forum of contemporary history leipzig: On the Social Life of Postsocialism Daphne Berdahl, 2010 Anthropologist Daphne Berdahl was one of the leading scholars of the transition from state socialism to capitalism in central and eastern Europe. From her pathbreaking ethnography of a former East German border village in the aftermath of German reunification, to her insightful analyses of consumption, nostalgia, and citizenship in the early 21st century, Berdahl's writings probe the contradictions, paradoxes, and ambiguities of postsocialism as few observers have done. This volume brings together her essays, from an early study of memory at the Vietnam War memorial in Washington, D.C., to research on consumption and citizenship undertaken in Leipzig in the years before her untimely death. It serves as a superb introduction to the development of the field of postsocialist cultural studies.

forum of contemporary history leipzig: Socialist Modern Katherine Pence, Paul Betts, 2008 This book explores the ways in which modernity shaped the relationship between socialist state and society in East Germany. The reunification of Germany in 1989 may have put an end to the experiment in East German communism, but its historical assessment is far from over. Where most of the literature over the past two decades has been driven by the desire to uncover the relationship between power and resistance, complicity and consent, more recent scholarship has tended to concentrate on the everyday history of East German citizens. experience of life in East Germany, with a particular view toward addressing the question: what did modernity mean for East German state and society? As such, the collection moves beyond the conceptual divide between state-level politics and everyday life so as to bring into sharper focus the specific contours of the GDR's unique experiment in Cold War socialism. What unites all the essays is the question of how the very tensions around socialist modernity shaped the views, memories and actions of East Germans over four decades. the Cold War, Eastern Europe, the history of communism, European social history and the history of everyday life, gender history, as well as modernity and socialist popular culture.

forum of contemporary history leipzig: Remembering 1989 Anke Pinkert, 2024-10-07 This account of the "laboratory of radical democracy" in the months before East Germany's absorption in

the West challenges memories of Germany's reunification. For many, 1989 is an iconic date, one we associate with the fall of the Berlin Wall and the end of the Cold War. The year prompts some to rue the defeat of socialism in the East, while others celebrate a victory for democracy and capitalism in the reunified Germany. Remembering 1989 focuses on a largely forgotten interregnum: the months between the outbreak of protests in the German Democratic Republic in 1989 and its absorption by the West in 1990. Anke Pinkert, who herself participated in those protests, recalls these months as a volatile but joyous "laboratory of radical democracy," and tells the story of how and why this "time out of joint" has been erased from Germany's national memory. Remembering 1989 argues that in order to truly understand Germany's historic transformation, we must revisit protesters' actions across a wide range of minor, vernacular, and often transient sources. Drawing on rich archives including videotapes of untelevised protests, illegally printed petitions by Church leaders, audio recordings of dissident meetings, and interview footage with military troops, Pinkert opens the discarded history of East European social uprisings to new interpretations and imagines alternatives to Germany's neoliberal status quo. The result is a vivid, unexpected contribution to memory studies and European history.

forum of contemporary history leipzig: *Remembering the German Democratic Republic* D. Clarke, U. Wölfel, 2011-11-08 Memories of and attitudes to the German Democratic Republic (GDR), or East Germany, within contemporary Germany are characterized by their variety and complexity, whilst the debate over how to remember the GDR tells us a lot about how Germans see themselves and their future. This volume provides a range of international perspectives.

forum of contemporary history leipzig: *The Regions of Germany* Dieter K. Buse, 2005-06-30 This is a timely and unique overview of the 16 diverse federal states that make up the reunified Germany. The essential data for each state is provided in this easy-to-use reference. The demographics, geography, history, recent politics, economy, architecture, and noteworthy sites, people and culture, memorial sites, and traditional cuisine are surveyed in turn. This is an invaluable resource for students studying German and Germany, travelers, and teachers. A clear introduction explains the new Germany in historical and regional context. It has been claimed that Germany is a post-national society, but regions are still a primary basis of identity for many Germans and one of the main references points in daily life and politics. Part of Germany's reconstruction came through re-creation and identification with historically remolded regions. This work offers a needed summary of the results thus far.

