Other programs, such as *The Twilight Zone*, *Star Trek*, and *The Odd Couple*, provided a brief encapsulation of the show's subject matter, a practice that has continued for recent shows like *Alias*, *Battlestar Galactica*, *Person of Interest*, and the various editions of *Law &*

Order. In *Television Introductions: Narrated TV Program Openings since 1949*, Vincent Terrace has assembled openings for more than nine hundred television shows from the past seven decades. The only documented history of narrated television program introductions, this volume is arranged by type of programming, such as comedy, drama, Western, game show, soap opera, and children's show. In addition to quoting the opening material, entries provide information about each show's network history and years of broadcast. Many entries include descriptions of the show, the names of announcers, and a list of main cast members, as well as a sponsor pitch exactly as spoken. Openings for programs with multiple introductions like *The Adventures of Ozzie and Harriet* and *Charlie's Angels* are also included. For programs that featured new guest stars every episode—such as game shows and variety programs—Terrace has selected a representative introduction. In addition to the theme song credits found in the main text, there are also appendixes of theme songs and their composers and/or singers, as well as a listing of commercial releases (on DVD, VHS, CD, and LP) of shows and their soundtracks. A comprehensive resource for researchers and pop culture aficionados alike, *Television Introductions* provides a fascinating look at this neglected part of TV history.

1954 trivia questions and answers: Blue Notes Robert P. Vande Kappelle, 2011-04-07 Music, like romance, is the language of the soul. Music allows us to express ourselves, and in so doing makes us feel alive. Jazz music, the only art form created by Americans, reminds us that the genius of America is improvisation; a good beat, a contagious rhythm, an emotional ballad, creative improvisation, jazz has it all. Jazz is the story of extraordinary human beings, black and white, male and female, children of privilege and children of despair, who were able to do what most of us only dream of doing: create art on the spot. Their stories are told in *Blue Notes*. *Blue Notes* contains profiles of 365 jazz personalities, one for each day of the year. Each vignette tells a story, some heartwarming, others tragic, but all memorable. The daily entries also provide valuable information on jazz styles, jazz history, instruments and instrumentalists, and such related topics as jazz and religion, women in jazz, drug and alcohol abuse, and racism. These topics can be referenced through an extensive set of indexes. The book's appendix includes helpful background information, a concise overview of jazz music, and even a quiz on jazz biography. While *Blue Notes* is written for jazz fans in general, experts will value its comprehensive nature. So whether you are curious about jazz or simply love and appreciate music, *Blue Notes* will provide daily moments of discovery and help you recognize what the rest of the world already has, a music so compelling that it can be said to define the human being in the twentieth century.
