Overview of Creighton Family Medicine Residency Program

The Creighton Family Medicine Residency program is a comprehensive postgraduate medical education initiative designed to train physicians in the full spectrum of family medicine. Located within Creighton University, a respected institution known for its commitment to medical education and community service, the program fosters an environment that emphasizes both clinical skills and compassionate patient care. Creighton family medicine residents benefit from a curriculum tailored to develop proficiency in preventive care, chronic disease management, acute illness treatment, and behavioral health. The program's mission aligns with the Jesuit values of service, ethics, and social justice, encouraging residents to address healthcare disparities and advocate for vulnerable populations.

Program Mission and Values

Creighton family medicine residents are guided by a mission to provide excellent medical care while fostering lifelong learning and professionalism. The program values include:

- Compassionate, patient-centered care
- Commitment to community health and service
- Interdisciplinary teamwork and collaboration
- Continuous improvement through education and research
- Ethical practice and cultural sensitivity

Accreditation and Recognition

The residency program is fully accredited by the Accreditation Council for Graduate Medical Education (ACGME), ensuring that Creighton family medicine residents receive training that meets national standards. The program's emphasis on quality education and clinical excellence has earned it recognition among family medicine training programs nationwide.

Training and Curriculum

The curriculum for Creighton family medicine residents is carefully structured to cover a broad range of medical knowledge and skills essential for primary care providers. The training spans three years, incorporating didactic learning, clinical practice, and hands-on experiences. The program integrates evidence-based medicine with practical applications to prepare residents for independent practice.

Core Curriculum Components

The core curriculum includes the following key components:

- Primary care principles and family medicine fundamentals
- Preventive medicine and health promotion
- Diagnosis and management of common acute and chronic conditions
- Pediatrics, obstetrics, internal medicine, geriatrics, and psychiatry
- Procedural skills such as suturing, casting, and joint injections

- Community and public health education

Innovative Teaching Methods

To enhance learning, Creighton family medicine residents engage in simulation exercises, case-based discussions, and interdisciplinary conferences. The program encourages active participation through workshops and seminars, promoting critical thinking and clinical decision-making.

Clinical Experience and Rotations

Clinical exposure is a cornerstone of the Creighton Family Medicine Residency, providing residents with diverse patient populations and medical conditions. Rotations occur in both inpatient and outpatient settings across affiliated hospitals and clinics.

Primary Care Clinics

Residents spend significant time in family medicine clinics where they develop continuity of care relationships with patients. This experience allows them to manage a full spectrum of healthcare needs, including preventive care, chronic disease management, and acute illness treatment.

Specialty Rotations

To broaden their expertise, Creighton family medicine residents rotate through various specialties such as:

- Pediatrics
- Obstetrics and Gynecology
- Emergency Medicine
- Internal Medicine
- Behavioral Health
- Surgery

These rotations enhance the residents' diagnostic and therapeutic skills, preparing them to address complex medical issues encountered in family medicine practice.

Research and Academic Opportunities

Creighton family medicine residents are encouraged to engage in research to foster a deeper understanding of medical science and improve patient care outcomes. The program supports scholarly activities by providing mentorship and resources for research projects.

Research Focus Areas

Research undertaken by residents often focuses on topics such as:

- Preventive health strategies
- Chronic disease management improvements
- Healthcare disparities and community health
- Innovations in family medicine practice
- Patient safety and quality improvement

Academic Presentations and Publications

Residents have opportunities to present their research findings at regional and national conferences. Many Creighton family medicine residents contribute to academic journals, enhancing the program's reputation and advancing family medicine knowledge.

Resident Life and Support

The residency program prioritizes the well-being and professional development of Creighton family medicine residents. A supportive environment fosters balanced training, resilience, and personal growth.

Mentorship and Advising

Each resident is paired with faculty mentors who provide guidance on clinical skills, career planning, and work-life balance. Regular feedback and evaluations ensure continuous improvement and tailored support.

Wellness Initiatives

Recognizing the demands of residency training, Creighton implements wellness programs

that include stress management workshops, peer support groups, and access to mental health resources. These initiatives help residents maintain physical and emotional health throughout their training.

Career Paths and Alumni Success

Graduates of the Creighton Family Medicine Residency program are well-prepared for diverse career opportunities in primary care and beyond. The program's reputation for excellence facilitates successful placement in competitive positions.

