berkeley hotel asbury park history: A History of Submarine Warfare Along the Jersey Shore Joseph G. Billy, Harry Ziegler, 2020-02-24 The ingenious people of the Garden State were instrumental in the early development of the submarine. The first American submarine sank off Fort Lee in 1776, and the first successful one adopted by the U.S. Navy was invented by Paterson's John Holland at the end of the nineteenth century. Those early vessels were tested in the Passaic River and on the Jersey City waterfront. Today, the only surviving Union Civil War submarine, built in Newark, sits in the National Guard Militia Museum in Sea Girt. In 1918, the technology pioneered there was turned against the Jersey Shore when U-151 went on a one-day ship-sinking rampage. A World War II U-boat offensive torpedoed numerous ships off the coast, leaving oil-soaked beaches strewn with wreckage. Authors Joseph G. Bilby and Harry Ziegler reveal the remarkable history of submarines off the New Jersey coastline.

The history of Asbury Park is a veritable roller coaster of challenge, triumph and change. In 1871, there was nothing but marshes and sand dunes between the sinful city of Long Branch and the holy haven of Ocean Grove, but for devout Methodist James Bradley, the deserted beachfront was a new Promised Land. Thus, the resort community Asbury Park was born as a wholesome entertainment and relaxation center for middle-class, white Protestant America. From bicycles and baby parades to brawlers and bootleggers, Bilby and Ziegler trace Asbury Park's cycles of transformation from peaceful resort to raucous amusement park, from empty boardwalk to modern, bustling center of business.

Asbury Parks Early History James A. Bradley James A. Bradley was born on Valentines Day, 1830, at the Old Blazing Star Inn in Rossville on Staten Island in New York. He was the son of Adam and Hannah Bradley. He was baptized a Catholic. When he was only five, his father died from alcohol related problems. Two years later, his mother married Charles Smith and moved to Cherry Street in the Bowery. In those years before the Civil War, the citys population was exploding. The lower east side was the first stop for tens of thousands of immigrants to America. The original buildings had no heat, light, or running water and few windows until the late 1960s when the state enacted laws that forced landlords to improve living conditions. On hot nights, you could see tenants sleeping on fire escapes to get relief from summer heat. In 1837, the year they moved, a general economic panic had taken over the city. In that year over 100 firms went under, railroads fell, banks collapsed and building construction stopped. The citys working class crowded into tiny tenement apartments. The poor sewer system and primitive health services led to massive outbreaks of typhus and cholera. Bradleys stepfather set up a notions store selling groceries, meat, clothing, shoes and other items. Bradley was only seven years old at the time. He and his stepfather had a peddlers wagon, their favorite spot was down on Catherine Street outside the new specialty store, Lord & Taylor. Bradley obtained his early education in the New York public school system, and in later life continued his education through self-directed reading. At twelve, Bradley worked as a laborer at William Daviss Paper Mill in Bloomfield, New Jersey. As a teenager, Bradley hung with a rowdy immigrant crowd. He soon developed a fondness for wine. By the early 1840s the Bowery became more of a pleasure zone. Small hotels offered free vaudevilles to attract customers including ventriloquism, dancing, circus acts and comics. Young Bradley loved the shows, he tried to attend at least three a week. At thirteen, he witnesses the development of one of the most popular styles of the day; the minstrel show. They played reels, jigs and told down-home plantation jokes. Negroes were barred from Bowery theaters, but minstrel shows became the rage. Bradleys mother decided that her teenage son was learning too much too fast. She sent him to Bloomfield, New Jersey where a friend from her childhood owned a farm. He spent a year in Jersey milking cows and feeding chickens. He disliked it intensely. Twice he ran away and was caught trying to catch a ferry back to the city. Finally, at age sixteen, he returned to the lower East Side. Upon returning, he apprenticed as a brushmaker in Francis R. Furnolds factory in New York City. He was made foreman at age twenty-one and remained for seven years. It was hard work in a cramped space that stunk of hog bristle and glue. The animal hair had to be washed by hand, dried in a hot room, bleached, sorted for length, shaped, tied, glued and inserted into a handle. Depending on the type of brush, a man might make six to eight dozen a day. The hours were long and when work was over, Bradley had to return to his crowded, narrow tenement apartment. During this period, Bradley married Helen M. Packard, daughter of Lewis Packard from Boston. Helen was an educated Rutgers student and a staunch Methodist. The two of them resolved to start their own business and through self-discipline, managed to save one thousand dollars. In 1857, they completed payment on a lot uptown. Then, borrowing the capital, the twenty seven year old Bradley launched his own brush company, Bradley and Smith, located in Pearl Street in New York City. It became a very successful enterprise. Bradley was a vigorous, large built man, rough in appearance, but full of energy. While his wife kept shop, he was upstairs cutting, shaping and gluing brushes. Later in life, Bradl

berkeley hotel asbury park history: New Jersey Folk Revival Music: History & Tradition

Michael C. Gabriele, 2016 New Jersey shaped folk revival music into an art form. The saga began with the bawdy tunes sung in colonial-era taverns and continued with the folk songs that echoed through the Pine Barrens. Guitar Mania became a phenomenon in the 1800s, and twentieth-century studio recordings in Camden were monumental. Performances by legendary artists like Woody Guthrie, Pete Seeger, Joan Baez and Bob Dylan spotlighted the state's folk revival movement and led to a flourishing community of folk organizations, festivals and open-mic nights at village coffeehouses. Author Michael Gabriele traces the evolution and living history of folk revival music in the Garden State and how it has changed the lives of people on stage and in the audience.

2005-04-19 Winner of the 2005 New Jersey Author Award for Scholarly Non-Fiction from the New Jersey Studies Academic Alliance Long before Bruce Springsteen picked up a guitar; before Danny DeVito drove a taxi; before Jack Nicholson flew over the cuckoo's nest, Asbury Park was a seashore Shangri-La filled with shimmering odes to civic greatness, world-renowned baby parades, temples of retail, and atmospheric movie palaces. It was a magnet for tourists, a summer vacation mecca to some degree New Jersey's own Coney Island. In *Asbury Park's Glory Days*, award-winning author Helen-Chantal Pike chronicles the city's heyday—the ninety-year period between 1890 and 1980. Pike illuminates the historical conditions contributing to the town's cycle of booms and recessions. She investigates the factors that influenced these peaks, such as location, lodging, dining, nightlife, merchandising, and immigration, and how and why millions of people spent their leisure time within this one-square-mile boundary on the northern coast of the state. Pike also includes an epilogue describing recent attempts to resurrect this once-vibrant city.

Pike, 2021-06-07 As the 20th century got under way, Asbury Park was booming. Real estate advertisements promoted a residential resort where country meets the sea. The nearly one-square-mile gridded municipality attracted individuals who saw opportunities, from architects and artists to entrepreneurs and people looking for employment. But with the death of its founder and leading benefactor, James A. Bradley, and the rise of machine politics under Mayor Clarence E.F. Hetrick, Asbury Park's civic and economic fortunes started to change. In World War II's long aftermath, suburbs, shopping malls, and modern amusement destinations sprang up outside its municipal borders. Its once-bustling economy faltered, and civil unrest festered until 1970, when it turned violent. It took more than 10 years for new changes to find their way to the drawing boards. But it was in the 21st century that new business and civic leaders with a more inclusive pioneering spirit started turning Asbury Park's fortunes around.
