creepy people in history: *The History of Bones* John Lurie, 2023-10-24 The quintessential

depiction of 1980s New York and the downtown scene from the artist, actor, musician, and composer John Lurie “A picaresque roller coaster of a story, with staggering amounts of sex and drugs and the perpetual quest to retain some kind of artistic integrity.”—The New York Times In the tornado that was downtown New York in the 1980s, John Lurie stood at the vortex. After founding the band The Lounge Lizards with his brother, Evan, in 1979, Lurie quickly became a centrifugal figure in the world of outsider artists, cutting-edge filmmakers, and cultural rebels. Now Lurie vibrantly brings to life the whole wash of 1980s New York as he developed his artistic soul over the course of the decade and came into orbit with all the prominent artists of that time and place, including Andy Warhol, Debbie Harry, Boris Policeband, and, especially, Jean-Michel Basquiat, the enigmatic prodigy who spent a year sleeping on the floor of Lurie’s East Third Street apartment. It may feel like Disney World now, but in *The History of Bones*, the East Village, through Lurie’s clear-eyed reminiscence, comes to teeming, gritty life. The book is full of grime and frank humor—Lurie holds nothing back in this journey to one of the most significant moments in our cultural history, one whose reverberations are still strongly felt today. History may repeat itself, but the way downtown New York happened in the 1980s will never happen again. Luckily, through this beautiful memoir, we all have a front-row seat.

creepy people in history: *An Informal History of the Hugos* Jo Walton, 2018-08-07 Engaged, passionate, and consistently entertaining, *An Informal History of the Hugos* is a book about the renowned science fiction award for the many who enjoyed Jo Walton's previous collection of writing from Tor.com, the Locus Award-winning *What Makes This Book So Great*. The Hugo Awards, named after pioneer science-fiction publisher Hugo Gernsback, and voted on by members of the World Science Fiction Society, have been presented since 1953. They are widely considered the most prestigious awards in science fiction. Between 2010 and 2013, Jo Walton wrote a series of posts for Tor.com, surveying the Hugo finalists and winners from the award's inception up to the year 2000. Her contention was that each year's full set of finalists generally tells a meaningful story about the state of science fiction at that time. Walton's cheerfully opinionated and vastly well-informed posts provoked valuable conversation among the field's historians. Now these posts, lightly revised, have been gathered into this book, along with a small selection of the comments posted by SF luminaries such as Rich Horton, Gardner Dozois, and David G. Hartwell. A remarkable guided tour through the field—a kind of nonfiction companion to *Among Others*. It's very good. It's great. —New York Times—bestselling author Cory Doctorow, *Boing Boing* on *What Makes This Book*
