

csu dominguez hills occupational therapy

csu dominguez hills occupational therapy is a distinguished program designed to prepare students for successful careers in occupational therapy, a vital healthcare field focused on helping individuals develop, recover, or maintain meaningful daily activities and functional abilities. This article explores the key features of the CSU Dominguez Hills occupational therapy program, including its curriculum, admission requirements, clinical experiences, and career outcomes. With a focus on evidence-based practice, community engagement, and comprehensive training, the program equips graduates to meet the growing demand for occupational therapists in diverse healthcare settings. Readers will gain insight into how CSU Dominguez Hills fosters professional development and practical skills to excel in this rewarding discipline. The following sections provide an in-depth overview of the academic structure, fieldwork opportunities, faculty expertise, and the advantages of pursuing occupational therapy at this California State University campus.

- Overview of CSU Dominguez Hills Occupational Therapy Program
- Curriculum and Academic Structure
- Admission Requirements and Application Process
- Clinical Fieldwork and Practical Training
- Faculty and Research Opportunities
- Career Prospects and Professional Development

Overview of CSU Dominguez Hills Occupational Therapy Program

The CSU Dominguez Hills occupational therapy program is committed to training competent, compassionate, and culturally responsive occupational therapists. This program offers a master's degree in occupational therapy with a curriculum designed to address the evolving needs of healthcare and rehabilitation. Emphasizing a holistic approach, the program integrates theory, research, and practice to prepare students for diverse clinical environments.

Students benefit from a comprehensive educational experience that includes classroom instruction, laboratory work, and fieldwork placements. The program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE), ensuring that graduates meet the standards required for professional certification and licensure.

Curriculum and Academic Structure

The academic structure of the CSU Dominguez Hills occupational therapy program balances foundational sciences, occupational therapy theory, and applied clinical skills. The curriculum is

designed to develop critical thinking, clinical reasoning, and evidence-based practice competencies essential for occupational therapists.

Core Coursework

Core courses cover topics such as human anatomy and physiology, kinesiology, neuroscience, psychosocial aspects of occupation, and therapeutic interventions. Students engage with content that spans lifespan development and diverse populations, including pediatrics, adults, and geriatric clients.

Specialized Electives

The program offers electives that allow students to focus on areas such as assistive technology, mental health, community-based rehabilitation, and ergonomic consulting. These electives enable students to tailor their education to specific interests within occupational therapy.

Skills Development

Laboratory sessions and simulation experiences provide hands-on training in therapeutic techniques, adaptive equipment use, and patient assessment. This practical emphasis ensures that students graduate with the skills necessary for effective intervention in real-world settings.

- Human anatomy and physiology
- Neuroscience and motor control
- Psychosocial factors in therapy
- Therapeutic techniques and interventions
- Research methods and evidence-based practice

Admission Requirements and Application Process

Admission into the CSU Dominguez Hills occupational therapy program is competitive and requires applicants to demonstrate strong academic credentials, relevant experience, and commitment to the profession. Prospective students must meet specific prerequisites and follow a detailed application process.

Prerequisite Coursework

Applicants need to complete prerequisite courses in biology, psychology, chemistry, statistics, and anatomy with satisfactory grades. These foundational courses ensure that students have the

necessary background to succeed in the rigorous graduate curriculum.

Application Materials

The application includes academic transcripts, letters of recommendation, a personal statement, and a resume highlighting relevant volunteer or work experience in occupational therapy or related health fields. Some applicants may be required to participate in an interview as part of the selection process.

Minimum GPA and Testing

A competitive GPA, typically above 3.0, is required. While GRE scores are not always mandatory, submitting them can strengthen an application. The program values applicants with diverse experiences and backgrounds that contribute to occupational therapy practice.

Clinical Fieldwork and Practical Training

Clinical fieldwork is a critical component of the CSU Dominguez Hills occupational therapy program, providing students with supervised, hands-on experience in a variety of healthcare settings. These placements allow students to apply theoretical knowledge and develop professional competencies.

Level I Fieldwork

Level I fieldwork occurs early in the program and introduces students to occupational therapy practice in controlled environments. This phase emphasizes observation, participation in selected activities, and familiarization with clinical procedures.

Level II Fieldwork

Level II placements are more intensive and require students to demonstrate independent clinical reasoning and intervention skills. These full-time experiences in hospitals, rehabilitation centers, schools, and community agencies prepare students for entry-level practice.

Community Engagement

The program encourages involvement in community-based projects and outreach programs that promote health and wellness. Such experiences enrich students' understanding of social determinants of health and culturally competent care.

