frederick douglass worksheet: Eyewitness to the Past Joan Schur, 2023-10-10 Throughout history, people have often expressed controversial and conflicting interpretations of current events. In this unique resource, Joan Brodsky Schur reveals how compelling and engaging the study of history becomes when students use documents to imagine living through events in American history. Eyewitness to the Past examines six types of primary sources: diaries, travelogues, letters, news articles, speeches, and scrapbooks. Teachers will find interactive strategies to help students analyze the unique properties of each, and apply to them their own written work and oral argument. Students learn to express opposing viewpoints in documents, classroom interactions, and simulations such as staging congressional hearings, elections, or protests. They build crucial analytical thinking and presentation skills. Used together, the six strategies offer a varied and cohesive structure for studying the American past that reinforces material in the textbook, encourages creativity, activates different learning styles, and strengthens cognitive skills. Each chapter provides detailed instructions for implementing an eyewitness strategy set in a specific era of American history, and includes extensions for adapting the strategy to other time periods. In addition to the primary sources included in the book, examples of student work are presented throughout to aid teachers in evaluating the work of their own students. Rubrics and a list of resources are offered for each eyewitness strategy.

frederick douglass worksheet: *The Black History Bowl* Cadmus S. Hull, 2018-12-07 Black History Month, starting as Negro History Week, began as an effort by Carter G. Woodson (1875-1950) to recognize the valuable contributions Black (African) Americans have made in the United States and throughout the world. African American History which has been virtually ignored, is beginning to be acknowledged in classroom books and curriculums. However, enough has not been done to fully recognize the contributions of African Americans to history. Thus, "The Black History Quiz Guide" was designed and created to further the goal that Carter G. Woodson was trying to accomplish, to present a fair picture of the role African Americans have played in American and World History. The black history quiz-guide is divided into eight (8) sections of black history facts. Each section begins with a black history worksheet. The worksheet is followed by fact sheets on the black history contributors who are listed on the worksheet at the end of each section. The answers to the worksheet are on the page that follows the facts. The black history quiz is designed to test your present knowledge of black history as well as enhance your knowledge of history. It is hoped that you will enjoy the quiz-guide as you enrich your knowledge of the contributions that African Americans have made to history.

frederick douglass worksheet: Sub: My Years Underground in America's Schools Tom Gallagher, 2015-02-09 As a substitute teacher in the schools of San Francisco and South San Francisco since some time in the last millennium (and in Boston before that), Tom Gallagher sees kids on their worst behavior five days a week -- that's when business is good. Once a member of the

Massachusetts House of Representatives, where he was affectionately known as Tommy the Commie and sat on the Joint Committee on Education, Gallagher currently holds the line against academic entropy in everything from pre-Kindergarten through 12th Grade, from Physics to Phys Ed. The fundamental stance of Sub: My Years Underground in America's Schools is wry -- it dares raise questions like why the guy who invented middle schools was never prosecuted for crimes against humanity. At the same time, Gallagher finds much of the current national debate on education misplaced: the system works just fine for some, while for others schools are asked to solve problems in children's lives that are far beyond their scope--Back cover.

frederick douglass worksheet: The Well-Trained Mind Susan Wise Bauer, Jessie Wise, 2016-08-09 Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education—by doing it yourself. *The Well-Trained Mind* will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in *The Well-Trained Mind* to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. *The Well-Trained Mind* will give you the tools you'll need to teach your child with confidence and success.

frederick douglass worksheet: Hollywood or History Scott L. Roberts, Charles J. Elfer, 2018-07-01 Teaching and learning through Hollywood, or commercial, film productions is anything

but a new approach and has been something of a mainstay in the classroom for nearly a century. Purposeful and effective instruction through film, however, is not problem-free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we have collaboratively developed a collection of practical, classroom-ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic mindedness. The College, Career, and Civic Life (C3) framework, represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically K-12 teachers of United States history, by offering a collection of classroom-ready tools based on the Hollywood or History? strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures. The book consists of K-5 and 6-12 lesson plans addressing the following historical eras (Adapted from: UCLA, National Center for History in Schools).
