into its fourth year. For Germany, the war is looking ever bleaker and this on many war fronts. Of course the one in the east is no exception. The German army is being pushed back continuously. Often enough, military formations are passed over by the foes and get surrounded. This is the story of just such a unit, which suddenly finds itself being cut off by the Russians and end up miles behind enemy lines. The sudden and vehement onset of the east's famous hard winters makes things worse for the men of the Fifth Company. They must not only fight a relentless enemy, but harsh weather conditions to boot. Will they make it back to the own lines, which are also moving back? And if they do, who will be left behind, dead and frozen stiff far, far away from home?

foxhole advanced construction vehicle: *Citizen Soldiers: The U.S. Army From The Beaches of Normandy to the Surrender of Germany* Stephen E. Ambrose, 2011-11 In this riveting account, historian Stephen Ambrose continues where he left off in his #1 bestseller D-Day. Ambrose again follows the individual characters of this noble, brutal, and tragic war, from the high command down to the ordinary soldier, drawing on hundreds of interviews to re-create the war experience with startling clarity and immediacy. From the hedgerows of Normandy to the overrunning of Germany, Ambrose tells the real story of World War II from the perspective of the men and women who fought it. From June 7, 1944, on the beaches of Normandy to the final battles of Germany, acclaimed historian Stephen E. Ambrose draws on hundreds of interviews and oral histories from men on both sides to write a compelling and comprehensive portrait of the Citizen Soldiers who made up the U.S. Army. Ambrose re-creates the experiences of the individuals who fought the battle, from high command - Eisenhower, Bradley, and Patton - on down to the enlisted men. Within the chronological story, there are chapters on medics, nurses, and doctors; on the quartermasters; on the replacements; on what it was like to spend a night on the front lines; on sad sacks, cowards, and criminals; on Christmas 1944; and on weapons of all kinds. In this engrossing history, Ambrose reveals the learning process of a great army - how to cross rivers, how to fight in snow or hedgerows, how to fight in cities, how to coordinate air and ground campaigns, and how citizens become soldiers. Throughout, the perspective is that of the enlisted men and junior officers - and how decisions of the brass affected them.
