History and Mission of the Fortune Society

Founding and Origins

The fortune society in new york city was founded in 1967 by David Rothenberg and other community activists who recognized the urgent need for support services for formerly incarcerated individuals. The organization originated from efforts to combat the stigma and systemic barriers faced by people returning from prison, aiming to promote their successful reintegration into society. Rooted in principles of social justice and human dignity, the Fortune Society sought to address the cycle of recidivism by providing comprehensive and compassionate assistance.

Core Mission and Values

The mission of the fortune society in new york city centers on helping individuals with criminal justice involvement achieve self-sufficiency and lead meaningful lives. The organization prioritizes respect, empowerment, and equity, focusing on reducing homelessness, unemployment, and social isolation among its clients. Its values emphasize community building, harm reduction, and advocacy

for systemic change to dismantle barriers that hinder reentry success.

Programs and Services Offered

Housing Assistance

One of the primary services provided by the fortune society in new york city is housing support. Stable housing is considered a foundational element for successful reentry, and the organization offers a variety of housing options including transitional housing, supportive housing, and emergency shelter. These programs are designed to accommodate the unique needs of formerly incarcerated individuals, ensuring safety, stability, and access to additional resources.

Employment and Education Services

Employment and education are critical components of the fortune society's approach to rehabilitation. The organization provides job readiness training, vocational programs, and placement services to help clients gain sustainable employment. Additionally, educational opportunities such as GED preparation, college courses, and life skills workshops are offered to enhance personal and professional growth.

Mental Health and Substance Use Support

Addressing mental health and substance use disorders is a vital aspect of the fortune society in new york city's programming. Through counseling, peer support groups, and case management, the organization assists clients in managing these challenges. This holistic approach acknowledges the complex factors contributing to incarceration and supports overall well-being and recovery.

Legal and Social Support

The fortune society also offers legal assistance and social services to help clients navigate the criminal justice system, obtain identification documents, and access benefits. These services reduce bureaucratic barriers and facilitate smoother transitions back into community life.

Summary of Key Services

- Transitional and supportive housing
- Job training and placement
- Educational programs and GED preparation
- Mental health counseling and substance use treatment

- Legal aid and social service navigation

Impact on Recidivism and Community Reintegration

Effectiveness in Reducing Recidivism

The Fortune Society in New York City has demonstrated significant success in lowering recidivism rates among its participants. By providing comprehensive wraparound services that address housing, employment, and health needs, clients are better equipped to avoid returning to the criminal justice system. Studies and internal data indicate that engagement with the Fortune Society correlates with improved long-term outcomes.

Community Integration and Support Networks

Beyond reducing reoffending, the organization fosters social inclusion by creating opportunities for community engagement and support. Peer mentoring programs and group activities help build relational ties, reduce stigma, and promote a sense of belonging. These efforts contribute to safer neighborhoods and a stronger social fabric in New York City.

Collaborations with Other Agencies

The Fortune Society in New York City collaborates with government agencies, nonprofit organizations, and local businesses to expand its reach and effectiveness. Partnerships enhance resource availability and create a coordinated network of services that better serve individuals returning from incarceration.

fortune society in new york city: City Time David Campbell, Jarrod Shanahan, 2025-01-07 A unique insider perspective of daily life in New York City's most notorious house of correction While most people behind bars at Rikers Island are detainees awaiting the settlement of their cases, a smaller population have already been convicted and are serving sentences deemed too short for the state prison system. These stints are called "city time." The sentences range from a few days to a year, and are generally served within large, open dormitories lacking in privacy and sanitation. Within these spaces, incarcerated people reproduce an elaborate set of rules, rituals, and relationships, as a means both of survival and of giving meaning to the time taken from them. Written by David Campbell and Jarrod Shanahan, who both served sentences at Rikers, City Time

reflects its authors' personal experiences and observations of short-stay incarceration to present a nuanced and vivid account of a social world kept locked away from the public eye. The authors reconstruct the daily realities of sanitation, nourishment, recreation, work, and other necessary activities, and emphasize the complex interpersonal relationships that emerge in response to city time. Simultaneously, they paint a grim and urgent picture of structural racism, class violence, and the disastrous lack of mental health and substance abuse resources for poor New Yorkers, who are shuttled in and out of city time sentences as "frequent flyers." Beginning with the authors' own processes of intake, and ending with the ritual of late-night release, *City Time* takes readers behind the splashy headlines to depict, in intimately human terms, the rich and variegated social world unfolding, at this very moment, on Rikers Island.

fortune society in new york city: The Encyclopedia of New York City Kenneth T. Jackson, Lisa Keller, Nancy Flood, 2010-12-01 Covering an exhaustive range of information about the five boroughs, the first edition of *The Encyclopedia of New York City* was a success by every measure, earning worldwide acclaim and several awards for reference excellence, and selling out its first printing before it was officially published. But much has changed since the volume first appeared in 1995: the World Trade Center no longer dominates the skyline, a billionaire businessman has become an unlikely three-term mayor, and urban regeneration—Chelsea Piers, the High Line, DUMBO, Williamsburg, the South Bronx, the Lower East Side—has become commonplace. To reflect such innovation and change, this definitive, one-volume resource on the city has been completely revised and expanded. The revised edition includes 800 new entries that help complete the story of New York: from Air Train to E-ZPass, from September 11 to public order. The new material includes broader coverage of subject areas previously underserved as well as new maps and illustrations. Virtually all existing entries—spanning architecture, politics, business, sports, the arts, and more—have been updated to reflect the impact of the past two decades. The more than 5,000 alphabetical entries and 700 illustrations of the second edition of *The Encyclopedia of New York City* convey the richness and diversity of its subject in great breadth and detail, and will continue to serve as an indispensable tool for everyone who has even a passing interest in the American metropolis.

