Program Overview

The Creighton emergency medicine residency is a three- to four-year training program accredited by the Accreditation Council for Graduate Medical Education (ACGME). It focuses on developing well-rounded emergency physicians capable of handling a wide spectrum of medical emergencies. The curriculum integrates core emergency medicine principles with subspecialty exposure, fostering expertise in trauma, toxicology, pediatric emergency care, and critical care. The program's mission centers around producing compassionate, skilled clinicians who excel in critical thinking, patient management, and interdisciplinary collaboration.

Program Structure

The residency follows a structured timeline that gradually increases resident responsibility and autonomy. Early years emphasize foundational knowledge and clinical skills, while senior residents participate in leadership roles, teaching, and advanced procedures. Didactic sessions, simulation training, and morbidity and mortality conferences

supplement clinical experiences to ensure comprehensive education.

Accreditation and Reputation

Creighton's emergency medicine residency holds full accreditation status, reflecting adherence to rigorous educational standards. The program enjoys a strong regional reputation, attracting candidates committed to academic excellence and community service. Graduates consistently achieve high board certification pass rates and secure competitive fellowship placements.

Clinical Training and Rotations

Clinical exposure is a cornerstone of the Creighton emergency medicine residency, providing residents with opportunities to manage diverse patient populations in varied settings. Training occurs across multiple hospitals and clinics affiliated with Creighton University, delivering a broad spectrum of emergency cases.

Core Emergency Department Rotations

Residents spend significant time in the primary emergency department, gaining hands-on experience in acute care, trauma management, resuscitation, and procedural skills. This setting fosters rapid decision-making and multidisciplinary teamwork essential for emergency medicine.

Subspecialty Rotations

The program includes rotations in key subspecialties, such as:

- Trauma Surgery
- Pediatric Emergency Medicine
- Medical Toxicology
- Critical Care Medicine
- Ultrasound and Imaging

These experiences enhance residents' diagnostic accuracy and broaden their clinical expertise.

Community and Rural Emergency Medicine

To prepare residents for diverse practice environments, the program incorporates community hospital and rural emergency medicine rotations. These settings expose trainees to unique challenges, including limited resources and varied patient demographics.

Research and Academic Opportunities

Creighton emergency medicine residency encourages scholarly activity as an integral part of training. Residents engage in research projects that contribute to evidence-based practice and innovation in emergency care.

Research Infrastructure

The program provides access to research mentors, statistical support, and institutional resources to facilitate resident-led studies. Topics range from clinical outcomes and quality improvement to novel diagnostic techniques and healthcare delivery models.

Academic Conferences and Presentations

Residents are supported in presenting their work at regional and national emergency medicine conferences. Participation in academic forums enhances professional development and networking opportunities.

Teaching Responsibilities

Senior residents have the chance to develop teaching skills by instructing medical students and junior residents. This experience fosters leadership qualities and reinforces clinical knowledge.

Faculty and Mentorship

The Creighton emergency medicine residency boasts a diverse faculty team composed of board-certified emergency physicians with extensive clinical and academic expertise. Faculty members are committed to resident education, mentorship, and career development.

Faculty Expertise

Faculty members specialize in various areas, including trauma, ultrasound, toxicology, and pediatric emergency medicine. Their involvement in research and clinical innovation enriches the learning environment.

Mentorship Programs

Residents benefit from structured mentorship programs that pair them with faculty advisors. These mentors provide guidance on clinical skills, research projects, career planning, and work-life balance.

Application Process and Requirements

Prospective applicants to the Creighton emergency medicine residency must navigate a competitive selection process designed to identify candidates with strong academic records and a commitment to emergency medicine.

Eligibility Criteria

Applicants must have graduated from an accredited medical school, possess valid ECFMG certification if international graduates, and meet ACGME eligibility requirements. Clinical experience and USMLE or COMLEX scores are important considerations.

Application Components

The application package typically includes:

- ERAS application form
- Personal statement
- Curriculum vitae
- Letters of recommendation
- Medical school transcripts

Interview and Selection

Selected candidates are invited for interviews, which assess clinical knowledge, interpersonal skills, and program fit. The selection committee evaluates all components to create a rank list for the National Resident Matching Program (NRMP).

Resident Life and Support

Resident well-being and professional development are priorities within the Creighton emergency medicine residency. The program offers a supportive environment that fosters

personal growth alongside clinical training.

Work-Life Balance

The residency schedule is designed to balance demanding clinical duties with protected time for rest, education, and extracurricular activities. Wellness initiatives and peer support networks help mitigate burnout.

Facilities and Resources

Residents have access to state-of-the-art simulation centers, libraries, and research facilities. These resources enhance learning and procedural competency.

Community Engagement

Opportunities exist for residents to participate in community outreach, public health initiatives, and volunteer activities, reinforcing the program's commitment to service.

creighton emergency medicine residency: Challenges and Opportunities in Healthcare Leadership Angela Lampe, Cindy Costanzo, William Leggio, Timothy C. Guetterman, 2023-01-01 Leaders in healthcare today face many challenges ranging from managing interprofessional teams and teamwork, to payment reform, to tackling issues such as homelessness and the opioid crisis. Leaders have access to depth of information and resources to help them solve these complex and real-world problems. However, it is our belief that given the complexities of healthcare, there is value in sharing and learning from those who have first-hand experience with interprofessional leadership in healthcare. *Challenges and Opportunities in Healthcare Leadership: Voices from the Crowd in Today's Complex and Interprofessional Healthcare Environment*, is a volume in a book series titled, *Contemporary Perspectives in Business Leadership*. In this book, authors share their true, authentic reflections and professional stories describing the lived experience(s) of the author/leaders and how the experience changed the author/leaders' approach as an interprofessional leader. Each chapter includes a (1) story about the topic and the lived experience, (2) perspectives, and (3) lessons of the author(s). Additionally, scholarly commentary and discussion questions included within each chapter create opportunity for application to leadership theories and strategies as well as allow for reflection and further dialogue on the topic. The intended audience is broad, including faculty and students in institutions of higher education, interprofessional healthcare team leaders and members, and other healthcare stakeholders who have experience in interprofessional healthcare leadership. The book is applicable for leadership growth and development at a personal, group, or organizational level.
