ctc financial aid number: *Terrorism and the State* Tal Becker, 2006-03-23 Winner of the 2007 Paul Guggenheim Prize! Today's terrorists possess unprecedented power, but the State still plays a crucial role in the success or failure of their plans. Terrorists count on governmental inaction, toleration or support. And citizens look to the State to protect them from the dangers that these terrorists pose. But the rules of international law that regulate State responsibility for preventing terrorism were crafted for a different age. They are open to abuse and poorly suited to hold States accountable for sponsoring or tolerating contemporary terrorist activity. It is time that these rules were reconceived. Tal Becker's incisive and ground-breaking book analyses the law of State responsibility for non-State violence and examines its relevance in a world coming to terms with the threat of catastrophic terrorism. The book sets out the legal duties of States to prevent, and abstain from supporting, terrorist activity and explores how to maximise State compliance with these obligations. Drawing on a wealth of precedents and legal sources, the book offers an

innovative approach to regulating State responsibility for terrorism, inspired by the principles and philosophy of causation. In so doing, it presents a new conceptual and legal framework for dealing with the complex interactions between State and non-State actors that make terrorism possible, and offers a way to harness international law to enhance human security in a post-9/11 world.

ctc financial aid number: Debating Terrorism and Counterterrorism Stuart Gottlieb, 2025-04-15 This innovative text, now in its third edition, focuses students on engaging and informative debates on the most crucial issues in the field of terrorism and counterterrorism. Leading scholars, practitioners, and think-tank experts provide original essays that juxtapose pro and con arguments on hotly contested topics of clear importance to the understanding of the past, present, and future of terrorism and counterterrorism. These include: disagreements over the evolving nature of terrorist organizations, whether terrorism is ever justified, the role of poverty as a root cause of terrorism, whether militant jihadism or far-right extremism poses the greater terror threat, the likelihood of nuclear terrorism, whether military or non-military solutions should lead counterterrorism efforts, the utility of international organizations in helping to combat terrorism, and whether trade-offs with civil liberties are necessary to protect national security in an age of mass-casualty terrorism. The book's editor frames all twelve debate chapters (six each for terrorism and counterterrorism) with incisive headnotes providing historical context and highlighting the critical stakes involved for each topic. By the book's end, readers will have a sophisticated grasp of the terrorism challenges, conundrums, and counter-options being considered and contested in academic departments and policy circles in the United States and around the world.

ctc financial aid number: The Film Industry in Brazil Randal Johnson, 2010-11-23 Looking back through the prism of the severe economic crisis for filmmaking in the 1980s, *The Film Industry in Brazil* explores the unusual relationship between the state-supported industry, which often produced politically radical films, and the authoritarian regime that had held sway for twenty years. To ground his analysis, Johnson covers the early years of the film industry, 1898-1930; attempts at industrialization during the 1930s and 1940s; film industry congresses and government film boards, 1950-1966; the National Film Institute, 1966-1975; and the expansion of the state's role from 1969

through 1980. Well-conceived, carefully researched and documented, Johnson's study fills a major gap in film studies by tracing the development of this industry in Brazil, focusing specifically on its relationship to the state.

ctc financial aid number: *Improving the Health, Safety, and Well-Being of Young Adults* National Research Council, Institute of Medicine, Board on Children, Youth, and Families, 2013-09-27 Young adults are at a significant and pivotal time of life. They may seek higher education, launch their work lives, develop personal relationships and healthy habits, and pursue other endeavors that help set them on healthy and productive pathways. However, the transition to adulthood also can be a time of increased vulnerability and risk. Young adults may be unemployed and homeless, lack access to health care, suffer from mental health issues or other chronic health conditions, or engage in binge drinking, illicit drug use, or driving under the influence. Young adults are moving out of the services and systems that supported them as children and adolescents, but adult services and systems-for example, the adult health care system, the labor market, and the justice system-may not be well suited to supporting their needs. *Improving the Health, Safety, and Well-Being of Young Adults* is the summary of a workshop hosted by the Board on Children, Youth, and Families of the Institute of Medicine (IOM) and the National Research Council (NRC) in May, 2013. More than 250 researchers, practitioners, policy makers, and young adults presented and discussed research on the development, health, safety, and well-being of young adults. This report focuses on the developmental characteristics and attributes of this age group and its placement in the life course; how well young adults function across relevant sectors, including, for example, health and mental health, education, labor, justice, military, and foster care; and how the various sectors that intersect with young adults influence their health and well-being. *Improving the Health,*

Safety, and Well-Being of Young Adults provides an overview of existing research and identifies research gaps and issues that deserve more intensive study. It also is meant to start a conversation aimed at a larger IOM/NRC effort to guide research, practices, and policies affecting young adults.