fortune society in new york city: Skyscraper Jails Zhandarka Kurti, Jarrod B. Shanahan, 2025-03-11 A damning account of the latest transformation in mass incarceration, revealing how powerful nonprofits and so-called progressives used the language of social movements to build new jails. In 2019, after unyielding pressure from activists, New York City seemed poised to close the detested Rikers Island penal colony. The local press dutifully reported that the end of Rikers was imminent, and New Yorkers celebrated the closure of the country's largest urban jail, condemned as a moral stain on an otherwise great city. The problem, however, was that the city had not actually committed to closing Rikers. And at the same time, it laid the groundwork for the construction of more jails, a network of skyscraper facilities amounting to the largest carceral construction the city has seen in decades. How did this happen? In *Skyscraper Jails*, scholars and organizers Jarrod Shanahan and Zhandarka Kurti detail how progressive forces in New York City appropriated the rhetoric of social movements and social justice to promise "downsized" and "humane jails. The principal advocates of these new jails were not right-wing politicians, but prominent city activists and progressive non-profit organizations. As the political coalition that campaigned for the new jails fans out across the United States, the story at the heart of *Skyscraper Jails* is at once a case study and a cautionary tale for what will be coming to cities and towns across the United States and beyond.

fortune society in new york city: The Fight for Fair Housing Gregory D. Squires, 2017-10-16 The federal Fair Housing Act of 1968 was passed in a time of turmoil, conflict, and often conflagration in cities across the nation. It took the assassination of Dr. Martin Luther King, Jr. to finally secure its passage. The Kerner Commission warned in 1968 that to continue present policies is to make permanent the division of our country into two societies; one largely Negro and poor, located in the central cities; the other, predominantly white and affluent, located in the suburbs and outlying areas. The Fair Housing Act was passed with a dual mandate: to end discrimination and to dismantle the segregated living patterns that characterized most cities. *The Fight for Fair Housing* tells us what happened, why, and what remains to be done. Since the passage of the Fair Housing Act, the many forms of housing discrimination and segregation, and associated consequences, have been documented. At the same time, significant progress has been made in counteracting discrimination and promoting integration. Few suburbs today are all white; many people of color are moving to the suburbs; and some white families are moving back to the city. Unfortunately, discrimination and segregation persist. *The Fight for Fair Housing* brings together the nation's leading fair housing activists and scholars (many of whom are in both camps) to tell the stories that led to the passage of the Fair Housing Act, its consequences, and the implications of the act going forward. Including an afterword by Walter Mondale, this book is intended for everyone concerned with the future of our cities and equal access for all persons to housing and related opportunities.

fortune society in new york city: *Evaluating HIV/AIDS Treatment Programs* George J Huba, Lisa A Melchior, Vivian Brown, A.T. Panter, Trudy A Larson, Pauline Fitzpatrick, 2020-04-03 Create effective community-based programs for substance abusers with HIV/AIDS! Substance abusers are the fastest-growing population of people with HIV/AIDS in the US--and one of the hardest to reach and treat. *Evaluating HIV/AIDS Treatment Programs* offers new strategies for providing care for this vulnerable population. The programs evaluated and discussed in this volume were funded as part of the DHHS Health Resources and Services Administration through its Special Projects of National Significance Program. Collectively known as the SPNS Cooperative Agreement, these 27 projects represent a diverse group of organizations with a common goal: to improve the health, quality of life, and access to health care for traditionally underserved populations living with HIV/AIDS. *Evaluating HIV/AIDS Treatment Programs* reports in detail the efforts of several community-based HIV/AIDS organizations in the SPNS program. You will learn how these organizations provide high-quality care for persons with HIV who are unlikely to obtain it in the traditional hospital-based service system. This volume offers specific, proven strategies designed to overcome the linguistic, cultural, racial, and economic barriers that make it difficult for some sick people to get the health care they need. It also offers specialized medical care models that work within the context of a continuum of services in a medical clinic. *Evaluating HIV/AIDS Treatment Programs* also highlights other aspects of the Cooperative Agreement projects, including: a study of end-stage AIDS care an overview of the HRSA HIV/AIDS Bureau SPNS Cooperative Agreement grant initiative a study of conceptual issues in implementing program evaluation in real-world community organizations discussion of the online Knowledge Base that summarizes and disseminates information from the Cooperative Agreement projects studies of ways to reach and care for specific populations with HIV/AIDS, including women, Latinos, Haitians, adolescents, and rural people This valuable volume offers solid data on treating people who are all too often neglected by the medical community even before they contract HIV/AIDS. The programs and ideas presented in *Evaluating HIV/AIDS Treatment Programs* can be applied to other community-based health initiatives and clinics offering medical care to underserved and vulnerable populations. This essential resource deserves a permanent place on their bookshelf of any physician, administrator, or policymaker working in the fields of HIV/AIDS, epidemiology, public health, or substance abuse. fortune society in new york city: *Support Programs for Ex-Offenders* Harry Spiller, 2014-01-10 The United States has the highest documented incarceration rate in the world; in 2008, for every 100,000 citizens, 764 were in jails or prisons. With nearly half of ex-convicts committing crimes after their release, numerous support programs exist to facilitate their successful reintegration to society. This is a directory of ex-offender programs run by the national government as well as by individual states (and Puerto Rico, Virgin Islands, Washington, D.C.). Addresses, phone numbers and web sites are listed for all organizations that aid the ex-convict in locating employment, housing, support groups, clothing and food. A vital resource for both organizations and individuals interested in the rehabilitation of released offenders.