forum of contemporary history leipzig: *Exhibiting the German Past* Peter M. McIsaac, Gabriele Mueller, 2015-09-15 While scholars recognize both museums and films as sites where historical knowledge and cultural memory are created, the convergence between their methods of constructing the past has only recently been acknowledged. The essays in *Exhibiting the German Past* examine a range of films, museums, and experiences which blend the two, considering how authentic objects and cinematic techniques are increasingly used in similar ways by both visual media and museums. This is the first collection to focus on the museum-film connection in German-language culture and the first to approach the issue using the concept of "musealization," a process that, because it engages the cultural destruction wrought by modernization, offers new means of constructing historical knowledge and shaping collective memory within and beyond the museum's walls. Featuring a wide range of valuable case studies, *Exhibiting the German Past* offers a unique perspective on the developing relationship between museums and visual media.

forum of contemporary history leipzig: Tailoring Truth Jon Berndt Olsen, 2017-06 By looking at state-sponsored memory projects, such as memorials, commemorations, and historical museums, this book reveals that the East German communist regime obsessively monitored and attempted to control public representations of the past to legitimize its rule. It demonstrates that the regime's approach to memory politics was not stagnant, but rather evolved over time to meet different demands and potential threats to its legitimacy. Ultimately the party found it increasingly difficult to control the public portrayal of the past, and some dissidents were able to turn the party's memory politics against the state to challenge its claims of moral authority.

forum of contemporary history leipzig: Reworking the German Past Susan G. Figge, Jenifer K. Ward, 2010 Coming to terms with the past has been a preoccupation within German culture and German Studies since the Second World War. In addition, there has been a surge of interest in adaptation of literary works in recent years. Numerous volumes have theorized, chronicled, or analyzed adaptations from novel to film, asking how and why adaptations are undertaken and what happens when a text is adapted in a particular historical context. With its focus on adaptation of twentieth-century German texts not only from one medium to another but also from one cultural moment to another, the present collection resides at the intersection of these two areas of inquiry. The ten essays treat a variety of media. Each considers the way in which a particular adaptation alters a story - or history - for a subsequent audience, taking into account the changing context in which the retelling takes place and the evolution of cultural strategies for coming to terms with the past. The resulting case studies find in the retellings potentially corrective versions of the stories for changing times. The volume makes the case that adaptation studies are particularly well suited for tracing Germany's obsessive cultural engagement with its twentieth-century history. forum of contemporary history leipzig: Stasiland Anna Funder, 2025-04 WINNER OF THE BBC FOUR SAMUEL JOHNSON PRIZE 'Fascinating, entertaining, hilarious, horrifying and very important.' Tom Hanks 'Exhilarating ... The kind of book that makes us love non-fiction.' Helen Garner 'Unforgettable.' The Sydney Morning Herald 'Brilliant ... a masterpiece.' Sunday Times Truth can be stranger - and more heartbreaking and hilarious - than fiction. In this now classic work, Funder tells extraordinary stories from the most perfected surveillance state of all time, the former East Germany. She meets Miriam, condemned as an enemy of the state at sixteen, and Frau Paul, for whom the Berlin Wall 'went through my heart'. She drinks with the legendary 'Mik Jegger' of the East, once declared by the authorities to 'no longer exist'. And she meets ex-Stasi - men who spied on their families and friends - still loyal to the deposed regime as they await the next revolution. Stasiland is a brilliant, timeless portrait of a Kafkaesque world as gripping as any thriller. In a world of total surveillance, its celebration of human conscience and courage is as potent as ever.

'Stasiland demonstrates that great, original reporting is still possible ... A heartbreaking beautifully written book. A classic for sure.' Claire Tomalin, The Guardian UK 'Colourful, intensely observed, well executed, with lots of black humor and disturbing undertones.' Kirkus Reviews 'Filtered through Funder's own keen perspective, these dramatic tales highlight the courage that ordinary people can display in torturous circumstances.' Publishers Weekly

