The chapters are organized around three core concepts – threshold, intermediality, and synchresis – which offer ways of understanding and discussing the interplay between the arts of sounds and images. Contributors delve into a rich variety of topics, ranging from the art of Renaissance Italy to the politics of opera in contemporary Los Angeles to the popular television series *Breaking Bad*. Placing these chapters in conversation, this volume develops a shared language for cross-disciplinary inquiry into arts that blend music and visual components, integrates insights from film studies with the conversation between musicology and art history, and moves the study of music and visual culture forward.

frances bean cobain interview: *The Death Proclamation of Generation X* Maxim W. Furek, 2008 Taking a hard, penetrating look at the despondent heart of darkness of the 1990s, *The Death Proclamation of Generation X* is a probing chronicle of America's thirteenth generation caught between the idealistic Baby Boomers and the well-financed Generation Y. Generation X was scapegoated and dismissed without the chance to prove themselves. Blending tenets of psychology, sociology, and cultural anthropology, author Maxim Furek offers a unique perspective to the post-modernist discourse by exploring the impact that personalities such as Andrew Wood, Kurt Cobain, Layne Staley, River Phoenix, Marilyn Manson, and Anna Nicole Smith left on that generation. Evaluating the psychological and sociological variables of goth, grunge, and heroin, Furek weaves a dark tapestry of this unique demographic group born between 1965 and 1978. *The Death Proclamation of Generation X* pieces together the complexities of Generation X to acknowledge their individuality, honor their existence, and to celebrate their future. They are a group with their own identity of music, attitude, and culture. The resilience of Generation X is but another example of the power of this special collection of people—a group of highly skilled and adaptive individuals.

No rock star contrivance, no intellectual perspective, no master plan for world domination. You're talking about four guys from rural Washington who wanna rock...--Everett True, *Melody Maker*, March 18th, 1989 In 1992, Nirvana's breakthrough anthem, *Smells Like Teen Spirit*, introduced a new underground sound to the mainstream music world. The record-breaking sales and global recognition that followed should have been a welcomed payoff for the hard-working punk band. Instead, that bright optimism quickly faded into bitter dissatisfaction, as the trio became conflicted about their unexpected success, and about having an audience that was the epitome of everything they had attempted to rebel against. Nirvana's sonic catapult from obscurity to international stardom and their chart-topping success changed the face of rock music world-wide. In *Nirvana: The Chosen Rejects*, the authors have used a wealth of sources, including personal interviews with Kurt Cobain, Krist Novoselic and Dave Grohl, in order to reconstruct Nirvana's meteoric rise and the subsequent fall of their troubled lead singer. Kurt St. Thomas and Troy Smith were an award-winning programming team at WFNX-FM, Boston (MA), one of the nation's top alternative radio stations in the early 1990's. Through interpretive essays and factual accounts of various people, organizations, and ideas, the reader will gain a much greater appreciation for a set of beliefs about political scheming, covert intelligence gathering, and criminal rings that has held its grip on the minds of millions of American citizens and encouraged them to believe that the conspiracies may run deeper, and with a global reach.
