frank martin post fight interview: Garth Evans Sculpture Garth Evans, Michael Brenson, 2013-03-25 Garth Evans is a sculptor as capable of evoking intimacy and simplicity as he is of dealing with the monumental and the timeless. This complete survey of his unique career is long overdue, and reveals a wealth of innovative and powerful work, much of it previously unseen in print. As narratives of British sculpture are reconsidered, Evans is emerging as one of the most creative and influential artists to bridge the generation of Antony Caro and Philip King with that of Tony Cragg, Richard Deacon, Antony Gormley, Alison Wilding and Bill Woodrow. This investigation into Evans's hugely varied, visually eventful and challenging practice explores connections across geographies and timeframes as well as contextualizing major changes and new departures in his work. Garth Evans was born in Manchester in 1934 and settled in the USA at the midpoint of his career. He has exhibited widely in Europe and America since the early 1960s, and his work is represented in major public and private collections in Australia, Brazil, Portugal, USA and UK (including the Arts Council Collection, Leeds City Art Galleries, the British Museum, the V&A and Tate). Evans has been the recipient of numerous awards as well as holding a number of distinguished teaching positions. Since 1988, he has taught at the Studio School in New York City where he is head of sculpture.

frank martin post fight interview: Fiddling Is My Joy Jacqueline Cogdell DjeDje, 2025-06-18 In *Fiddling Is My Joy*, Jacqueline Cogdell DjeDje examines the history of fiddling among African Americans from the seventeenth to the mid-twentieth century. Although music historians acknowledge a prominent African American fiddle tradition during the era of slavery, only recently have researchers begun to closely examine the history and social implications of these musical practices. Research on African music reveals a highly developed tradition in West Africa, which dates to the eleventh or twelfth century and continues today. From these West African roots, fiddling was prominent in many African American communities between the seventeenth and nineteenth centuries, and the fiddle became an important instrument in early twentieth-century blues, jazz, and jug bands. While less common in late twentieth-century African American jazz and popular music groups, the fiddle remained integral to the musicking of some Black musicians in the rural South. Featured in *Fiddling Is My Joy* is access to a comprehensive online eScholarship Companion that contains maps, photographs, audiovisual examples, and other materials to expand the work of this enlightening and significant study. To understand the immense history of fiddling, DjeDje uses geography to weave together a common thread by profiling the lives and contributions of Black fiddlers in various parts of the rural South and Midwest, including the mountains and along the Atlantic and Gulf coasts. In addition to exploring the extent that musical characteristics and aesthetics identified with African and European cultures were maintained or reinterpreted in Black fiddling, she also investigates how the sharing of musical ideas between Black and white fiddlers affected the development of both traditions. Most importantly, she considers the contradiction in representation. Historical evidence suggests that the fiddle may be one of the oldest uninterrupted instrumental traditions in African American culture, yet most people in the United States, including African Americans, do not identify it with Black music.

frank martin post fight interview: Homeless, Friendless, and Penniless Ronald L. Baker, 2000-10-22 *Homeless, Friendless, and Penniless* The WPA Interviews with Former Slaves Living in Indiana Ronald L. Baker Lives of former slaves in their own words, published for the first time. Based on a collection of interviews conducted in the late 1930s, *Homeless, Friendless, and Penniless* is an invaluable record of the lives and thoughts of former slaves who moved to Indiana after the Civil War and made significant contributions to the evolving patchwork of Hoosier culture. The Indiana slave narratives provide a glimpse of slavery as remembered by those who experienced it, preserving insiders' views of a tragic chapter in American history. Though they were living in Indiana at the time of the interviews, these African Americans been enslaved in 11 different states from the Carolinas to Louisiana. The interviews deal with life and work on the plantation; the

treatment of slaves; escaping from slavery; education, religion, and slave folklore; and recollections of the Civil War. Just as important, the interviews reveal how former slaves fared in Indiana after the Civil War and during the Depression. Some became ministers, a few became educators, and one became a physician; but many lived in poverty and survived on Christian faith and small government pensions. Ronald L. Baker, Chairperson and Professor of English at Indiana State University, is author of many books, including *Hoosier Folk Legends* and *From Needmore to Prosperity: Hoosier Place Names in Folklore and History* (both from Indiana University Press). frank martin post fight interview: The Vatican, the Bishops and Irish Politics 1919-39

