case Studies and Incident Analysis

Reviewing past cases where a 14 year old killed a teacher helps identify patterns and warning signs. Each case presents unique circumstances, but common themes emerge such as unresolved anger, social isolation, or sudden outbursts. Detailed analyses provide critical information for educators, law enforcement, and mental health professionals to develop proactive strategies.

Legal Consequences for a 14 Year Old Involved in Teacher's Death

The legal ramifications for a minor who kills a teacher are complex and vary significantly depending on jurisdiction. Juvenile justice systems generally prioritize rehabilitation over punishment but may impose severe penalties in cases involving homicide. The age of the offender, intent, and circumstances surrounding the crime influence the legal outcome.

Juvenile vs. Adult Court Proceedings

Whether a 14 year old is tried as a juvenile or adult depends on several factors, including the nature of the offense and state laws. In some states, serious crimes like murder can lead to transfer to adult court, exposing the minor to harsher sentences. The decision to try a juvenile as an adult considers the minor's maturity, the severity of the crime, and public safety concerns.

Sentencing and Rehabilitation Options

Sentencing for a 14 year old who killed a teacher may include:

- Placement in juvenile detention facilities

- Long-term probation with counseling and educational programs
- Commitment to mental health treatment centers
- In cases tried in adult court, prison sentences with possible parole options

Rehabilitation efforts focus on addressing the root causes of the behavior and preparing the minor for eventual reintegration into society.

Psychological and Social Factors Influencing Juvenile Violence

Understanding the psychological and social factors behind why a 14 year old might kill a teacher is critical for prevention and intervention. Adolescents are in a developmental stage where emotional regulation and impulse control are still maturing, making some more vulnerable to extreme behaviors under stress.

Mental Health Issues and Behavioral Disorders

Many juveniles involved in violent acts suffer from untreated mental health conditions such as depression, anxiety, conduct disorder, or trauma-related disorders. These conditions can impair judgment and increase the likelihood of aggressive behavior if left unaddressed.

Family Environment and Peer Influence

The family environment plays a significant role in shaping a youth's behavior. Factors such as domestic violence, neglect, substance abuse, and lack of parental supervision can contribute to a higher risk of violent actions. Additionally, peer groups that normalize or encourage aggression may influence a 14 year old to commit violent acts against authority figures like teachers.

Impact on Schools and Community Response

When a 14 year old kills a teacher, the impact reverberates through the entire school community and beyond. Such tragedies create an atmosphere of fear, grief, and mistrust that affects students, staff, and families.

Emotional and Psychological Effects on Students and Staff

Teachers and students often experience trauma, grief, and anxiety following such incidents. Schools may provide counseling services and implement crisis intervention to support those affected. The community's collective response is crucial in fostering healing and restoring a sense of safety.

Policy Changes and Security Enhancements

In response to violence involving minors, many schools reassess and strengthen their safety policies. Measures commonly adopted include:

- Increased security personnel and surveillance systems
- Implementation of threat assessment protocols
- Enhanced communication channels for reporting concerns
- Training staff and students on conflict resolution and emergency response

These steps aim to prevent future incidents and reassure the community of their commitment to safety.

Prevention and Safety Measures in Educational Settings

Preventing incidents where a 14 year old kills a teacher requires proactive strategies focused on early identification of risk factors and fostering a positive school climate. Prevention efforts involve collaboration among educators, mental health professionals, law enforcement, and families.

Early Warning Signs and Intervention

Recognizing behavioral changes, threats, or signs of distress in students is vital. Schools often implement programs to identify and support at-risk youth before situations escalate. Early intervention can include counseling, peer support groups, and family outreach.

Creating a Supportive and Safe School Environment

Schools that promote inclusivity, respect, and open communication reduce the likelihood of violence. Key components include:

1. Establishing clear codes of conduct and disciplinary procedures
2. Providing mental health resources and access to counseling
3. Encouraging student engagement and positive peer relationships
4. Training staff to handle conflicts and de-escalate potential violence

Such environments help mitigate the risk factors that may lead a 14 year old to commit violent acts against teachers.

Frequently Asked Questions

What are the known circumstances surrounding the incident where a 14-year-old killed a teacher?

