critical language scholarship 2023: *Redoing Linguistic Worlds* Kris Aric Knisely, Eric Louis Russell, 2024-01-16 Language and gender are interconnected, social and relational acts through which we constantly remake our worlds. But what happens when our ways of doing gender cannot be neatly categorized into traditional binary systems, including not only the social groupings of roles, practices and identities, but also the forms and structures through which we do language? This book brings together a broad range of scholars to explore the undoing and redoing of gender binaries in non-Anglophone communities and contexts, in and through their linguistic and social reimaginings. Each of the contributions to this book reflects on this ongoing change and its place in our everyday lives, including the ways that its outcomes are both contested and fluid. This volume represents an important step in scholarship in language and gender, one that stands to inform a public increasingly aware of these remakings and one that calls on all of us to stand in the tensions of our own humanity and look through it for how our languaging might 'do' imaginary worlds that are more equitable, more connected, and more just for us all.

critical language scholarship 2023: The Oxford Handbook of Language and Prejudice Jane Setter, Sender Dovchin, Vijay A. Ramjattan, 2025-09-25 This volume explores and rearticulates the relationship between language and prejudice. Language plays an important role in the conceptualization, enactment, and defence of prejudice at both the individual and institutional level. Language (and language users) can also be the object of prejudice, and language itself can - with some conditions - be thought of as a solution to prejudice. The chapters in the volume examine how prejudice manifests itself, how it is perceived, and how it might be combatted. Parts I - III cover linguistic prejudices relating to gender and sexuality, ableism, and race and ethnicity, while Parts IV - VI explore social issues, politics and religion, and educational perspectives. The final part looks at projects and initiatives to tackle linguistic prejudice in a range of contexts. While recent work in the field has tended to inadvertently construct knowledge according to normative and Northern epistemologies, this volume features contributions that also provide an understanding of linguistic prejudice from Global South perspectives.

critical language scholarship 2023: *Redefining Language Education Through Critical Language Pedagogy* Palacios-Hidalgo, Francisco Javier, Huertas-Abril, Cristina A., 2025-02-20 Critical language pedagogy (CLP) redefines language education by integrating critical theory and social justice perspectives, aiming to foster critical thinking, social awareness, and empowerment. It emerged from the understanding that language and power are intertwined, emphasizing the need for teaching that goes beyond linguistic proficiency. By applying critical theory, CLP challenges power structures, social inequities, and cultural norms that shape language use, encouraging reflective practices and liberatory education. It promotes social justice by addressing linguistic inequalities and advocating for inclusivity in language education. Further research into CLP may empower learners to critically engage with language in the context of broader societal issues, questioning and transforming societal norms. *Redefining Language Education Through Critical Language Pedagogy* explores multiple areas of CLP, including theoretical foundations of critical language teaching, strategies and guidelines for integrating CLP into the language classroom, and practical examples of how to integrate socially and culturally relevant topics in the teaching process to promote CLP. It examines various linguistic inequalities, offering strategies for inclusive and accessible language education. This book covers topics such as higher education, social justice, and sustainable development, and is a useful resource for educators, academicians, linguists, sociologists, and researchers.

critical language scholarship 2023: American Journal of Islam and Society (AJIS) - Volume 40 Issues 3-4 Sam Houston, Muhammad Amasha, Syamsuddin Arif, Fateh Saeidi, Mehraj Din, Zainab Bint Younus, Sümeyye Sakarya, Samira I. Ibrahim, Felipe Freitas de Souza, Akif Tahiev, 2023-11-15 This issue of the *American Journal of Islam and Society* comprises four main research articles, each

