

beijing science park hotel

beijing science park hotel represents a prime choice for travelers seeking a blend of modern comfort and strategic location near Beijing's renowned technology and innovation hubs. This hotel caters to business professionals, tourists, and academics alike, offering convenient access to the city's Science Park and surrounding commercial districts. With a focus on superior service, contemporary amenities, and proximity to key attractions, the Beijing Science Park Hotel stands out as an optimal stay for visitors to the Chinese capital. This article explores the hotel's location advantages, accommodation features, dining options, business facilities, and nearby attractions, providing a comprehensive guide for prospective guests. Whether visiting for work or leisure, understanding the offerings of the Beijing Science Park Hotel ensures a well-informed and comfortable stay.

- Location and Accessibility
- Accommodation and Room Features
- Dining and Culinary Experiences
- Business and Conference Facilities
- Nearby Attractions and Leisure Activities

Location and Accessibility

The Beijing Science Park Hotel is strategically situated in close proximity to Beijing's high-tech industrial zones, making it highly convenient for business travelers and visitors involved with the technology sector. Located within the Zhongguancun Science Park area, often referred to as China's Silicon Valley, the hotel ensures guests are near key corporate offices, research institutions, and innovation centers.

Proximity to Transportation Hubs

Accessibility is a significant advantage of the Beijing Science Park Hotel. The hotel is well connected to multiple public transportation options, including subway lines and bus routes that provide easy access to downtown Beijing and other important districts. The nearest subway stations are within walking distance, facilitating swift travel across the city.

Access to Beijing Capital International Airport

For international travelers, the hotel is approximately 30 to 40 minutes away from Beijing Capital International Airport by taxi or shuttle, depending on traffic conditions. Additionally, airport shuttle services are often available, ensuring seamless transfer for guests arriving or departing.

Accommodation and Room Features

The Beijing Science Park Hotel offers a diverse range of guest rooms designed to meet the needs of both business travelers and tourists. The accommodations combine modern design with functional amenities, creating a comfortable environment for rest and productivity.

Room Types and Layouts

Guests can choose from various room categories, including standard rooms, deluxe rooms, executive suites, and family suites. Each room type is thoughtfully arranged to maximize space and comfort, featuring ergonomic furniture and efficient layouts suitable for work or relaxation.

In-Room Amenities

All rooms at the Beijing Science Park Hotel are equipped with high-speed Wi-Fi, flat-screen televisions, climate control systems, and work desks to support business activities. Additional conveniences include mini-bars, tea and coffee makers, and in-room safes to enhance guest comfort.

Accessibility and Special Needs

The hotel is committed to providing accessible accommodations for guests with disabilities. Specially designed rooms include wider doorways, roll-in showers, and other features to ensure ease of use and safety.

Dining and Culinary Experiences

Dining at the Beijing Science Park Hotel reflects a commitment to quality and variety, catering to diverse tastes and dietary preferences. The hotel's food and beverage outlets serve an array of cuisines, balancing traditional Chinese flavors with international dishes.

On-Site Restaurants

The hotel hosts several dining venues, including a main restaurant offering buffet and à la carte options, a specialty Chinese cuisine restaurant, and a casual café. These establishments emphasize fresh ingredients and authentic recipes, appealing to both local and global palates.

Room Service and Dietary Options

For convenience, 24-hour room service is available, allowing guests to enjoy meals in the privacy of their rooms. The hotel also accommodates various dietary requirements, including vegetarian, vegan, and gluten-free options, upon request.

Event Catering

Business meetings and special events hosted at the hotel benefit from professional catering services, with customizable menus designed to suit the occasion and guest preferences.

Business and Conference Facilities

The Beijing Science Park Hotel is well-equipped to support corporate events, conferences, and meetings, making it a preferred choice for business travelers and organizations operating within the science park vicinity.

Meeting Rooms and Conference Halls

The hotel features multiple meeting rooms and large conference halls outfitted with modern audio-visual equipment, high-speed internet, and flexible seating arrangements. These spaces are suitable for seminars, workshops, product launches, and corporate gatherings.