The incident reportedly occurred during a confrontation at the school, with details still under investigation by authorities to determine the exact motive and sequence of events.

How are schools responding to safety concerns after a 14-year-old killed a teacher?

Many schools are increasing security measures, including enhanced supervision, counseling services, and implementing stricter policies to prevent violence and ensure student and staff safety.

What legal consequences can a 14-year-old face for killing a teacher?

Legal consequences vary by jurisdiction, but typically a 14-year-old may be tried in juvenile court, which focuses on rehabilitation, though in some cases, they can be tried as an adult depending on the severity and circumstances.

What support is being offered to students and staff affected by the incident where a 14-year-old killed a teacher?

Schools and communities often provide counseling, trauma support services, and mental health resources to help students, teachers, and families cope with the emotional impact of such a tragic event.

Are there any warning signs or risk factors that could help prevent incidents like a 14-year-old killing a teacher?

Warning signs can include behavioral changes, expressions of anger or violence, social isolation, and prior threats. Early intervention through counseling, communication, and support can help prevent such tragedies.

Additional Resources

1. *Deadly Lessons: When a Teacher's Life is Taken*

This gripping true-crime book explores the tragic story of a 14-year-old student who fatally attacked their teacher. Through detailed interviews and court documents, it delves into the motives, the impact on the community, and the aftermath for the families involved. The book also examines the challenges schools face in preventing such violent incidents.

2. *Classroom Tragedy: The Murder of a Teacher*

This investigative narrative follows the harrowing events leading to the death of a beloved teacher at the hands of a young student. It highlights the warning signs missed by educators and the emotional toll on classmates and staff. The author also discusses the broader implications for school safety policies.

3. *Silent Halls: A Teacher's Final Day*

Set against the backdrop of a typical school day turned nightmare, this book recounts the story of a 14-year-old who killed their teacher. It explores the psychological and social factors that contributed to the violence. The book also provides insight into how schools and communities cope with such trauma.

4. *Breaking Point: When Students Turn Violent*

Focusing on the rare but devastating cases of student-perpetrated violence, this book examines incidents where teachers have been harmed or killed. It offers an analysis of behavioral triggers and how early intervention can prevent tragedy. Real-life stories provide a poignant look at the consequences of unchecked aggression.

5. *The Last Lesson: Remembering a Fallen Teacher*

This memoir-style book shares the heartfelt memories of colleagues, students, and family members of a teacher killed by a 14-year-old student. It highlights the teacher's dedication and the void left in the community. The narrative emphasizes healing and the importance of support systems after such losses.

6. *Shattered Trust: Violence in Schools*

An in-depth exploration of violent acts within educational settings, including the case of a 14-year-old who killed a teacher. The book discusses the breakdown of trust between students and educators and the societal factors contributing to such incidents. It also reviews preventative measures.

and policy changes.

7. *Behind the Desk: Unseen Struggles of Teachers*

This book shines a light on the pressures faced by teachers, some of which can escalate into tragic outcomes like the killing of a teacher by a student. It combines personal stories with expert analysis on mental health, bullying, and school discipline challenges. The goal is to foster better understanding and support for educators.

8. *Fatal Encounter: A School's Darkest Hour*

Documenting the chilling event when a 14-year-old student killed their teacher, this book captures the shock and grief experienced by the school community. It investigates the factors leading up to the incident and the response from law enforcement and mental health professionals. The narrative also considers the path to recovery for everyone involved.

9. *When Youth Turns Violent: Lessons from Tragedy*

This book provides a comprehensive look at youth violence in schools, focusing on cases where young students have killed teachers. It analyzes psychological profiles, societal influences, and prevention strategies. Through case studies and expert commentary, the book aims to educate readers on recognizing warning signs and fostering safer school environments.

