Program Overview and Structure

The Creighton Internal Medicine Residency Phoenix program is designed to offer a comprehensive educational experience that balances clinical care, research, and professional development. The residency typically spans three years, during which residents rotate through various clinical settings to gain a broad understanding of internal medicine. The program aims to develop well-rounded internists capable of providing high-quality care in diverse healthcare environments.

Curriculum Design

The curriculum is carefully structured to include core rotations in inpatient medicine, outpatient clinics, intensive care units, and subspecialty services. Didactic sessions, case conferences, and simulation exercises complement clinical training, ensuring residents

build strong diagnostic and management skills. The program also incorporates longitudinal experiences in continuity clinics, allowing residents to follow patients over time and develop longitudinal care competencies.

Program Goals

The primary goals of the Creighton internal medicine residency Phoenix include training physicians to:

- Deliver evidence-based, compassionate patient care
- Develop critical thinking and clinical decision-making skills
- Engage in lifelong learning and professional growth
- Participate in research and quality improvement initiatives
- Exhibit leadership and teamwork in healthcare settings

Clinical Training and Rotations

Clinical training is the cornerstone of the Creighton internal medicine residency Phoenix, offering residents diverse patient encounters and hands-on experience in various medical fields. Rotations are designed to expose residents to a wide spectrum of diseases and care settings, preparing them for independent practice or fellowship training.

Inpatient Services

Residents spend significant time on inpatient wards managing acute and complex medical conditions under the supervision of experienced attending physicians. This includes exposure to general medicine, cardiology, gastroenterology, infectious diseases, and other subspecialties. The program emphasizes multidisciplinary collaboration to optimize patient outcomes.

Outpatient Clinics

Outpatient experiences involve continuity clinics where residents manage chronic diseases, preventive care, and routine health maintenance. These clinics enhance residents' skills in patient communication, longitudinal care, and chronic disease management, essential components of internal medicine practice.

Intensive Care and Specialty Rotations

The residency includes rotations in intensive care units (ICUs), providing exposure to critical care medicine. Additional subspecialty rotations may include nephrology, endocrinology, pulmonology, and hematology/oncology, among others. These experiences broaden clinical knowledge and help residents identify areas for potential specialization.

Faculty and Mentorship

The strength of the Creighton internal medicine residency Phoenix lies in its dedicated faculty and mentorship. Experienced physicians and educators provide guidance, support, and feedback to foster resident growth and professional development.

Faculty Expertise

The teaching staff comprises board-certified internists and subspecialists with diverse clinical and research backgrounds. Faculty members are committed to resident education and often engage in innovative teaching methods and curriculum development.

Mentorship Programs

Each resident is paired with faculty mentors who offer career advice, academic support, and personal guidance throughout the residency. Mentorship relationships contribute significantly to residents' success in research, fellowship placement, and career planning.

Research and Scholarly Activity

Research is an integral component of the Creighton internal medicine residency Phoenix program, encouraging residents to engage in scholarly activities that advance medical knowledge and improve patient care.

Research Opportunities

Residents have access to research projects in clinical medicine, quality improvement, and medical education. The program supports participation in local, regional, and national conferences to present findings and collaborate with peers.

Scholarly Requirements

Residents are expected to complete at least one scholarly project during their training. This may include original research, case reports, or quality improvement initiatives. Faculty mentors assist with project design, implementation, and manuscript preparation.

Application Process and Requirements

The application process for the Creighton internal medicine residency Phoenix is competitive and requires careful preparation. Applicants should meet established academic and professional criteria to be considered.

Eligibility Criteria

Applicants must have graduated from an accredited medical school and be eligible for medical licensure in Arizona. International medical graduates are considered if they meet visa and certification requirements.

Thomas, 2019-10-22 Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. The long-awaited new edition of the world's most widely used and highly regarded textbook and reference of emergency medicine A Doody's Core Title for 2019! Tintinalli's Emergency Medicine is THE essential resource for everyone working in, and teaching emergency medicine. The Ninth Edition provides the depth and breadth of coverage that reflects the complexity and expertise needed to practice emergency medicine in today's fast-paced environments. This comprehensive text is an important clinical resource for physicians, residents and students, advance practice providers, emergency nurses, EMTs, and paramedics. It is a necessary resource for in-training and board examinations, and recertification. Tintinalli's Emergency Medicine covers everything from prehospital care, disaster preparedness, and basic and advanced resuscitative techniques, to all the significant medical, traumatic, and environmental conditions requiring emergency treatment in adults, children and neonates. Highlights of the Ninth Edition: • Full-color design with more tables than ever to succinctly present key information • Extensive updates to all sections, incorporating the latest clinical and evidence-based information • Online access to over 100 videos, covering a wide range of diagnostic and therapeutic procedures, and POCUS for obstetric/gynecologic, pediatric, musculoskeletal, and vascular conditions • World-class pediatric section on the care of neonates, infants, and children • Expanded chapters on the management of gynecologic and obstetric conditions and emergencies • Updated information on toxicologic and environmental emergencies • Contemporary, concise discussion of ED identification and treatment of opioid use disorders • Updated information on procedural sedation • Expert advice on the management and care of transgender patients • Latest information available on neurologic and cardiac emergencies From the reviews of the seventh edition: Collectively, they have once again produced an excellent text that manages to cover the broad scope of emergency medicine while remaining an easily readable and practical resource....Last, for the inevitable comparison of this current edition of Tintinalli's Emergency Medicine with other available emergency medicine textbooks available: in my opinion, Tintinalli's still comes out on top. It is more concise and easier to read than some, yet it covers the breadth of emergency medicine practice more comprehensively than others....Just as previous editions did, the seventh presents all of the most pertinent and up-to-date information in a

well-organized format that is comprehensive yet easy to read. That and many of the attractive new features in this current edition will ensure its place on my bookshelf for years to come.—JAMA