- Supervised clinical rotations
- Diverse practice settings

- Interdisciplinary collaboration
- Professional skill development
- Community health initiatives

Faculty and Research Opportunities

The CSU Dominguez Hills occupational therapy faculty comprise experienced clinicians, educators, and researchers dedicated to advancing occupational therapy knowledge and practice. Faculty members actively engage in research projects that inform evidence-based interventions and policy development.

Faculty Expertise

Faculty expertise spans areas such as neurological rehabilitation, pediatric therapy, mental health, assistive technology, and aging. Their mentorship supports student research and professional growth.

Student Research

The program encourages student participation in research activities, including thesis projects and collaborative studies. Research involvement helps students develop analytical skills and contribute to the occupational therapy body of knowledge.

Continuing Education

Faculty facilitate workshops, seminars, and continuing education opportunities that keep students and alumni current with emerging trends and best practices in occupational therapy.

Career Prospects and Professional Development

Graduates of the CSU Dominguez Hills occupational therapy program are well-prepared to enter a dynamic job market with diverse employment opportunities. The program's comprehensive training and fieldwork experiences position graduates for success in various healthcare environments.

Employment Settings

Occupational therapists from CSU Dominguez Hills find employment in hospitals, outpatient clinics, schools, rehabilitation centers, long-term care facilities, and community organizations. The demand for occupational therapy services continues to grow due to an aging population and increased awareness of occupational health.

Licensure and Certification

Graduates are eligible to sit for the National Board for Certification in Occupational Therapy (NBCOT) exam, a requirement for licensure in most states. The program's curriculum aligns with NBCOT standards to ensure readiness for certification and practice.

Professional Growth

CSU Dominguez Hills supports ongoing professional development through alumni networks, continuing education, and opportunities for specialization. Graduates are encouraged to pursue advanced certifications and leadership roles within the occupational therapy community.

- Hospitals and rehabilitation centers
- Educational institutions
- Community health agencies
- Private practice and consulting
- Research and academia

Frequently Asked Questions

What programs does CSU Dominguez Hills offer in occupational therapy?

csu dominguez hills occupational therapy: California State University, Dominguez Hills
Gregory L. Williams, 2010-03-01 Celebrating its 50th anniversary in 2010, California State University Dominguez Hills has been a dynamic urban university tasked with educating students who often become the first in their families to attend college. CSU Dominguez Hills is located in Carson, Los Angeles County, and boasts one of the most ethnically diverse enrollments in the United States. Chartered in 1960 as a liberal arts college serving baby boomers in Los Angeles South Bay region, CSU Dominguez Hills has grown into a university dedicated to personalized learning. After years of wrangling over the college's location, classes began in 1965 in a bank building and the next year moved to Dominguez Hills. By the end of the 1970s, the campus included several thousand students attending classes in 10 architecturally unique buildings. In the 21st century, CSU Dominguez Hills offers 45 undergraduate majors and 24 masters degrees.

csu dominguez hills occupational therapy: Kielhofner's Research in Occupational Therapy
Renee Taylor, 2023-10-16 Renée Taylor and an international team of contributors carry on Gary Kielhofner's innovative vision to demystify the research process and demonstrate that research is essential to occupational therapy practice. They present a comprehensive guide to conducting applied research in the field from qualitative, quantitative, and mixed perspectives for students and clinicians. You'll begin with a grounding in conducting evidence-based practice in OT and an explanation of the six broad components of the research process. Then you will explore research designs, measurements, and statistical analysis for qualitative and quantitative studies. You'll examine the steps and procedures required to conduct research and how research can be used to shape professional practice and improve patient care.

csu dominguez hills occupational therapy: Community Practice in Occupational Therapy
Susan Meyers, 2010-10-25 Community Practice in Occupational Therapy: A Guide to Serving the Community integrates the history of health care and principles of management, marketing, and economics to provide guidelines for community practice. It examines existing occupational therapy practices that serve specific age groups and encourages professionals to identify innovative ways to aid underserved areas in their community.--BOOK JACKET.

csu dominguez hills occupational therapy: Occupational Therapy for Children - E-Book
Jane Case-Smith, Jane Clifford O'Brien, 2013-08-07 The sixth edition of Occupational Therapy for Children maintains its focus on children from infancy to adolescence and gives comprehensive coverage of both conditions and treatment techniques in all settings. Inside you'll discover new author contributions, new research and theories, new techniques, and current trends to keep you in step with the changes in pediatric OT practice. This edition provides an even stronger focus on evidence-based practice with the addition of key research notes and explanations of the evidentiary basis for specific interventions. Unique Evolve Resources website reinforces textbook content with

video clips and learning activities for more comprehensive learning. Case studies help you apply concepts to actual situations you may encounter in practice. Evidence-based practice focus reflects the most recent trends and practices in occupational therapy. Unique! Chapter on working with adolescents helps you manage the special needs of this important age group. Unique! Research Notes boxes help you interpret evidence and strengthen your clinical decision-making skills. Video clips on a companion Evolve Resources website reinforce important concepts and rehabilitation techniques.