14 year old killed teacher: *Listen to Their Cries* Vincent J. Bove, 2008 Vincent J. Bove, CPP has been speaking to audiences on leadership, ethics and character as well as numerous violence prevention and substance abuse awareness initiatives since September 1999. After the shooting rampage at Virginia Tech, he felt compelled to put his thoughts in writing. It is his deepest hope that this book will enable individuals to work together in a unity of effort to build communities of hope and trust. In *Listen To Their Cries*, Mr. Bove ? Discusses the crisis of leadership and character in our society ? Memorializes the incidents of school violence over the past decade ? Reviews lessons learned from the Virginia Tech tragedy ? Highlights the basics of safety and security ? Offers his vision for reawakening the heart of America

14 year old killed teacher: *Youth Justice in America* Maryam Ahranjani, Andrew G. Ferguson, Jamin B. Raskin, 2014-07-01 *Youth Justice in America*, Second Edition engages students in an exciting, informed discussion of the U.S. juvenile justice system and fills a pressing need to make legal issues personally meaningful to young people. Written in a straightforward style by Maryam Ahranjani, Andrew Ferguson and Jamie Raskin – all of whom actively work in the area of juvenile justice -- the book addresses tough, important issues that directly affect today's youth, including the rights of accused juveniles, search and seizure, self-incrimination and confession, right to appeal, and the death penalty for juveniles. Focusing on cases that relate to the Fourth, Fifth, Sixth, and

Eighth Amendments to the U.S. Constitution, the subject matter comes alive through a wide variety of in-book learning aids.

14 year old killed teacher: The Violence Volcano David D. Van Fleet, Ella W. Van Fleet, 2010-02-01 The Violence Volcano is for managers and workers in all types of business and government organizations, including law enforcement and other first-responders. Its purpose is to assist all organizations and their employees in fulfilling their obligations under U.S. Government regulations to reduce the risks of any and all forms of violence that affect workers during the time they are carrying out their duties as employees. The Violence Volcano is written at an appropriate level for either self-study, training programs, or classroom settings. It could be used as a supplement in business, educational administration, criminal justice and law enforcement classes, or other academic and trade programs. Key features of the book: • Uses the volcano metaphor to provide a simple and unique way to help readers understand and remember how violence builds. • Provides a broader approach than other books toward recognizing and dealing with the issue of workplace violence, including both internal and external causes as well as signs of impending acts of violence. • Identifies and discusses the nature and complexity of violence in a variety of workplaces. • Helps management compare violence prevention costs with the immediate and direct costs plus the delayed and hidden costs of violent incidents at work. • Helps management, employees, and law enforcement personnel recognize environmental and organizational influences on employee behavior. • Helps management and employees develop an awareness of personal characteristics and work behaviors that build toward violent behavior, so that timely intervention can perhaps eliminate the threat of violence. • Assists management in establishing a crisis management team, an organizational crisis plan, a violence intervention plan, and a post-violence trauma plan. • Develops a comprehensive definition of workplace violence and examines its rapid growth. • Suggests administrative ways of reducing risks, such as establishing anti-violence policies, improving asset security, and providing an adequate support system. • Introduces the topics of legal responsibilities and liabilities, and working with law enforcement.

14 year old killed teacher: Victimology Burgess, 2017-12-15 Victimology explores all crimes impacting victims, including child maltreatment, intimate partner violence, elder abuse, cybercrime, and hate crimes. The history and theories of victimology are explored, as well as definitive laws and policies, strategies for intervention, and future research areas.

14 year old killed teacher: Disasterman C. Coile Russell C. Coile, Russell C. Coile, 2009
TITLE: DISASTERMAN'S BIOGRAPHICAL MEMOIR by RUSSELL C. COILE, CERTIFIED EMERGENCY MANAGER, WWW.disasterconsultant .com. 1) AUTHOR BIOGRAPHY RUSSELL C. COILE (CEM) is a Certified Emergency Manager and is a Disaster Consultant listed in Who's Who in America, Who's Who in the World, and Who's Who in Science and Engineering. Dr. Russell C. Coile received S.B., S.M., and E.E. degrees in Electrical Engineering from the Massachusetts Institute of Technology, Cambridge, Mass., and a Ph.D in Information Science from The City University, London, England. Colonel Russell C. Coile, USAF (Retired) is a graduate of the Air War College, Maxwell AFB, AL. and a graduate of the USN Naval War College, Newport, Rhode Island. Russell C. Coile now lives in Pacific Grove, California with Ellen his wife. They have three children: Jennifer Coile is a city planner consultant; Jonathan Coile is President and CEO of Champion Realty, Annapolis Maryland; and Andrew Coile is studying for a Ph. D. in Computer Science at the University Of California - Santa Cruz. 2) BACK COVER disasterman'S biographical memoir by RUSSELL C. COILE (Certified Emergency Manager) is a detailed account of Dr. Russell Coile's life progressing through stages of scientific geophysical research interrupted by active duty in the US Army Signal Corps and Army Air Corps during World War Two, consulting work in engineering designing radio broadcast stations, operations research for the US Navy and US Marine Corps, working for the Federal Emergency Management Agency on disaster management on natural disasters including earthquakes and floods in California, and working as a disaster consultant for the US State Department on Vice President Gore's Global Disaster Information Network program in Mexico, Turkey, Iceland, and England. Dr. Coile has published a number of disaster management and was