Practice Settings

Creighton family medicine residents pursue careers in various practice environments, including:

- Community health centers
- Private family medicine practices
- Hospital-based outpatient clinics
- Academic medicine and teaching roles
- Rural and underserved areas

Board Certification and Continuing Education

Most graduates successfully obtain board certification in family medicine, demonstrating their expertise and commitment to quality care. Alumni also engage in lifelong learning through continuing medical education, ensuring they remain current with evolving medical standards.

creighton family medicine residents: Challenges and Opportunities in Healthcare Leadership Angela Lampe, Cindy Costanzo, William Leggio, Timothy C. Guetterman, 2023-01-01 Leaders in healthcare today face many challenges ranging from managing interprofessional teams and teamwork, to payment reform, to tackling issues such as homelessness and the opioid crisis. Leaders have access to depth of information and resources to help them solve these complex and real-world problems. However, it is our belief that given the complexities of healthcare, there is value in sharing and learning from those who have first-hand experience with interprofessional leadership in healthcare. *Challenges and Opportunities in Healthcare Leadership: Voices from the Crowd in Today's Complex and Interprofessional Healthcare Environment*, is a volume in a book series titled, *Contemporary Perspectives in Business Leadership*. In this book, authors share their true, authentic reflections and professional stories describing the lived experience(s) of the author/leaders and how the experience changed the author/leaders' approach as an interprofessional leader. Each chapter includes a (1) story about the topic and the lived experience, (2) perspectives, and (3) lessons of the author(s). Additionally, scholarly commentary and discussion questions included within each chapter create opportunity for application to leadership theories and strategies as well as allow for reflection and further dialogue on the topic. The intended audience is broad, including faculty and students in institutions of higher education, interprofessional healthcare team leaders and members, and other healthcare stakeholders who have experience in interprofessional healthcare leadership. The book is applicable for leadership growth and development at a personal, group, or organizational level.

creighton family medicine residents: Pathological Henry J. Cordes, Todd Cooper, 2018-12-18 A horrific account of the murders, investigation, and trial of the serial killer doctor known as the "Creighton Killer." "A powerful and compelling story."—The Haunted Reading Room Detective Derek Mois wasn't sure what he was dealing with when in March 2008 he walked into a home in an affluent Omaha neighborhood and was confronted with the bodies of an 11-year-old boy and the housekeeper. Both had been murdered with kitchen knives plunged into their throats. Who would do something so vile—and why? Lacking answers, Mois and other detectives working the case were stumped. Five years later, a strikingly similar crime occurred in which two more victims were

brutally murdered with knives expertly thrust into their jugular veins. The modus operandi of the murders pointed Mois and a special task force in the direction of looking for a serial killer. But no one could have anticipated that path would lead to the Department of Pathology at Creighton University. In *Pathological: The Murderous Rage of Dr. Anthony Garcia*, authors Henry J. Cordes and Todd Cooper, who covered the story for the Omaha World-Herald, recount the dramatic tale of deep-seated revenge, determined detectives, and the sensational trial of the doctor-turned-serial killer.

Oberst MD FAAP, 2010-09-21 Come take a stroll down the memory lane of medical history. *Reflections on Pediatric Medicine from 1943 to 2010* recounts the struggles of a dedicated pediatrician as he attempts to strike a balance between a normal family life and the demands of the rapidly evolving world of modern medicine. Through vividly drawn stories compiled from a career that spans more than half a century, author Byron Oberst takes readers on an amazing journey from the early years of medicine, when there were few specific therapies with which to treat patients, to the wonders of today. From the eradication of the scourge of polio to the miracle of antibiotics to the era of organ transplantation and body imaging, Oberst offers a rare chance to experience medical progress and discovery as it happens. Written in eight parts, each spanning a unique decade, *Reflections on Pediatric Medicine from 1943 to 2010* is an unforgettable trip down memory lane with many interesting side excursions.

creighton family medicine residents: Death and Dying Nicole Piemonte, Shawn Abreu, 2021-09-07 An examination of the contemporary medicalization of death and dying that calls us to acknowledge instead death's existential and emotional realities. Death is a natural, inevitable, and deeply human process, and yet Western medicine tends to view it as a medical failure. In their zeal to prevent death, physicians and hospitals often set patients and their families on a seemingly unstoppable trajectory toward medical interventions that may actually increase suffering at the end of life. This volume in the MIT Press Essential Knowledge series examines the medicalization of death and dying and proposes a different approach--one that acknowledges death's existential and emotional realities. The authors--one an academic who teaches and studies end-of-life care, and the other a physician trained in hospice and palliative care--offer an account of Western-style death and dying that is informed by both research and personal experience. They examine the medical profession's attitude toward death as a biological dysfunction that needs fixing; describe the hospice movement, as well as movements for palliative care and aid in dying, and why they failed to influence mainstream medicine; consider our reluctance to have end-of-life conversations; and

investigate the commodification of medicine and the business of dying. To help patients die in accordance with their values, they say, those who care for the dying should focus less on delaying death by any means possible and more on being present with the dying on their journey.
