This emotional but ultimately uplifting journey details the unforeseen twists and turns of the effects of therapy and how it can help in coming to terms with the past and its unsettling echoes in the present. Heartwarming and lucid, it's an inspiring tale for all to read. Through its clinical rigour, professional therapists will also gain insight into the various treatment options for DID, including the innovative use of energy therapy. The book contains 32 colour illustrations, including 24 drawings by The Girls. The star of this book is an extraordinary, bright-spirited, and entertaining six-year-old girl, called Little Vivvi, who experienced shocking abuse from members of her family. Yet Little Vivvi lives within Vivian, a middle-aged woman who has struggled with DID for many years. The challenging process of psychotherapy is laid bare, as Little Vivvi wrestles with overwhelming memories of childhood abuse. Alongside talking therapy, energy

ifs training level 1: Famished Rebecca J. Lester, 2021-11-02 When Rebecca Lester was eleven years old—and again when she was eighteen—she almost died from anorexia nervosa. Now both a tenured professor in anthropology and a licensed social worker, she turns her ethnographic and clinical gaze to the world of eating disorders—their history, diagnosis, lived realities, treatment, and place in the American cultural imagination. *Famished*, the culmination of over two decades of anthropological and clinical work, as well as a lifetime of lived experience, presents a profound rethinking of eating disorders and how to treat them. Through a mix of rich cultural analysis, detailed therapeutic accounts, and raw autobiographical reflections, *Famished* helps make sense of why people develop eating disorders, what the process of recovery is like, and why treatments so often fail. It's also an unsparing condemnation of the tension between profit and care in American healthcare, demonstrating how a system set up to treat a disease may, in fact, perpetuate it. Fierce and vulnerable, critical and hopeful, *Famished* will forever change the way you understand eating disorders and the people who suffer with them.

ifs training level 1: The Perfectionist's Dilemma Tara Cousineau, 2025-01-07 “A brilliant book...a must-read for the frazzled perfectionist.” —Thomas Curran, PhD, leading perfectionism researcher and author of *The Perfection Trap* Break free of toxic perfectionism by cultivating emotional courage and self-compassion to face life's challenges with a 6-step program. In today's high-pressure society, we are constantly fed a fable of individualism, exceptionalism, determination, and ingenuity and taught a mythology of grin and bear it; no pain, no gain; and hard work pays off, despite the fact that the conditions for success are unpredictable and ever changing. Psychologist Tara Cousineau claims that perfectionism is a paradox: it is the tension created by the need for belonging, a desire for excellence, and a quest for a meaningful and productive life. But perfectionism can be transformed by learning to connect both head and heart, replacing inner algorithms of comparison and criticism with self-acceptance and self-compassion. In *The Perfectionist's Dilemma*, Cousineau introduces an innovative six-step solution based on the acronym EVOLVE: Embody the present moment. Validate your experience. Open your heart. Love your inner critic. Make a Vow. Spark the Energy of excellence. EVOLVE helps readers overcome perfectionism and cultivate three essential resources—inner worth, inner humanity, and inner leadership. Through storytelling and anecdotes from recovering perfectionists who have participated in Cousineau's workshops, readers can learn to align mind, body, heart, and spirit—to become happy achievers.