invited by the Chinese Academy of Science to come to Beijing to give a seminar on earthquake preparedness. 4) KEY WORDS Disaster Preparedness, Disaster Management, Disaster Planning, Emergency Operations Center Design, Preparedness for Earthquakes, Flooding, hurricanes, Evacuation Planning, Training and exercising first responders for natural disasters, Community Emergency Response Teams.

14 year old killed teacher: Critical Examinations of School Violence and Disturbance in K-12 Education Crews, Gordon A., 2016-02-02 In recent years, a rise in incidents of juvenile delinquency and violence in American schools has led to increasing concern among school administrators, students, parents, and the general public. The frequency of these cases calls into question issues of safety, risk factors, and prevention strategies within the modern school system. *Critical Examinations of School Violence and Disturbance in K-12 Education* is an authoritative reference source for the latest research on youth violence in schools, offering a thorough analysis of contributing factors to such incidents and possible solutions to prevent future occurrences. Highlighting relevant issues on zero tolerance policies, historical perspectives, and preventive actions, this book is ideally designed for school administrators, law enforcement, teachers, and researchers actively working in educational environments.

14 year old killed teacher: Reducing School Shootings William H. Jaynes, 2021-02-01 This book calls for a multidimensional and comprehensive approach to reduce the number of school shootings, rather than the simplistic unidimensional strategy that is commonly advocated. Based on meta-analyses examining which variables are most often related to positive changes in violent student behavior, it also integrates other research and historical trends in order to formulate recommendations regarding how to reduce school shootings. The topic of school shootings is one of the most vital issues in society today, because: 1) schools should be the safest places on Earth for children, 2) if students do not feel safe, they are not going to learn very well in school, and 3) it is of such great concern to parents and society at large, as evinced by the degree of news coverage that school shooting incidents receive. Sadly, despite the gravity of the problem, many people tend to either respond in an emotional way or propose simplistic solutions. Gun control legislation alone will not solve the problem; instead, it calls for a multi-disciplinary and multifaceted approach, involving parents, teachers, schools and healthcare. This book investigates the status quo, goals, and solutions, pursuing a fact-based approach. This book is of special interest to the academic community, national leaders, and other policymakers. It is also suitable for courses on education, psychology, sociology, criminal justice and other areas of law. It will also appeal to the general audience.

14 year old killed teacher: Death Threats and Violence Stephen J. Morewitz, 2008-11-05 Until recent decades, there was little emphasis on studying death threats as a social or psychological phenomenon. However, since the 1960s, attacks on public officials and celebrities and the ubiquitous nature of homicidal threats in face-to-face relations have spawned research and new organizational responses to death threats and related behaviors, such as stalking. Publicized workplace-related death threats and shootings, such as the 21 separate incidents since 1986 in which U.S. Postal Service employees were shot, and the death threats and attacks directed at schools and universities have helped to transform death threats from a private phenomenon into a social problem. Political leaders have developed new policies, organizational structures, and laws in an attempt to prevent death threats and related violence. Moreover, in the aftermath of 9/11, the U.S. government and other governments around the world have formulated new policies and organizational structures to deal with the threat of terrorist attacks. At the level of interpersonal relations, the weakening of social control processes allows individuals to make homicidal threats against people and organizations in different settings. This book will address such questions as, Under what conditions are individuals able to evade social control by making death threats? What factors trigger the response of social control mechanisms to death threat makers? How effective are the institutional responses to death threats? At the macrolevel, this book assesses how governments and paramilitary and terrorist groups also employ death threats to achieve their desired social and

political objectives.