forum of contemporary history leipzig: Germany Pocket Adventures Henk Bekker, 2012-02-01 Here is a welcome new addition to this acclaimed travel guide series: Pocket Adventures Germany is a lightweight volume with heavyweight information designed to be used on the go. Packed with all the practical travel information you could ever need, from places to stay and eat, tourist information resources, destination specific travel advice, emergency information, plus sections on history and geography that provide readers with the background knowledge essential to a thoroughly enjoyable holiday. The author's passion for the destination comes across in the lively and detailed text, which is packed with the very best and most up-to-date information. This is a must have volume for anyone really wanting to make the most of their German holiday. Color photos throughout. The author is a resident of Munich so he knows his subject well. Of the three Germany guidebooks I used, this one was the most useful and not only because it covers so many places that the others simply ignored. Although you never get 10% off for showing this book, it has enough sensible advice on how to shave unnecessary expenses off the budget without ever feeling or acting like a cheapskate. I enjoyed the author's explanation of Germany's complex history but others may like the History Cheat Sheet that reduces six pages of history to a half page summary. Although the author has the ability to focus on the essentials, he (she?) drops enough fascinating tidbits to keep it interesting. I also love the explanation of major trends in German culture, arts, music, and literature. The author clearly has opinions but never treats the reader like an idiot or writes down to you in any sense. As a non-German speaker I also loved the way all German terms are translated throughout the guide not expecting me to suddenly remember what is a kirch or Schloss halfway through the book. The accommodation lists are very useful especially as it focuses on the around 80-120 per night middle to upper class hotels that suit my tastes. However, even the lower priced hotels all have private bathrooms, which to me is rather essential when on vacation.--Jane S., Amazon.com Great to see a guidebook on Germany in English by an author who realizes that Germany is more than Berlin, the Rhine, and Bavaria. Not that the well-known areas are neglected but I particularly enjoyed the wide coverage on the former East German regions.--Steven, Amazon.com

forum of contemporary history leipzig: Occupation and Communism in Eastern European Museums Constantin Iordachi, Péter Apor, 2021-07-29 This volume offers fresh

perspectives on the representation of the recent past in museums of the Second World War and of communism in post-communist Eastern Europe. It does so against the background of recent European-wide debates on history, memory and politics. The contributors from across Europe focus comparatively on a wide variety of case studies, pointing out similarities and differences, and accounting for transnational patterns of remembrance at regional and European level. *Occupation and Communism in Eastern European Museums* argues that museums have a huge influence on the image of the communist past in Eastern Europe. It shows how they use a vast array of media tools, visual tactics and commercial strategies in order to substantiate ideological approaches to the past and to shape the attitude of public opinion.

forum of contemporary history leipzig: *Stasi* John Christian Schmeidel, 2007-09-12 This book is a fascinating new examination of one of the most feared and efficient secret services the world has ever known, the Stasi. The East German Stasi was a jewel among the communist secret services, the most trusted by its Russian mother organization the KGB, and even more efficient. In its attempt at 'total coverage' of civil society, the Ministry for State Security came close to realizing the totalitarian ideal of a political police force. Based on research in archival files unlocked just after the fall of the Berlin Wall and available to few German and Western readers, this volume details the Communist Party's attempt to control all aspects of East German civil society, and sets out what is known of the regime's support for international terrorism in the 1970s and 1980s. STASI will be of much interest to students of intelligence studies, German politics and international relations.

forum of contemporary history leipzig: *What Remains* Jonathan Bach, 2017-08-29 What happens when an entire modern state's material culture becomes abruptly obsolete? How do ordinary people encounter what remains? In this ethnography, Jonathan Bach examines the afterlife of East Germany following the fall of the Berlin Wall, as things and places from that vanished socialist past continue to circulate and shape the politics of memory. *What Remains* traces the unsettling effects of these unmoored artifacts on the German present, arguing for a rethinking of the role of the everyday as a site of reckoning with difficult pasts. Bach juxtaposes four sites where the stakes of the everyday appear: products commodified as nostalgia, amateur museums dedicated to collecting everyday life under socialism, the people's palace that captured the national imagination through its destruction, and the feared and fetishized Berlin Wall. Moving from the local, the intimate, and the small to the national, the impersonal, and the large, this book's interpenetrating chapters show the unexpected social and political force of the ordinary in the production of memory. *What Remains* offers a unique vantage point on the workings of the everyday in situations of radical discontinuity, contributing to new understandings of postsocialism and the intricate intersection of material remains and memory.
