In addition, you likely have a high degree of self-confidence, tend to be over-optimistic, and rely extensively on your own intuition. These military qualities also happen to be the textbook definition of a successful entrepreneur. In this handbook, serial entrepreneur and veteran of the U.S. Army and U.S. Air Force Wes O'Donnell shows veterans the step-by-step process to launching their business, including state & local startup requirements, patents and trademarks, small business accounting, ecommerce, choosing a legal structure, and much more. Wes also illustrates a half-dozen passive income streams that have worked for him and shows veterans how they can make money online from Amazon, directory sites, Google AdSense, blogging, teaching, and the creator economy.
