ice breaker questions middle school: These Are Our Bodies, Middle School Leader Guide Jenny Beaumont, Abbi Long, 2016-08-01 Our inherent value and worth comes from God's love for us, but our modern world is filled with sexual expression that too often leads us away from the life of Christ. As Christians seeking to live a life worthy of our calling and desiring to pass along these values to our children and youth, this book explores how we (as parents and adults) can explore issues of sexuality in the context of our faith. A sexuality education resource from a mainline/progressive denominational prospective aids the adult reader/teacher/parent in learning and using skills that enable them to embrace and affirm the wholeness of sexuality and to talk openly and honestly about the connection of sexuality and faith. This book, grounded from a theological perspective, focuses on foundational issues for addressing how we (and why we) are called to have these conversations in a faithful community to support families. The importance of looking at one's sexuality throughout the lifespan through the lenses of decision making, faith and daily life, respect, growth and change, behavior, responsibility, values, prayer, and intentionality is explored, offering a grounding as well as stand-alone resource for individuals and churches to build upon.

ice breaker questions middle school: Chinese Authoritarianism in the Information Age Suisheng Zhao, 2019-06-24 This book examines information and public opinion control by the authoritarian state in response to popular access to information and upgraded political communication channels among the citizens in contemporary China. Empowered by mass media, particularly social media and other information technology, Chinese citizen's access to information has been expanded. Publicly focusing events and opinions have served as catalysts to shape the agenda for policy making and law making, narrow down the set of policy options, and change the pace of policy implementation. Yet, the authoritarian state remains in tight control of media, including social media, to deny the free flow of information and shape public opinion through a centralized institutional framework for propaganda and information technologies. The evolving process of media control and public opinion manipulation has constrained citizen's political participation and strengthened Chinese authoritarianism in the information age. The chapters originally published as articles in the Journal of Contemporary China.