Dermot Keogh, 2004-06-07 A detailed study of the political relations between church and state in modern Ireland, this work is also an analysis of domestic politics within the context of Anglo-Vatican relations. Dealing exclusively with high ecclesiastical politics, it assesses the relative political strength of both the British and the Irish at the Vatican and challenges 'the myth of English dominance over the Papacy'. Dermot Keogh traces the 'quiet diplomacy' of bishops, politicians and the Vatican from the turbulent years of 1919-21, through the civil war period and the rule of William T. Cosgrove and Cumann na nGaedheal, to the re-emergence of Eamon de Valera and Fianna Fail as exponents of Catholic nationalism in the 1930s. The book draws extensively on unpublished documents and, for the first time, explores with the aid of primary sources the exchanges between bishops, politicians and the Vatican over a twenty-year period. It is an important contribution to the history of modern Ireland, Irish-Vatican and Anglo-Vatican relations, whose findings will lead to a radical revision of interpretations of Irish church-state relations.

frank martin post fight interview: *Tinderbox* Robert W. Fieseler, 2018-06-05 Winner • Edgar Award (Best Fact Crime) Winner • Lambda Literary's Judith A. Markowitz Award for Emerging LGBTQ Writers Finalist • Housatonic Book Award (Nonfiction) Finalist • Randy Shilts Award for Gay Nonfiction A Stonewall Honor Book in Nonfiction (American Library Association) Best Book of the Year: Kirkus Reviews, Library Journal and Shelf Awareness An essential work of American civil rights history, *Tinderbox* mesmerizingly reconstructs the 1973 fire that devastated New Orleans’ subterranean gay community. Buried for decades, the Up Stairs Lounge tragedy has only recently emerged as a catalyzing event of the gay liberation movement. In revelatory detail, Robert W. Fieseler chronicles the tragic event that claimed the lives of thirty-one men and one woman on June 24, 1973, at a New Orleans bar, the largest mass murder of gays until 2016. Relying on unprecedented access to survivors and archives, Fieseler creates an indelible portrait of a closeted, blue-collar gay world that flourished before an arsonist ignited an inferno that destroyed an entire community. The aftermath was no less traumatic—families ashamed to claim loved ones, the Catholic Church refusing proper burial rights, the city impervious to the survivors’ needs—revealing a world of toxic prejudice that thrived well past Stonewall. Yet the impassioned activism that followed proved essential to the emergence of a fledgling gay movement. *Tinderbox* restores honor to a forgotten generation of civil-rights martyrs.

frank martin post fight interview: *Mars Wars* Thor Hogan, 2009-08-13 On the 20th anniversary of the first human landing on the Moon, President George H.W. Bush stood atop the steps of the National Air and Space Museum in Washington, D.C. and proposed a long-range human exploration plan that included the successful construction of an orbital space station, a permanent return to the Moon, and a mission to Mars. This enterprise became known as the Space Exploration Initiative (SEI). The president charged the newly reestablished National Space Council with providing concrete alternatives for meeting these objectives. To provide overall focus for the new initiative, Bush later set a thirty-year goal for a crewed landing on Mars. Within a few short years after this Kennedyesque announcement, however, the initiative had faded into history the victim of a flawed policy process and a political war fought on several different fronts. The story of this failed initiative was a tale of organizational, cultural, and personal confrontation by key protagonists and critical battles. Some commentators have argued that SEI was doomed to fail, due primarily to the immense budgetary pressures facing the nation during the early 1990s. The central thesis of *Mars Wars: The Rise and Fall of the Space Exploration Initiative* suggests, however, that failure was not predetermined. Instead, it was the result of a deeply flawed decision-making process that failed to develop (or even consider) policy options that may have been politically acceptable given the existing political environment.
