Robert E. Lockett Jr., 2021-05-28 Contributions by William D. Adams, Sarah Archino, Mario J. Azevedo, Katrina Byrd, Rico D. Chapman, Helen O. Chukwuma, Monica Flippin Wynn, Tatiana Glushko, Eric J. Griffin, Kathi R. Griffin, Yumi Park Huntington, Thomas M. Kersen, Robert E. Lockett Jr., Floyd W. Martin, Preselfannie W. Smith-Spears, Joseph Martin Stevenson, Seretha D. Williams, and Karen C. Wilson-Stevenson *Redefining Liberal Arts Education in the Twenty-First Century* delves into the essential nature of the liberal arts in America today. During a time when the STEM fields of science, technology, engineering, and math dominate the narrative around the future of higher education, the liberal arts remain vital but frequently dismissed academic pursuits. While STEAM has emerged as a popular acronym, the arts get added to the discussion in a way that is often rhetorical at best. Written by scholars from a diversity of fields and institutions, the essays in this collection legitimize the liberal arts and offer visions for the role of these disciplines in the modern world. From the arts, pedagogy, and writing to social justice, the digital humanities, and the African American experience, the essays that comprise *Redefining Liberal Arts Education in the Twenty-First Century* bring attention to the vast array of ways in which the liberal arts continue to be fundamental parts of any education. In an increasingly transactional environment, in which students believe a degree must lead to a specific job and set income, colleges and universities should take heed of the advice from these scholars. The liberal arts do not lend themselves to the capacity to do a single job, but to do any job. The effective teaching of critical and analytical thinking, writing, and speaking creates educated citizens. In a divisive twenty-first-century world, such a citizenry holds the tools to maintain a free society, redefining the liberal arts in a manner that may be key to the American republic.

bell hooks education quotes: Untangling Whiteness: Education, Resistance and Transformation Jennifer Gale de Saxe, 2025-01-07 With the prominence of workshops, trainings, and anti-racist books popping up over the past few years, it may seem confusing as to what it really means to engage in deliberate and meaningful learning that challenges the many facets of racism and whiteness. 'Untangling Whiteness' directly interrogates the assumption that the teaching and learning about race and whiteness, particularly within the university context, can be condensed to one course, one workshop, or even a few trainings. It is a life-long process that may begin in one university classroom, but must continue as part of who we are as unfinished and undetermined beings. Through a deep and multi-faceted interrogation of racism and white supremacy, this book untangles critical theories of race, whiteness and resistance in an accessible and dialogical manner. It also situates whiteness in Aotearoa, New Zealand, demonstrating the importance of context and location when working to undermine and challenge it. As a theoretical provocation of existing scholarship on race and white supremacy, 'Untangling Whiteness' is underpinned by educating for critical consciousness, as well as a phenomenological engagement that aims to both interpret the world differently and transform it.

bell hooks education quotes: A Darkly Radiant Vision Gary Dorrien, 2023-01-01 The third and final volume in the first comprehensive history of Black social Christianity, by the greatest theological ethicist of the twenty-first century (Michael Eric Dyson) The Black social gospel is a tradition of unsurpassed and ongoing importance in American life, argues Gary Dorrien in his groundbreaking trilogy on the history of Black social Christianity. This concluding volume, an interpretation of the tradition since the early 1970s, follows Dorrien's award-winning *The New Abolition: W. E. B. Du Bois and the Black Social Gospel* and *Breaking White Supremacy: Martin Luther King Jr. and the Black Social Gospel*. Beginning in the shadow of Martin Luther King Jr., Dorrien examines the past fifty years of this intellectual and activist tradition, interpreting its politics, theology, ethics, social criticism, and social justice organizing. He argues that Black social Christianity is today an intersectional tradition of discourse and activist religion that interrelates liberation theology, womanist theology, antiracist politics, LGBTQ+ theory, cultural criticism, progressive religion, broad-based interfaith organizing, and global solidarity politics. *A Darkly Radiant Vision* features in-depth discussions of Andrew Young, Jesse Jackson, Samuel DeWitt Proctor, Gayraud Wilmore, James Cone, Cornel West, Katie Geneva Cannon, Stacey Floyd-Thomas, Traci Blackmon, William J. Barber II, Raphael G. Warnock, and many others.

bell hooks education quotes: *Black Women Navigating Historically White Higher Education Institutions and the Journey Toward Liberation* Logan, Stephanie R., Good, Tyra L., 2022-05-27 Black women in higher education continue to experience colder institutional climates that devalue their presence. They are relied on to mentor students and expected to commit to service activities that are not rewarded in the tenure process and often lack access to knowledgeable mentors to offer career support. There is a need to move beyond the individual resistance strategies employed by Black women to institutional and policy changes in higher education institutions. Specifically, higher education policymakers and administrators should understand and acknowledge how the race and gender makeup of campuses and departments impact the successes and failures of Black women as they work to recruit and retain Black women graduate students, faculty, and administrators. *Black Women Navigating Historically White Higher Education Institutions and the Journey Toward Liberation* provides a collection of ethnographies, case studies, narratives, counter-stories, and quantitative descriptions of Black women's intersectional experience learning, teaching, serving, and leading in higher education. This publication also provides an opportunity for Black women to identify the systems that impede their professional growth and development in higher education institutions and articulate how they navigate racist and sexist forces to find their versions of success. Covering a range of topics such as leadership, mental health, and identity, this reference work is ideal for higher education professionals, policymakers, administrators, researchers, scholars, practitioners, academicians, instructors, and students.

