bessie mae women s health center: Mental Health Awareness Laquita D. Wright, This book boldly confronts the reality of black/brown mental pain head on. There is a systematic and racist belief that black/brown people can deal with and ignore pain better than any other race. Speaking from experience in the minority communities of America, there is a negative stigma surrounding mental health. Instead of seeking professional help for conditions such as PTSD, depression and anxiety many resorts to self-medication, drug, opioids, alcohol, etc. or isolation in an attempt to solve their problem on their own. Black/brown people are reluctant to discuss mental health issues and seek treatment because of the shame and stigma still associated with such conditions in our communities. As a black person it is not easy expressing emotional pain because we are told not to show those emotions. I am approaching it both from community education and cultural competency. Laquita D. Wright knows that black & brown people are hurting. She knows because she is one of them. "Mental Health Awareness: Black & Brown Pain," shed lights on the need to improve access to mental health treatment within the underrepresented communities. For many centuries, Indigenous people of color have experienced trauma in all aspect of our lives. This book is a must read and a guide to finding relief through mental help.

Smith wrote the lyrics to America in 1832, he said he was inspired by Andover's beauty, which is reflected in his second stanza: I love thy rocks and rills, Thy woods and templed hills. Conservationists such as Alice Buck and Harold Rafton have kept Andover beautiful, and innumerable others made Andover a unique and extraordinary town. From Martha Carrier, defying her accusers to the moment of execution, to all the townspeople who fought in our nation's wars, Andoverians have never lacked for courage. Former slaves such as Salem Poor, a hero of Bunker Hill, made many contributions. Teachers such as the Stack sisters and Ted Boudreau kept Andover's standards high. Philanthropists like Sarah Abbot, Benjamin Punchard, and Yvon Cormier contributed to Andover's youth. Literary talent such as Harriet Beecher Stowe and Mary McGarry Morris make life poignant and interesting. Jay Leno keeps America amused. Businesspeople like Samuel Phillips Jr. and William Wood created wealth and jobs, and smaller businesses through the years added to local lore and traditions. These pages are filled with the stories of people who

bessie mae women s health center: Central Prison Gregory S. Taylor, 2021-04-07 Gregory S. Taylor's Central Prison is the first scholarly study to explore the prison's entire history, from its origins in the 1870s to its status in the first decades of the twenty-first century. Taylor addresses numerous features of the state's vast prison system, including chain gangs, convict leasing, executions, and the nearby Women's Prison, to describe better the vagaries of living behind bars in the state's largest penitentiary. He incorporates vital elements of the state's history into his analysis to draw clear parallels between the changes occurring in free society and those affecting Central Prison. Throughout, Taylor illustrates that the prison, like the state itself, struggled with issues of race, gender, sectionalism, political infighting, finances, and progressive reform. Finally, Taylor also explores the evolution of penal reform, focusing on the politicians who set prison policy, the officials who administered it, and the untold number of African American inmates who endured incarceration in a state notorious for racial strife and injustice. Central Prison approaches the development of the penal system in North Carolina from a myriad of perspectives, offering a range of insights into the workings of the state penitentiary. It will appeal not only to scholars of criminal justice but also to historians searching for new ways to understand the history of the Tar Heel State and general readers wanting to know more about one of North Carolina's most influential—and infamous—institutions.