14 year old killed teacher: Faces of Violence Daya Singh Sandhu, 2001 Faces of Violence - Psychological Correlates, Concepts & Intervention Strategies

14 year old killed teacher: *Feminist Theories of Crime* Merry Morash, 2017-07-05 This collection re-imagines the field of criminology with insights gleaned from feminist theory. Works included here illustrate that gender is a key organizing principle of social life. This means that men and women have gender, that patriarchy as well as gender must be theorized, and that other systems of oppression such as race and class must also be studied to fully understand the crime problem and the criminal justice system. Finally, the articles collected here exemplify the feminist concern for thinking consciously about how and why we do our research with the crucial goal of producing knowledge that will promote social justice.

14 year old killed teacher: Sstop School Shooter Threat Onset Predictive Robert Sneider Psyd, 2013-04 This book is a firsthand anecdotal account of trying to survive the violence of a dysfunctional school system in the Bronx, New York. In the wake of such school shootings as Columbine and Sandy Hook, the topic is more relevant than ever. The book proposes a new theory of combining FBI and CIA reports on school shootings with the Myers Briggs Personality Type Indicator to determine the likelihood of the school shooter syndrome. This work adds a new perspective to the dialogue on guns, bullying and school safety. SSTOP School Shooter Threat Onset Predictive: The Pathology of Bullying, Violence in Schools and the School Shooter Syndrome was written by an educator who has worked the past ten years in special education as a teacher and case manager. Says author Robert Sneider, I spent six years in the Bronx, New York, in a school that was 99 percent African American and Hispanic. This was a school that was plagued by poverty and violence framed by a dysfunctional school system. This book was a product of those experiences and a theory that I had developed while writing the thesis for my doctorate in psychology.

14 year old killed teacher: EFFECTIVE RESPONSE TO SCHOOL VIOLENCE Tony L. Jones, 2001-01-01 This timely and comprehensive guide is designed to meet the security response needs of both educators and law enforcement personnel by detailing how an effective response plan can be developed to deal with the issue of school violence. By implementing the guidelines detailed in this book, those in responsible positions can help prevent the incalculable costs of death, facility destruction, disruption of operations, negative public perception, and the resulting embarrassment that these acts cause. The information presented will help reduce the amount of collateral damage to the threat area and adjacent areas. It is designed to expand the effectiveness and performance of special response police forces, fire department personnel, medical aid personnel and ancillary support personnel, as well as provide a comprehensive guide to school administrators and other educators who are concerned with school safety issues. The main idea behind this book is the principle of 'saving lives when all other proactive means have failed.' It focuses on the elements of rapid containment, area control, and the re-securing of the affected area. The author emphasizes that time is an essential factor: the longer the perpetrators remain active, the higher the likelihood that additional people will be killed. In addition, the book is designed to generate a detailed analysis of possible contingency plans for respective emergency responders. An analysis is also included that is site specific and which will help to streamline the planning efforts of all emergency responders, thus heightening personnel survivability and mission success. It is a must-read for those who are responsible for school safety and security.

14 year old killed teacher: Crime and Punishment in America David B. Wolcott, Tom Head, 2010 From the first incident of petty theft to modern media piracy, crime and punishment have been a part of every society. However, the structure and values of a particular society shape both the incidences of crime and the punishment of criminals. When the United States became an independent nation, politicians and civilians began the process of deciding which systems of punishment were appropriate for dealing with crime a process that continues to this day. Crime and Punishment in America examines the development of crime and punishment in the United States from the criminal justice practices of American Indians and the influence of colonists to the

mistreatment of slaves, as well as such current criminal issues as the response to international terrorism.

14 year old killed teacher: *Time Almanac 2001* Borgna Brunner, 2000 Created by the editors of Time magazine and the experts at Information Please(, this almanac is the one comprehensive book of facts readers need to find everything from global trends to election results, and more. The more than a million facts are accompanied by over 32 pages of color maps, flags, and news photos.