csu dominguez hills occupational therapy: Occupational Therapy with Elders - E-Book Rene Padilla, Sue Byers-Connon, Helene Lohman, 2011-03-18 The only comprehensive book on geriatric occupational therapy designed specifically for the COTA, Occupational Therapy with Elders: Strategies for the COTA, 3rd Edition provides in-depth coverage of each aspect of geriatric practice, from wellness and prevention to death and dying. A discussion of foundational concepts includes aging trends and strategies for elder care, and coverage of emerging areas includes low-vision rehabilitation, mobility issues including driving, and Alzheimer's disease and other forms of dementia. Expert authors René Padilla, Sue Byers-Connon, and Helene Lohman offer an unmatched discussion of diverse populations and the latest on geriatric policies and procedures in this fast-growing area of practice. Unique! A focus on the occupational therapy assistant highlights the importance of COTAs to the care of elder clients. Case studies illustrate principles and help you apply what you've learned to actual situations. Key terms, chapter objectives, and review questions highlight important content in each chapter. Use of the term elder reduces the stereotypical role of dependent patients and helps to dispel myths about aging. A multidisciplinary approach demonstrates how the OT and the COTA can collaborate effectively. Unique! Attention to diverse populations and cultures prepares you to respect and care for clients of different backgrounds. Unique! The companion Evolve website makes review easier with more learning activities, references linked to MEDLINE abstracts, and links to related OT sites. Unique! A discussion of elder abuse, battered women, and literacy includes information on how the COTA can address these often-overlooked issues. New information on alternative treatment settings for elders reflects new trends in OT care. Updated information on Medicare, Medicaid, and HIPAA regulations discusses the latest policies and how to incorporate the newest procedures into practice. Significant additions are made to the chapters on public policy, dementia, and oncology.

csu dominguez hills occupational therapy: Occupational Therapy in the Philippines Michael Sy, Roi Charles Pineda, Caroline Fischl, 2025-03-14 The first book of its kind, Occupational Therapy in the Philippines provides a context to the existing occupational therapy knowledge base from a Filipino perspective. This book acts as a guide for occupational therapists to develop and continually evaluate trusting working relationships with clients and other health and social care professionals, leading to more effective occupational therapy services. It discusses occupational therapy concepts, principles, and practices and illustrates examples of occupational therapy practices based on Filipino case studies, narratives, and evidence, and offers recommendations on how to enrich occupational therapy understanding globally. The chapters delve into theory, education and training, clinical practice, research, case studies and topical issues. This book is an ideal read for occupational therapy students and practitioners from all areas of practice as well as to those who are interested to know more about occupational therapy.

csu dominguez hills occupational therapy: Functional Performance in Older Adults Bette R Bonder, Vanina Dal Bello-Haas, 2017-12-04 Support the very best health, well-being, and quality of life for older adults! Here's the ideal resource for rehabilitation professionals who are working with or preparing to work with older adults! You'll find descriptions of the normal aging process, discussions of how health and social factors can impede your clients' ability to participate in regular activities, and step-by-step guidance on how to develop strategies for maximizing their well-being.

csu dominguez hills occupational therapy: Universal Access in Human-Computer Interaction. Addressing Diversity Constantine Stephanidis, 2009-07-15 This three-volume set LNCS

5614-5616 constitutes the refereed proceedings of the 5th International Conference on Universal Access in Human-Computer Interaction - Addressing Diversity, UAHCI 2009, held as Part of HCI International 2009, in San Diego, CA, USA, in July 2009, jointly with 8 other thematically similar conferences. The revised papers presented were carefully reviewed and selected from numerous submissions. The papers accepted for presentation thoroughly cover the entire field of Human-Computer Interaction, addressing major advances in universal access namely interaction and support for people with sensory impairments, older users and technology interaction and support for people with cognitive impairments, design knowledge and approaches for accessibility and universal access.

