free black history plays: Willis Richardson, Forgotten Pioneer of African-American Drama Christine R. Gray, 1999-12-30 During the 1920s and 1930s, Willis Richardson (1889-1977) was highly respected as a leading African-American playwright and drama anthologist. His plays were performed by numerous black high school, college, and university drama groups and by theater companies in Chicago, New York, Washington D.C., Cleveland, Baltimore, and Atlanta. With the opening of *The Chip Woman's Fortune* (1923), he became the first African American to have a play produced on Broadway. Several of his 46 plays were published in assorted magazines, and in his essays, he urged black Americans to seek their dramatic material in their own lives and circumstances. In addition, he edited three anthologies of plays by African-Americans. But between 1940 and his death in 1977, Richardson came to realize that his plays were period pieces and that they no longer reflected the problems and situations of African-Americans. In the years before his death, he attempted vigorously yet unsuccessfully to preserve several of his plays through publication, if not production. But the man who has been called the father of African-American drama and who was considered the hope and promise of African-American drama died in obscurity. Richardson has even been neglected by the scholarly community. This critical biography, the first extensive consideration of his life and work, firmly reestablishes his pioneering role in American theater. The book begins with a detailed chronology, followed by a thoughtful biographical essay. The volume then examines the nature of African-American drama in the 1920s, the period during which Richardson was most productive, and it analyzes his approach to drama as a means of educating African-American audiences. It then explores the African-American community as the central theme in Richardson's plays, for Richardson typically looks at the consequences of refusals

by blacks to help one another. The work additionally considers Richardson's history plays, his anthologies, his dramas intended for black children, and his essays. A concluding chapter summarizes his lasting influence; the book closes with a listing of his plays and an extensive bibliography.

free black history plays: Making Black History Jeffrey Aaron Snyder, 2018-02-01 In the Jim Crow era, along with black churches, schools, and newspapers, African Americans also had their own history. Making Black History focuses on the engine behind the early black history movement, Carter G. Woodson and his Association for the Study of Negro Life and History (ASNLH). Author Jeffrey Aaron Snyder shows how the study and celebration of black history became an increasingly

important part of African American life over the course of the early to mid-twentieth century. It was the glue that held African Americans together as “a people,” a weapon to fight racism, and a roadmap to a brighter future. Making Black History takes an expansive view of the historical enterprise, covering not just the production of black history but also its circulation, reception, and performance. Woodson, the only professional historian whose parents had been born into slavery, attracted a strong network of devoted members to the ASNLH, including professional and lay historians, teachers, students, “race” leaders, journalists, and artists. They all grappled with a set of interrelated questions: Who and what is “Negro”? What is the relationship of black history to American history? And what are the purposes of history? Tracking the different answers to these questions, Snyder recovers a rich public discourse about black history that took shape in journals, monographs, and textbooks and sprang to life in the pages of the black press, the classrooms of black schools, and annual celebrations of Negro History Week. By lining up the Negro history movement’s trajectory with the wider arc of African American history, Snyder changes our understanding of such signal aspects of twentieth-century black life as segregated schools, the Harlem Renaissance, and the emerging modern civil rights movement.

free black history plays: Radical Play Rob Goldberg, 2023-07-28 In Radical Play Rob Goldberg recovers a little-known history of American children’s culture in the 1960s and 1970s by showing how dolls, guns, action figures, and other toys galvanized and symbolized new visions of social, racial, and gender justice. From a nationwide movement to oppose the sale of war toys during the Vietnam War to the founding of the company Shindana Toys by Black Power movement activists and the efforts of feminist groups to promote and produce nonsexist and racially diverse toys, Goldberg returns readers to a defining moment in the history of childhood when politics, parenting, and purchasing converged. Goldberg traces not only how movement activists brought their progressive politics to the playroom by enlisting toys in the era’s culture wars but also how the children’s culture industry navigated the explosive politics and turmoil of the time in creative and socially conscious ways. Outlining how toys shaped and were shaped by radical visions, Goldberg locates the moment Americans first came to understand the world of toys—from Barbie to G.I. Joe—as much more than child’s play.

free black history plays: Free for All Kenneth Turan, Joseph Papp, 2010-11-02 Free for All is an irresistible behind-the-scenes look at one of America's most beloved and important cultural institutions. Under the inspired leadership of founder Joseph Papp, the Public Theater and the New York Shakespeare Festival brought revolutionary performances to the public for decades. This compulsively readable history of those years—much of it told in Papp's own words—is fascinating, ranging from a dramatic early showdown with Robert Moses over keeping Shakespeare in the Park free to the launching of such landmark productions as *Hair* and *A Chorus Line*. To bring the story to life, film critic Kenneth Turan interviewed some 160 luminaries—including George C. Scott, Meryl Streep, Mike Nichols, Kevin Kline, James Earl Jones, David Rabe, Jerry Stiller, Tommy Lee Jones, and Wallace Shawn—and masterfully weaves their voices into a dizzyingly rich tale of creativity, conflict, and achievement.