Business Center Services

Guests have access to a fully staffed business center offering services such as printing, copying, faxing, and secretarial assistance. These resources help facilitate smooth business operations during stays.

Event Planning and Support

Dedicated event coordinators are available to assist with organizing functions, ensuring that all logistical aspects, including catering, technology setup, and accommodation, are managed efficiently.

Nearby Attractions and Leisure Activities

Beyond business facilities, the Beijing Science Park Hotel offers guests proximity to numerous cultural, historical, and recreational attractions, making it suitable for leisure travelers as well.

Local Attractions

The hotel is near several prominent sites, including the Summer Palace, the Forbidden City, and the Beijing Botanical Garden. These destinations provide rich cultural and historical experiences within reasonable travel distances.

Shopping and Entertainment

Guests can explore nearby shopping centers, entertainment complexes, and local markets that offer a variety of goods, dining options, and leisure activities. These venues contribute to a well-rounded stay in Beijing.

Fitness and Wellness Facilities

The hotel also provides on-site fitness centers, spa services, and wellness programs, enabling guests to maintain health and relaxation routines during their visit.

- Prime location within Beijing's technology hub
- Variety of well-appointed guest rooms
- Multiple dining options with diverse cuisines
- Comprehensive business and conference services
- Close to cultural landmarks and recreational venues

beijing science park hotel: The World by Design A. Eugene Kohn, Clifford Pearson, 2020-10-01 Sharing stories and inspiring lessons on leadership and design, one architect explains how he helped build one of the world's most successful firms Founded on July 4, 1976, Kohn Pedersen Fox quickly became a darling of the press with groundbreaking buildings such as the headquarters for the American Broadcasting Company (ABC) in New York, 333 Wacker Drive in Chicago, the Procter & Gamble headquarters in Cincinnati, and the World Bank Headquarters in Washington, DC. By the early 1990s, when most firms in the U.S. were struggling to survive a major

recession, KPF was busy with significant buildings in London, Germany, Canada, Japan, Korea, and Indonesia—pioneering a model of global practice that has influenced architecture, design, and creative-services firms ever since. Like any other business, though, KPF has stumbled along the way and wrestled with crises. But through it all, it has remained innovative in an ever-changing field that often favors the newest star on the horizon. Now in its fifth decade, the firm has shaped skylines and cities around the world with iconic buildings such as the World Financial Center in Shanghai, the International Commerce Centre in Hong Kong, the DZ Bank Tower in Frankfurt, the Heron Tower in London, and Hudson Yards in New York. Fortright and engaging, Kohn examines both award-winning achievements and missteps in his 50-year career in architecture. In the process, he shows how his firm, KPF, has helped change the buildings and cities where we live, work, learn, and play. A must-read for all of those who love cities and the buildings and skylines that define them. —Stephen M. Ross, chairman and founder of The Related Companies

beijing science park hotel: Love of the Heart Mearlene James, 2019-04-09 My experiences in work, church, life in general, and much, much, more. A collection of works prepared for many different occasions. Earlier in my life, I began to write poetry or just write down many things and ideas on paper. Later in life, I began to keep most of my written documents. I then later began to write more and more, especially scripture lessons for church and the sick and shut-in. During my travels in the United States and then traveling abroad, I've witnessed many great wonders of this world traveling to over fifty different countries. I enjoy writing and especially writing down my ideas and conveying them to others. I began to think maybe others would enjoy reading my written works. I believe love of the heart will enhance my reader emotionally and spiritually and give my reader great joy and peace with their lives.

beijing science park hotel: 北京科学公园酒店 , 2005-05

beijing science park hotel: Case Studies on Chinese Enterprises Donglin Xia, 2013-05-13 This book is a collection of teaching cases on two Chinese companies, UFIDA and Founder. The cases describe the management practices of typical Chinese companies. UFIDA is a well-known company providing management software while Founder is a long-established high-tech company. The book aims at providing readers with original, first-hand materials, based on a theoretical framework, and broadening readers' vision regarding China's business niche in terms of culture, strategy, corporate governance, business environment, organizational dynamics, marketing, human resource, finance and the potential business partnerships with Chinese enterprises and the Chinese people. The cases are comprehensive and descriptive. This book appeals to top executives and leaders of multinational companies with ambitions to expand or already vested business interest in China. It is also of valuable use to companies specializing in international trade. The book provides insight into the great business opportunities in the development of China.