csu dominguez hills occupational therapy: *Graduate Programs in the Biological/Biomedical Sciences & Health-Related Medical Professions 2014 (Grad 3)* Peterson's, 2013-12-20 Peterson's Graduate Programs in the Biological/Biomedical Sciences & Health-Related Medical Professions 2014 contains comprehensive profiles of nearly 6,800 graduate programs in disciplines such as, allied health, biological & biomedical sciences, biophysics, cell, molecular, & structural biology, microbiological sciences, neuroscience & neurobiology, nursing, pharmacy & pharmaceutical sciences, physiology, public health, and more. Up-to-date data, collected through Peterson's Annual Survey of Graduate and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, requirements, expenses, financial support, faculty research, and unit head and application contact information. csu dominguez hills occupational therapy: MAMA'S PUTTING YOU UP ON GAME Grace Chang Piggue, 2023-02-24 Mama's Putting You Up on Game! From uncomfortable topics like sex, drinking, and relationships, Grace Chang Piggue speaks to you straight-up as if you are one of her own daughters and brings up real-life trials she faced such as living as an immigrant to high school heartbreaks. Born in Toronto, Canada, yet raised in the City of Angels, she bluntly talks about her childhood to her high school graduation at Bellflower High School and how her core foundation kept her anchored in God. She keeps it one hundred and puts herself out there as she is continuously learning to be a parent through her faith and obedience in Jesus Christ. She wrote this memoir especially for her daughters to put them up on game, which in turn became a healing movement and turned her testimony into His ministry.

csu dominguez hills occupational therapy: Occupational Therapy with Elders Sue Byers-Connon, Helene Lohman, 2004 This unique resource clearly presents a comprehensive range of elder care strategies and insights for the COTA. Coverage includes important trends, concepts and theories related to aging, as well as professional issues for occupational therapy professionals. A multi-disciplinary approach demonstrates the importance of the collaboration between the Occupational Therapist, Registered (OTR), and COTA. Highlights the importance of COTAs to the care of elder patients. Key terms, chapter objectives, and review questions highlight key chapter content. Case Studies illustrate important principles and help readers apply what they've learned to actual situations. Reduces the stereotypical role of dependent patients and dispels myths about aging. Reflects the recently adopted Occupational Therapy Practice Framework and its interpretation when caring for elder patients. AARP statistics and AOTA documents have been updated to reflect current information. New photos have been added to enhance the material presented. The appendix on web resources is now divided by chapter and includes a brief description of each website. Features a new Evolve site with review questions and answers, web links, and much more. New cases studies and review questions are included in each chapter. Practice settings coverage has been expanded to cover traditional, non-traditional and assisted living facilities. The hospice chapter features new guidelines on effective communication with elders. The Aging Trends and Concepts chapter includes a discussion of the growing number of elder Americans living over the age of one hundred. The principle of thriving is introduced and discussed in the

Social and Biological Theories of Aging chapter. In the chapter on Psychological Aspects of Aging, the need for elder social support is introduced and discussed, as is the principle of physical illness in relation to coping with a chronic disease or serious illness. Features an extended and updated discussion of Medicare, Federal Public Policies, and other public sources of funding and how they relate to COTA practice. Other rehabilitation services and coverage concepts are discussed in relation to Federal Health Care Policy. The Occupational Theories with Elders chapter introduces the Occupational Therapy Practice Framework and presents several new scenarios that illustrate the framework in use. The chapter on sexuality in elders was expanded to include a specific discussion of elder homosexuals. A new section on wheelchair seating and positioning was added to the mobility chapter. Discusses decreased acuity and oculomotor dysfunction, and includes an in-depth presentation of the settings in which visual impairments are addressed. Features the latest information on arthritis therapy and total knee replacement.

csu dominguez hills occupational therapy: Developing Occupation-Centered Programs With the Community Linda Fazio, 2024-06-01 The updated Third Edition of Developing Occupation-Centered Programs With the Community continues to provide an excellent step-by-step workbook approach to designing and implementing a program for the community. Inside Developing Occupation-Centered Programs With the Community, Third Edition, Dr. Linda Fazio includes the importance of community asset identification and development toward sustainability. The Third Edition includes new and updated content on evidence-based practice; program evaluation at multiple levels; funding; nonprofits and social entrepreneurship. Additionally, new trending issues of interest to programmers include human trafficking, post-combat programming for military veterans and their families, arts-based programming for all ages, and programming to meet current needs of the well-elderly. Features of the Third Edition: Workbook format offers the instructor and the student options for how to use the text in a classroom or independently in an internship or residency. The order of the programming process, chapter content order, summaries, and format of exercises has been retained to ease transition for instructors using previous editions of the text. The program "story" section has been retained, along with author's notes on what is currently happening with these programs and other related topic areas New content has been added in program sustainability, the assessment and building of community assets, and consensus organizing in communities. More developed content is offered about the structure and function of nonprofit organizations as well as the role and function of the social entrepreneur who does programming for these organizations. Included with the text are online supplemental materials for faculty use in the classroom. Developing Occupation-Centered Programs With the Community, Third Edition is an excellent introductory tool and is a valuable resource for occupational therapy students at all levels, as well as experienced practitioners in a clinical setting.