free black history plays: The Richard Wesley Play Anthology Richard Wesley, 2015-07-01 This anthology of five full-length plays collectively outlines a cultural history of black America in the post-Civil Rights era, from the late 20th century through the first decades of the 21st. *Black Terror* looks at the radical politics of the Black Power era; *The Sirens*, the destabilization of black familial and social life in the early 1970s; *The Mighty Gents*, the destructiveness of "black macho" in the late 1970s; *The Talented Tenth*, the midlife crisis and the end of idealism in the black middle class in the early 1980s; and *Autumn*, the new generational paradigm in black urban politics in the early 21st century. Each of the plays included in this anthology was born out of the idea of the public thinker, and what Arthur Miller would refer to as the importance of an individual conscience - as well as the belief that each generation must give back, must inform and inspire the generation that follows. No people - and certainly not the African Americans still striving and struggling in the 21st century - can thrive if they fail to adhere to that simple idea.

free black history plays: Free-Lancers and Literary Biography in South Africa Stephen Gray, 2021-11-01 This collection is concerned with the problems and pleasures of writing literary biography in the context of South African writing. Stephen Gray's introduction outlines the choice faced by the researcher: between writing revisionist history (à la Strachey) and the personal bias the portraitist must take into account when conducting the retrieval especially of lost and enigmatic figures (à la Symons). Concentrating on the unattached irregulars of the arts in South Africa - often the arts of their times - Gray stresses the value of the free-lance figure in the formation of an evolving colonial and post-colonial literature. Subjects included are: Charles Maclean, alias John Ross, who recorded his experiences of the Zulu King Shaka in Natal's first captivity narrative; Douglas Blackburn, rated as the successor of Swift for his satires of the Anglo-Boer War conflict;

Beatrice Hastings, polymath journalist whose lovers included Katherine Mansfield and Amedeo Modigliani; Stephen Black, founder of indigenous South African drama in English; Edward Wolfe, the Bloomsbury painter who began as a child-actor in the mining town of Johannesburg; Bessie Head, who became the Botswana-based wise-woman of African literature before her untimely death in 1986, yet never knew her own origins; Etienne Leroux, the Free State rancher who, in Afrikaans, wrote much-banned postmodernist novels; Mary Renault whose bestselling novels set in Ancient Greece peculiarly represented the shutdown of democracy in apartheid South Africa; Sipho Sepamla, stalwart of the Soweto Poetry school which came to prominence after the 1976 Soweto uprising; and Richard Rive, novelist, cultural commentator and liberation icon, murdered in his prime. The portrait gallery of the figures who have shaped and defined the role of literature in South Africa is both revealing and provocative, showing the route taken by some lesser-known talents in their struggle to establish the rights of authors in an often indifferent or repressive state.

free black history plays: Creole Drama Juliane Braun, 2019-05-08 The stages of antebellum New Orleans did more than entertain. In the city's early years, French-speaking residents used the theatre to assert their political, economic, and cultural sovereignty in the face of growing Anglo-American dominance. Beyond local stages, the francophone struggle for cultural survival connected people and places in the early United States, across the American hemisphere, and in the Atlantic world. Moving from France to the Caribbean to the American continent, Creole Drama follows the people that created and sustained French theatre culture in New Orleans from its inception in 1792 until the beginning of the Civil War. Juliane Braun draws on the neglected archive of francophone drama native to Louisiana, as well as a range of documents from both sides of the Atlantic, to explore the ways in which theatre and drama shaped debates about ethnic identity and transnational belonging in the city. Francophone identity united citizens of different social and racial backgrounds, and debates about political representation, slavery, and territorial expansion often played out on stage. Recognizing theatres as sites of cultural exchange that could cross oceans and borders, Creole Drama offers not only a detailed history of francophone theatre in New Orleans but also an account of the surprising ways in which multilingualism and early transnational networks helped create the American nation.

free black history plays: African American Literature in Transition, 1930-1940: Volume 10 Eve Dunbar, Ayesha K. Hardison, 2022-04-07 The volume explores 1930s African American writing to examine Black life, culture, and politics to document the ways Black artists and everyday people managed the Great Depression's economic impact on the creative and the social. Essays engage iconic figures such as Sterling Brown, Langston Hughes, Zora Neale Hurston, Dorothy West, and Richard Wright as well as understudied writers such as Arna Bontemps and Marita Bonner, Henry Lee Moon, and Roi Ottley. This book demonstrates the significance of the New Deal's Works Progress Administration (WPA), the Communist Party of the United States (CPUSA) and Black literary circles in the absence of white patronage. By featuring novels, poetry, short fiction, and drama alongside guidebooks, photographs, and print culture, African American Literature in Transition 1930-1940 provides evidence of the literary culture created by Black writers and readers during a period of economic precarity, expanded activism for social justice, and urgent internationalism.