bell hooks education quotes: *Discussion as a Way of Teaching* Stephen Brookfield, Stephen Preskill, 1999-01-01 This book is written for all university and college teachers interested in experimenting with discussion methods in their classrooms. *Discussion as a Way of Teaching* is a

book full of ideas, techniques, and usable suggestions on: * How to prepare students and teachers to participate in discussion * How to get discussions started * How to keep discussions going * How to ensure that teachers' and students' voices are kept in some sort of balance It considers the influence of factors of race, class and gender on discussion groups and argues that teachers need to intervene to prevent patterns of inequity present in the wider society automatically reproducing themselves inside the discussion-based classroom. It also grounds the evaluation of discussions in the multiple subjectivities of students' perceptions. An invaluable and helpful resource for university and college teachers who use, or are thinking of using, discussion approaches.

bell hooks education quotes: *Spanish So White* Adam Schwartz, 2023-01-10 Explicit discussions of race and racial identity have traditionally been omitted from Spanish language education in the US - especially in curricula designed for imagined 'native' speakers of English. Consequences of this de-racialization of Spanish language learning include the perpetuation of institutional racisms and missed opportunities to build productive conversations about the ways race and power are enacted through language. *Spanish So White* is written specifically for secondary and post-secondary teachers who identify as White and second language learners of Spanish. It supports the development of language education that centers a racially dynamic Spanish-speaking world and challenges interpersonal and institutional forms of racism. Author Adam Schwartz shares stories of his own socialization into Whiteness and Spanish-English bilingualism. He invites readers into the work of reconciling privileges they too may share as White Spanish-language learners and teachers. Focusing on the efforts of teacher educators struggling to meaningfully address issues of race, class, and gender in their classrooms, *Practicing What We Teach* goes beyond the realm of the theoretical to link multicultural theory to actual classroom practice. In so doing the contributors expose some of the stark realities of addressing issues of diversity in institutions where there has traditionally been little research or support for multicultural efforts. bell hooks education quotes: *The Racial Politics of Bodies, Nations and Knowledges* Barbara

Baird, Damien W. Riggs, 2009-01-14 *The Racial Politics of Bodies, Nations and Knowledges* takes on the urgent task of chipping away at existing racial and ethnic hierarchies that obstruct global and local movement towards human rights and social justice. It imagines subjective, social and political spaces which might enable this movement. Many authors engage with Indigenous sovereignties, from both Indigenous and non-Indigenous perspectives. While most authors write from an Australian perspective, the issues addressed both have relevance beyond antipodean borders and complicate the idea of national boundaries. Chapters include a comparison of Indigenous struggles for land in Canada and Australia, the situation of minority ethnic and religious communities in the European Union, a meditation on teaching an Australian film about colonial history to German university students, and the story of the delicate positioning of a man of mixed Maori and Irish heritage finding cultural citizenship in the US academy in the mid 20th century. Other chapters focus on children's storybooks, media representations of suffering, and websites aimed at gay and lesbian youth – all international phenomena, and all places where racialised politics are at play. The book also offers insights into contemporary Australian racial politics via analyses of the treatment of asylum seekers, the health of Indigenous women, the education of young Indigenous people and the development of national histories in local tourist promotion. Readers looking for international perspectives on racial issues will find this book a diverse but rewarding approach to vitally important subject matter.

bell hooks education quotes: *Eerie Silence* Ammar Saheli, 2018-10-31 *Eerie Silence* is a

revelatory, jolting exploration into the ramifications of justice inaction in America and beyond and how silence has destructively contributed to issues related to race, racism, education, theology, and racial identity development. The compiled scholarship and research contained within the *Eerie Silence* project is provoking, risky, confrontational, validating, challenging, feisty, and emotionally and intellectually vulnerable. It is a must read for every person seeking a better grasp of the historically interlocked elements of race, racism, religion, theology, authentic Christianity, and racial identity development, especially as it relates to America and its influence. *Eerie Silence* is an amazing

book! Dr. Saheli has carefully deconstructed not only biblical narratives but also global history like an artist. With every stroke of his brush, he has created a multi-layered and complete work that has direct applications in many fields and disciplines... —Jennifer Tosch, Founder, Black Heritage Tours in NY State & Amsterdam, Netherlands Member, Mapping Slavery Project Netherlands

Well-researched, superbly argued, and profoundly written, *Eerie Silence* is all at once a history lesson, critical social commentary, autobiographical sketch, sermon, and call to action to end the silence on race/racism. Saheli does a masterful job of intersecting several areas that share the stamp of racism and injustice in common. This is a powerful read for those who are in need for a deep, thoughtful, provocative, intellectual, and empowering learning experience about race in the United States. —Sharroky Hollie, PhD Executive Director, Center for Culturally Responsive Teaching and Learning This is a wine that will not last long in the wineskins of traditionalism, conservatism, anti-ism, self-righteousness, and isolated fellowship with link minded others, it is a call to ministry to break down the middle wall of racial partition in the church and society in order that generations of women, men, and young people might go unencumbered in their full potential and development. —James L. Taylor, PhD, Professor of Politics San Francisco, California

bell hooks education quotes: The Theater of Teaching and the Lessons of Theater

Domnica Radulescu, Maria Stadter Fox, 2005-01-01 In a first of its kind collection, *The Theater of Teaching and the Lessons of Theater* offers a riveting array of perspectives, approaches, and dialogues exploring the intersections between theater as text, theater as performance, and theater as pedagogy. The essays in this book advance the idea that in their interactive qualities, both teaching and theater have profoundly political and social dimensions. Scholars and teachers from a variety of backgrounds present in this volume an intentionally improvisational and fluid examination meant to offer a model of how to discuss and engage in the practice of theater and teaching, ultimately interweaving the two. *The Theater of Teaching* will be equally useful to teachers, students, and practitioners of theater.
