Types of Financial Aid Available

Students at Franklin Pierce University can access several types of financial aid designed to meet different needs and circumstances. These include grants, scholarships, loans, and work-study opportunities. Each type serves a unique purpose and has distinct eligibility and repayment conditions.

Grants

Grants are typically need-based awards that do not require repayment. Franklin Pierce offers institutional grants as well as facilitates access to federal and state grants for qualifying students. These funds help reduce the overall cost of attendance significantly.

Scholarships

Scholarships at Franklin Pierce are primarily merit-based, awarded for academic excellence, leadership, athletic ability, or other achievements. Some scholarships target specific majors or demographic groups, creating additional opportunities for financial support.

Loans

Federal and private loans are available to students who require additional funding beyond grants and scholarships. These loans must be repaid with interest, making it important for students to borrow responsibly and understand repayment terms.

Work-Study Programs

The Federal Work-Study program offers part-time employment opportunities for students with demonstrated financial need. These jobs provide both financial support and valuable work experience during the academic year.

Eligibility and Application Process

Applying for Franklin Pierce financial aid involves meeting specific eligibility criteria and completing required documentation. Understanding the process and deadlines is critical to securing aid in a timely manner.

The Free Application for Federal Student Aid (FAFSA) is the primary application for federal and many state and institutional aid programs. Franklin Pierce University requires FAFSA completion to assess a student's financial need accurately.

Verification and Documentation

Federal Student Loans

Federal loans, such as Direct Subsidized and Unsubsidized Loans, offer fixed interest rates and flexible repayment options. Subsidized loans do not accrue interest while the student is in school, reducing overall borrowing costs.

Private Loans

Types of Work-Study Jobs

Available positions include on-campus roles such as library assistants, research aides, and administrative support, as well as community service jobs related to students' fields of study.

CeCé Telfer is a warrior. She has contended with transphobia on and off the track since childhood. Now, she stands at the crossroads of a national and international conversation about equity in sports, forced to advocate for her personhood and rights at every turn. After spending years training for the 2024 Olympics, Telfer has been sidelined and silenced more times than she can count. But she's never been good at taking no for an answer. *Make It Count* is Telfer's raw and inspiring story. From coming of age in Jamaica, where she grew up hearing a constant barrage of slurs, to living in the backseat of her car while searching for a coach, to Mexico, where she trained for the US Trials, this book follows the arc of Telfer's Olympic dream. This is the story of running on what feels like the edge of a knife, of what it means to compete when you're treated not just as an athlete, but as a walking controversy. But it's also the story of resilience and athleticism, of a runner who found a clarity in her sport that otherwise eluded her—a sense of simply being alive, a human moving through space—finally, herself.