beijing science park hotel: Facts and Evidence Baosheng Zhang, Shijun Tong, Jing Cao, Chuanming Fan, 2021-01-04 This book presents an in-depth discussion on two concepts from the field of philosophy and law, in order to improve our understanding of the relation between "fact" and "evidence" in judicial process. Since fact-finding is a difficult task for judges, proof by evidence has been devised to help them access the truth. However, in the process of judicial fact-finding, there is always a gap between fact and truth. This book covers a wide range of topics, from reflections on the concept of "fact," "evidence" and "fact-finding" in the field of philosophy and law to individual case studies. As such it is a useful reference resource on the continuing research on the judicial proof process for students and scholars.

beijing science park hotel: Emerging Urbanity Richard Marshall, 2013-09-05 Emerging Urbanity provides a critical reading of urban transformations throughout the world and in particular in Asia. Includes case studies of detailed design analysis of the largest urban developments in the Pacific Rim.

beijing science park hotel: Chinese Science and Technology Industrial Parks Susan M. Walcott, 2017-11-30 Title first published in 2003. This book examines types of advanced technology Chinese districts set aside for developing products for national and global markets. Culminating in a

proposed best practice model for Chinese integration into global networks, based on China's own particular political economy.

beijing science park hotel: Multiregional Economic Development in China Rongxing Guo, Hao Gui, Luc Changlei Guo, 2015-04-27 This book provides, in an easy-to-use format, an extensive collection of data and information on China's 31 provinces and its interprovincial economic linkages. Intended as a comprehensive resource book, it profiles the geography, demography, and economy for each province. The materials presented, which are gathered from a variety of sources, including many not easily found in English-language media, will be of great value to students, researchers, business and government agencies, and news media professionals who are interested in either individual provinces or China as a whole.

beijing science park hotel: Pelli Clarke Pelli Architects Michael C. Crosbie, 2013-10-25 Pelli Clarke Pelli, founded in 1977 by Cesar Pelli, is an architectural office of worldwide renown. They are known in particular for their elegant and technically advanced tower designs. These are usually characterized by taut, seamless envelopes without exposed profiles – their visual structure is achieved by subtly staggered forms or variations in the color or materiality of the façade glazing. The unusual office structure of Pelli Clarke Pelli informs the work: an almost craft-like perception of architectural design and a close personal relation with the client are typical for their approach. A model-making workshop within the office helps to find the appropriate form. Many projects also fulfill urbanistic roles: They create urban spaces or act as iconic landmarks within the city fabric. The publication encompasses a selection of works from the past eight years. Amongst the documented projects are Bloomberg Tower in New York, Minneapolis Central Library, Transbay Transit Center in San Francisco, National Museum of Art in Osaka, Xiao Bai Lo Tower in Tianjin and Torre Cajasol in Sevilla.

beijing science park hotel: The China Lab Guide to Megablock Urbanisms Jeffrey Johnson, Cressica Brazier, Tat Lam, 2022-01-19 A wider conversation on the policies and collective experiences of large-scale development that are shaping China's urban future. Superblocks are the basic unit of China's urban development, but they are also spatial instruments with social, cultural, environmental, and economic implications, operating between the scales of architecture and the city. These redefined 'Megablocks' then become laboratories for the consequences, opportunities, and potential global proliferation of Chinese urban models, reconsidered through the filters of ecology, economics, and ethics. In this bilingual Guide to Megablock Urbanisms, China Lab aims to document and advance China's urban future. Co-published with GSAPP, Columbia University. Contributions: Amale Andraos, David Bray, Eric Chang, Yung Ho Chang, Renee Y. Chow, Edward Denison, Duanfang Lu, Joris Fach, John Fitzgerald, Steven Holl, Michiel Hulshof, Jun Jiang, Clover Lee, Zhongjie Lin, Matthew Niederhauser, Xuefei Ren, Daan Roggeveen, André Schmidt, Grahame Shane, Jian Shi, Jiaming Zhu, Jianfei Zhu

