criminal minds episode pleasure is my business: Quicklet on Criminal Minds Season 4 (CliffNotes-like Summary, Analysis, and Review) Charles Limley, 2012-03-12 Quicklets: Your Reading Sidekick! ABOUT THE BOOK Season Four of Criminal Minds aired on CBS September 24, 2008, and ran until May 20, 2009. One of the biggest events in this season is the temporary absence of Agent Jennifer JJ Jareau, who leaves for several episodes while on maternity leave. Agent Jordan Todd steps in to fill JJ's role as the BAU's media liaison, though she returns to her former post in the FBI's counter-terrorism unit when JJ's maternity leave ends. Criminal Minds follows an elite team of FBI criminal investigators, known as the Behavioral Analysis Unit (BAU), as its members travel the country working to solve grisly murder mysteries and arresting the serial killers responsible for them. During its premier season, Criminal Minds was the newest iteration of crime scene investigation television programs, competing with such shows as CSI: Crime Scene Investigation, Crossing, Law & Order: SUV, and Medium, many of which were also broadcast on CBS. Given this context, Criminal Minds used its first season to set itself apart from the crowd. At the start of Season Four, Criminal Minds had established itself as a leader in the crime scene investigation genre. MEET THE AUTHOR Charles Limley is a native of Colorado. After earning bachelors degrees in both English Literature and Humanities from the University of Colorado Boulder, he entered the world of professional writing. He began his work with Hyperink during the fall of 2011. In addition to writing, Limley is an avid reader. He also loves bicycles, and has completed several long-distance bicycle tours. EXCERPT FROM THE BOOK This fundamental theme is articulated early on in the series history when former Agent Gideon reminds Agent Reid that for a psychological profiler, the most effective weapon is the ability to empathize to humanize an unsub's victim (TV, Criminal Minds: Episode Guide). Gideon tells Reid that only by reversing the dehumanizing effects of crime and murder, returning to the victims their dignity and worth as individuals, can an effective and accurate profile of the perpetrator be constructed. Thus, for the characters of Criminal Minds, solving crimes and arresting serial killers is ultimately an act of recognizing and maintaining the value inherent in each individual victim. Season Four of Criminal Minds presents a series of exciting, suspenseful, and often times eerie tales that work together to create a larger story of dedication, friendship, and cooperation. Although they must face some of the most horrific and truly grotesque crimes imaginable, members of the BAU team consistently rely on logic, intellect, instinct, empathy, and even compassion to infiltrate the frighteningly deranged minds of killers. By doing so, they help remove criminals from society and prevent the occurrence of any future violence... Buy a copy to keep reading! Transmission is a story about transformation and the development of self-love. After 20 years of traveling throughout the U.S., Millie Morrison returns to her hometown to make sense of the experiences and relationships that have shaped her life. In so doing, Millie explores where she came from, what moments linger despite the passage of time, and who she is and wants to be standing on the edge of 40 years old. Her journey thus becomes a consideration on how we incorporate who we are with who others expect us to be. ... From "Transmission" "I guess you're right, or I'm right, we're right maybe. I guess I'm very emotional right now. I haven't thought about Josie in years, I just haven't, it was almost like I forgot her somehow. The song started playing, and I know you always said I had way too much of an emotional reaction to that song, but it started playing and I could see her. I don't mean I was thinking about her, necessarily, it was different. I could see her, three years old in pig tails, seven years old dancing in the grass, twelve years old climbing the magnolia tree in front of her house that her mother was allergic to, fifteen years old showing me how to do my makeup that night before we all went out to the party out in the field on the edge of the park. I could see her like she was really there. I could hear her voice. I could feel her laugh. The tears just flooded me. There was no warning. She just came crashing back into my head like she'd always been there, maybe hiding somewhere waiting for the right moment."
