idaho travel guide book: Road Trip Guide to Idaho Mary Vasudeva, 2014-04-20 Each (Almost) Comprehensive guide covers attractions, lodging, dining, and moves beyond the usual travel book with media connections as well as history, culture and scientific tid bits about the area. Media connections are links to either online or paper sources that can supplement the traveler's experience. The focus is on places that other guidebooks do not cover or do not cover very extensively. Each description provides the information necessary to contact and find the destination, and, where possible, additional description about the place and, in some cases, further information about the history, geology, or background. Because I have attempted to include a broad range of travel spots, I haven't visited them all, so detail may be limited in some cases. I have focused on description over evaluation. Where possible, maps are also included. At the end of the book are additional media resources, including books and videos, for those interested in knowing more about the destinations. This fifth edition of the series focuses on Central Idaho, a largely rural area abundant with National Forest lands, mountain ranges and rivers. Small quaint historic towns and state and federal land make up the area and are well worth visiting, with excellent outdoor recreation. Culture and history also make an appearance, with a particular emphasis on Lewis and Clark and First Americans. This guide's focus is on this less known part of Idaho, nestled between the popular city of Coeur d'Alene on the Washington and Idaho border and the trendy Sun Valley in the South and the populous Boise to the southwest. There are no cities included, with Coeur D'Alene and Moscow on the West side the biggest towns you'll encounter. As you traverse the central area, you'll understand why. This is mountainous terrain with few flat spots and often few paved roads. Don't worry though, you can still get around with a bit of planning and without too much trouble, and you will be rewarded by spectacular, almost untouched wilderness.

should talk to the stranger but was interested in his advice. When traveling to some places she was wary to talk to locals because she was afraid that they weren't being genuine. Through her travels, Lisa learned how much locals had to share with tourists. Lisa created the Greater Than a Tourist book series to help connect people with locals. A topic that locals are very passionate about sharing.