beijing science park hotel: Buildings Cities Life Eberhard Zeidler, 2013-08-26 Renowned architect Eberhard Zeidler tells his story in a two-volume book that explores his early life in Germany and his years in Canada after he moved there in 1951. Architect of Toronto's Eaton Centre and Trump International Hotel and Tower, Zeidler has left his stamp on the urban landscape of Canada, the United States, and the rest of the world.

beijing science park hotel: Insight Guides: Beijing City Guide Insight Guides, 2013-10-16 Insight City Guide Beijing is a full-colour, comprehensive travel guide to this historic and exciting city. Colour maps throughout help you get around so you can find the top attractions in Beijing as well as venture off the beaten track, to make sure you have the quintessential Beijing experience.

beijing science park hotel: Building A Revolution Charlie Q.L. Xue, 2005-09-01 Building a Revolution: Chinese Architecture Since 1980 presents a picture of Chinese architecture in transition, as the entire economy shifted from being planned and state-controlled to being market-led. The book also examines the national form and Chinese identity, the impact of international architecture, housing reform, and the emergence of architects in private practice. Both celebrated and young Chinese architects are portrayed, and the notable buildings in the prosperous coastal cities are highlighted. Through this book on modern Chinese architecture, the reader will appreciate the influence of globalization and modernization on the most populous country in the world.

beijing science park hotel: *China Business Guide 2006* Graham Earnshaw, 2004

beijing science park hotel: *Vertical Urbanism* Zhongjie Lin, José L. S. Gámez, 2018-04-27 Studies of compact cities have evolved along with the rising awareness of climate change and sustainable development. Relevant debates, however, reveal that the prevailing definitions and practices of compact cities are tied primarily to traditional Western urban forms. This book reinterprets compact city, and develops a ground-breaking discourse of Vertical Urbanism, a concept that has never been critically articulated. It emphasizes Vertical Urbanism as a dynamic design strategy instead of a static form, distinguishing it from the stereotyped concept of vertical city or towers in the park dominant in China and elsewhere, and suggests its adaptability to different geographic and cultural contexts. Using Chinese cities as laboratories of investigation, this book explores the design, ecological, and sociocultural dimensions of building compact cities, and addresses important global urban issues through localized design solutions, such as the relationship between density and vitality, the integration of horizontal and vertical dimensions of design, and the ecological and social adaptability of combinatory mega-forms. In addition, through discussions with scholars from the United States, China, and Japan, this book provides an insight into the theoretical debates surrounding compact city and Vertical Urbanism in the global context. Scholars and students in architecture and urban planning will be attracted by this book. Also, it will appeal to readers with an interest in urban development and Asian studies.

beijing science park hotel: *Who Owns Whom* , 2008

beijing science park hotel: Site Selection and Value Evaluation of New Hotel Projects Yue He, Shuangshuang Ye, Lei Ding, Anping Wu, 2024-04-24 The book constructs a holistic analytical framework for the selection of hotel sites and the evaluation of their value, employing the TSPV (Target Analysis—Site Selection—Project Planning—Value Assessment) methodology, particularly in the context of emerging urban (new area) developments. Proceeding from a theoretical foundation in the TSPV paradigm, the book methodically dissects and examines various components such as factor analysis, market feasibility, and financial scrutiny, pertinent to the process of hotel site selection. It adopts an interdisciplinary approach, integrating these elements, while also addressing the ramifications of uncertainty analysis within the hotel industry. Readers can be navigated through the TSPV framework to engage in a scientifically grounded and logically coherent exploration of critical aspects like site selection, strategic positioning, profitability, and the overall valuation of prospective hotel ventures.