shedding light on the diverse ways in which the Islamic legal and theological tradition has shaped and intersected with premodern and modern societies. To start closer to home: Sam Houston's contribution entitled "The "Metaphysical Monster" and Muslim Theology: William James, Sherman Jackson, and the Problem of Black Suffering" places American Muslim scholar Sherman A. Jackson's important monograph *Islam and the Problem of Black Suffering* in conversation with the work of American pragmatist philosopher William James and suggests that Jackson's account parallels James's account of religion in that it speaks of the "practical effectiveness" of the "web of beliefs" constituting Islamic doctrines of God. Our next article explores the practical engagement of the official ulama as spokespersons of the Islamic legal and theological tradition in a different field: post-2011 Egypt. In his article entitled, "Ideals and Interests in Intellectuals' Political Deliberations: The Arab Spring and the Divergent Paths of Egypt's Shaykh al-Azhar Ahmad al-Tayyib and Grand Mufti Ali Gomaa," Muhammad Amasha calls into question the commonplace generalizations about the ulama as being either pro-revolution or pro-regime by examining the politics of two prominent members of the pro-establishment ulama class. Syamsuddin Arif in his "Rethinking the Concept of *Fiṭra*: Natural Disposition, Reason and Conscience," turns our attention to an understudied dimension of Islamic psychology: the role of innate human nature, or *fiṭra*, in the motivation behind human action. Drawing on recent Western as well as Islamicate scholarship, it attends to the biological, epistemological, and ethical dimensions of this Qur'anic concept, suggesting that it be treated not only as the natural tendency for humans to act or think in a particular way, but specifically as the religious, ethical, and rational instinct. Finally, Fateh Saeidi's "The Early Sufi Tradition in Hamadān, Nahāwand, and Abhar: Stories of Devotion, Mystical Experiences, and Sufi Texts" explores the history of the development of early Sufism in Hamadān, Nahāwand, and Abhar through an analysis of three significant but understudied early Sufi texts: *Karāmāt* Sheikh abī 'alī al-Qūmsānī by Ibn Zīrak al-Nahāwandī (d. 471/1078), *Ādāb al-fuqarā'* by Bābā Ja'far al-Abharī (d. 428/1036), and *Rawḍat al-murīdīn* by Ibn Yazdānyār

critical language scholarship 2023: Criticality, Agency, and Language Teacher

Identities Hyunjin Jinna Kim, Huseyin Uysal, 2025-08-21 This book interrogates language teacher identity construction, negotiation, and meaning-making in today's ever-changing global contexts. By exploring language teacher identity through a critical lens and drawing on insights from language teachers and language teacher educators, it provides a deep understanding of how identity construction unfolds and transforms teaching practices. Its chapters use a wide range of methodologies and theoretical perspectives, including World Englishes, raciolinguistics, postcolonial theory and auto-ethnography. This wealth of international case studies moves beyond simply contrasting native and non-native speaking teachers to instead highlight their intersectional identities. This approach foregrounds and problematizes the power imbalances woven into language teaching and teacher education, documenting ways in which language teachers can advocate for themselves, their profession, students, families, and their communities. It also suggests ways of sharing innovative critical approaches at the intersection of LTI, agency, and today's complex socio-political and socio-historical contexts.

critical language scholarship 2023: Transnational Horror Cüneyt Çakırlar, 2025-01-20

Adopting a multi-method critical approach to the global revival of folklore-themed horror media, *Transnational Horror* contests Anglophone film scholarship's widespread adherence to its own film-historical canons. Navigating alternative meanings of 'folk horror' and locating these meanings within a transnational framework, the volume proposes a curatorial paradigm of critical transnationalism in the study of global film cultures and genre formations. The book proposes an alternative genealogy of horror media: a genealogy that decolonises, in provincialising, the dominant film-historical canons associated with the horror genre, and contributes to the formation of a transnational field of horror criticism that troubles the normative geopolitics of canonisation in film and genre studies. Through diverse accounts of scale and regionality as categorical markers of screen media, the contributors to the volume develop critical tools to address the mobility of 'folk horror' as mode and as genre, which operates within and beyond the normative registers of national belonging.

critical language scholarship 2023: The Professional Lives of Language Study Abroad

Alumni Celeste Kinginger, Jingyuan Zhuang, 2023-04-05 This book investigates the impact of language learning and study abroad on the career options and choices of US-based alumni of all ages. It reports on the results of a mixed-methods study which used both an extensive nationwide survey and qualitative life history interviews with 54 participants systematically selected to

represent a broad range of backgrounds and professions. International education experiences are shown to exert considerable influence on the aspirations and career paths of individuals in a wide variety of fields (e.g. education, healthcare, business, government service). The long-term benefits of language study are illustrated both in narratives from individuals whose work requires proficiency beyond English and from participant comments on improvement in their use of English for international communication. The book will be of relevance to a wide audience of international education professionals in addition to researchers and students in applied linguistics and language education.

