The new paperback edition is completely revised and updated to include the tumultuous two series of 2013-2014, which saw more twists and turns in this enthralling contest. No other sport has a fixture like the Ashes. From the early 1880s the rivalry between these two great sporting nations has captured the public imagination and made sporting legends of its stars. That momentous occasion set the tone for some epic contests including: The thrilling 1902 Test at Old Trafford, which was one by a mere three runs. The incredible innings of Hobbs and Sutcliffe in front of a tense and packed Oval in 1926. The legendary 'bodyline' series of Jardine, Larwood, Bradman et al in 1933. The incredible run chase in 1948 that also saw Bradman's last test. England's reprise in the fifth test of 1953 when Lock, Trueman, Bailey and Hutton steered the hosts to a whirlwind victory. Botham's Ashes in 1981 that restored pride in a sports-mad nation. The match up at old Trafford where the magic of one Shane Warne sent shockwaves through the game. And finally the breaking of the Aussie stranglehold in 2005, when Flintoff, Pietersen and Vaughan did the seemingly impossible and re-established the greatest of rivalries. The book also includes complete statistics and records of all the Ashes fixtures and results and much, much more!

cricket quick pay method: A War to the Knife Richard Bentley, 2019-06-18 The book tells the story of two test match series: England vs West Indies in 1933 and West Indies vs England in 1935. The England team was one of the best to ever play the game. Their side including: Herbert

Sutcliffe, Wally Hammond Harold Larwood and captained by Douglas Jardine had just battered Australia by 4:1 in the infamous bodyline series. Australians though regarded the bodyline series as a travesty: what was supposed to be a gentle game for gentlemen had been turned into a struggle for dominance characterised by violence, intimidation and injury. The West Indian team, made up of from the populations of Britain's scattered possessions in the Caribbean and divided by race as well as island loyalties, seemingly, had little chance against Jardine's juggernaut. But cricket in the West Indies was more than just a game, the cricket field was a place where the island's black population could meet their white compatriots as equals in competition, competitions they often won. West Indian cricket was an exciting new thing, suffused with athletic excellence, passion, the desire for dignity and financial security. Could men like: Learie Constantine, Manny Martindale and George Headley take West Indian cricket out into the world and beat the best the British had to offer?

cricket quick pay method: *The Economics of Gender and Sport* Vani Kant Borooah, 2022-08-26 While women's cricket, and women's sport in general, has gained enormously in popularity in terms of both spectators and TV audiences, comparatively little is known about it and its participants, and there are few, if any, quantitative assessments of the game. *The Economics of Gender and Sport: A Quantitative Analysis of Women's Cricket* fills that gap. The work analyses the different forms of cricket - Test cricket, One-day, T20 - and is based on the latest sets of available data. It seeks to answer questions such as how well female cricketers play, how well they are paid, who the superstars are, and how competitive women's cricket is. It also examines more general issues which affect men's cricket too, with the over-arching theme of this book being inequality. First, the chapters discuss inequality in the distribution of luck. The book discusses the importance of luck in cricket and suggests a way of distinguishing between luck and ability in determining match outcomes. Second there is access inequality, which means that players from certain groups have an advantage in terms of being chosen to play in representative teams. Third, there is inequality in tournament outcomes, and this carries implications for the degree of competitive balance in contests between teams. Fourth is the issue of inequality in the quality of umpiring in men's and women's cricket. Fifth, there is inequality between men and women in their respective remunerations as cricketers. Lastly, there is inequality in performance between players: the book explains how batting and bowling averages can be adjusted to better reflect player performance. The volume will find an audience among advanced students and researchers in sports economics, sports-related and gender studies. More generally, it will appeal to lovers of cricket who wish to read about the game in terms which are more than simply anecdotal.