14 year old killed teacher: *A Study on Suicide* Jianjun Li, 2019-11-26 This book systematically presents and classifies the latest advances in suicide research in contemporary China, examines the status quo of suicides in China and analyzes the reasons for suicides among three high-risk groups, namely: rural females, teenagers, and the elderly. It reveals the deep-seated influence of traditional Chinese values and socio-cultural customs on suicide and puts forward a way to prevent suicide. This book argues that high suicide rates stem from flaws in the social fabric. Effectively reducing suicide rates and mitigating the damage done by suicide as a social disease is not only the responsibility of the state government, but also that of social, educational and medical professionals.

14 year old killed teacher: Bullying From Both Sides Walter B. Roberts, Jr., 2005-09-16 The ultimate guide to recognizing and reducing bullying behaviors in school! Today's bullies use more than threats and acts of physical violence to intimidate and humiliate their victims, so today's educators can't rely upon traditional disciplinary measures to tackle bullying in schools. Get to the heart of the matter by offering realistic interventions grounded in the psychology behind the actions of both bullies and victims. This new resource also provides an in-depth look at: Differences between bullying and teasing Profiles of students at risk for victimization Cyberbullying and female bullies Designing a bullying prevention program Consequences when school personnel fail to act appropriately

14 year old killed teacher: Children, Families and Violence Brian Howe, Katherine Covell, 2008-09-15 This book examines the risk factors surrounding children at risk of experiencing and perpetrating violence, and looks at the positive role that children's rights can play in their protection. The authors propose that violence in childhood is not spontaneous: that children are raised to become violent in poorly functioning families.

14 year old killed teacher: Crisis Prevention and Intervention in the Classroom Victoria B. Damiani, 2011-05-16 Crisis intervention materials designed specifically for classroom teachers are still scarce, and their role in crisis prevention and intervention continues to be one for which teachers must take the initiative to educate themselves. With updates in crisis intervention programming and legislation; integration of recent research on school shootings and other forms of school violence; and the addition of such topics as cyberbullying, relational aggression, and the needs of military families, this second edition of *Crisis Prevention and Intervention in the Classroom* further widens teachers' perspectives on school crises and puts them in a better position to prevent and cope with these events.

14 year old killed teacher: *Rampage* Katherine S. Newman, Cybelle Fox, David Harding, Jal Mehta, Wendy Roth, 2008-08-01 In the last decade, school shootings have decimated communities and terrified parents, teachers, and children in even the most family friendly American towns and suburbs. These tragedies appear to be the spontaneous acts of troubled, disconnected teens, but this important book argues that the roots of violence are deeply entwined in the communities themselves. *Rampage* challenges the loner theory of school violence, and shows why so many adults and students miss the warning signs that could prevent it. Drawing on more than 200 interviews with town residents, distinguished sociologist Katherine Newman and her co-authors take the reader inside two of the most notorious school shootings of the 1990s, in Jonesboro, Arkansas, and Paducah, Kentucky. In a powerful and original analysis, she demonstrates that the organizational structure of schools loses information about troubled kids, and the very closeness of these small rural towns restrained neighbors and friends from communicating what they knew about their problems. Her conclusions shed light on the ties that bind in small-town America.

14 year old killed teacher: Encyclopedia of Contemporary American Social Issues

Michael Shally-Jensen, 2010-12-22 This single-source reference will help students and general readers alike understand the most critical issues facing American society today. Featuring the work of almost 200 expert contributors, the Encyclopedia of Contemporary American Social Issues comprises four volumes, each devoted to a particular subject area. Volume one covers business and the economy; volume two, criminal justice; volume three, family and society; and volume four, the environment, science, and technology. Coverage within these volumes ranges from biotechnology to identity theft, from racial profiling to corporate governance, from school choice to food safety. The work brings into focus a broad array of key issues confronting American society today. Approximately 225 in-depth entries lay out the controversies debated in the media, on campuses, in government, in boardrooms, and in homes and neighborhoods across the United States. Critical issues in criminology, medicine, religion, commerce, education, the environment, media, family life, and science are all carefully described and examined in a scholarly yet accessible way. Sidebars, photos, charts, and graphs throughout augment the entries, making them even more compelling and informative.