critical language scholarship 2023: *How We Take Action* Kelly Frances Davidson, Stacey Margarita Johnson, L. J. Randolph, 2023-05-01 *How We Take Action* brings together practical examples of social justice in language education from a wide range of contexts. Many language teachers have a desire to teach in justice-oriented ways, but perhaps also feel frustration at how hard it is to teach in ways that we did not experience ourselves as learners and have not observed as colleagues. As a profession, we need more ideas, more examples, and wider networks of allies in this work. This book includes the work of 59 different authors including teachers and researchers at every level from Pre-K to postsecondary, representing different backgrounds, languages, and approaches to classroom practice. Organized into three sections, some of the chapters in this collection report on classroom research while others focus on key practices and experiences. Section I is entitled Inclusive and Empowering Classrooms. In this section authors take a critical approach to classroom practices by breaking with the status quo or creating spaces where students experience safety, access, and empowerment in language learning experiences. Section II, Integration of Critical Topics, addresses a variety of ways teachers can incorporate justice-oriented pedagogies in day-to-day instructional experiences. Social justice does not happen haphazardly; it requires careful, critical examination of instructional practices and intentional planning as instructors hope to enact change. Section III, Activism and Community Engagement, explores how teachers can empower students to become agents for positive change through the study of activism and constructive community engagement programs at local and global levels. ENDORSEMENTS: This volume brings an important diversity of voices, contexts, and collaborations to the ongoing conversations about social justice in language education. University experts in social justice in language education and nationally celebrated K-12 language teachers are included along with experienced practitioners whose voices are often not prioritized in scholarship. The volume serves as an invitation to the reader to engage, reflect, consider, and examine different approaches to teaching for social justice. Chapters bring in feminist pedagogies, critical pedagogies, LGBTQ affirming pedagogies, anti-bias and anti-racist approaches, decolonial lenses, critical media literacies, and more Everyone who picks up this volume will find at least one piece that immediately resonates with them, and then will be inevitably drawn in to the other engaging and thoughtful chapters. — Pamela M. Wesely, The University of Iowa This book is a must-read for those interested in social justice in language education. The range of authors, topics, languages, institutional contexts, and pedagogies is staggeringly impressive and will provide any reader with ideas and inspiration for taking action in and out of the language classroom. — Kate Paesani, University of Minnesota This excellent volume, replete with thoroughly researched strategies for promoting social justice in PK-16 world language instruction, could not have come at a more critical time in the United States when anti-democratic forces are mobilizing against equity and justice-oriented education. We in the field of language education are very fortunate to have this collection of work from more than 50 language learning scholars and practitioners, who remind us that making our classrooms more equitable, inclusive, and grounded in justice is part of doing our jobs more effectively. What's more, the volume clearly demonstrates its prioritization for inclusivity by providing robust support for those who teach young learners at the pre-kindergarten through grade 3 levels—a population woefully underrepresented in language teaching literature—and for topics that have been unjustly ignored in language education, such as racism, sexism, and the needs of LGBTQIA learners. This is a clear demonstration of the volume's uniqueness in its vast breadth of scope and attention, which is the book's most valuable

feature and why it will serve our field wonderfully for many years to come. — Uju Anya, Carnegie Mellon University

critical language scholarship 2023: Sharing Less Commonly Taught Languages in Higher Education Emily Heidrich Uebel, Angelika Kraemer, Luca Giupponi, 2023-12-22 This edited volume highlights how institutions, programs, and less commonly taught language (LCTL) instructors can collaborate and think across institutional boundaries, bringing together voices representing different approaches to LCTL sharing to highlight affordances and challenges across institutions in this collection of essays. *Sharing Less Commonly Taught Languages in Higher Education* showcases how innovation and reform can make LCTL programs and courses more attractive to students whose interests and needs might be overlooked in traditional language programs. The volume focuses on how institutions, programs, and LCTL instructors can work together, collaborating and thinking across institutional boundaries to explore innovative solutions for offering a wider range of languages and levels. With challenges including instructor isolation, difficulty in offering advanced courses or sustaining course sequences, and minimal availability of pedagogical materials compared to commonly taught languages to overcome, this collection is a vital resource for language educators and language program administrators.
