- Resident Life and Support

Program Overview and Mission

The Mayo Jacksonville Family Medicine Residency is a three-year postgraduate training program accredited by the Accreditation Council for Graduate Medical Education (ACGME). Its mission is to educate and train family physicians who provide high-quality, comprehensive healthcare with an emphasis on preventive medicine, chronic disease management, and health promotion. The program is committed to producing physicians equipped to serve diverse patient populations across various clinical settings.

Program Goals

The residency aims to develop skills in patient communication, clinical decision-making, and interdisciplinary collaboration. Graduates are expected

to demonstrate proficiency in outpatient, inpatient, emergency, and procedural family medicine care. The curriculum is designed to foster lifelong learning and adaptability in a constantly evolving healthcare environment.

Community and Patient Population

Situated in Jacksonville, Florida, the residency serves a broad spectrum of patients, including urban, suburban, and rural communities. This diversity exposes residents to a wide range of medical conditions and cultural backgrounds, enriching their clinical experience and cultural competence.

Curriculum and Clinical Training

The Mayo Jacksonville Family Medicine Residency offers a comprehensive curriculum that balances didactic instruction with hands-on clinical experience. Residents rotate through multiple specialties and settings to gain broad exposure across the continuum of care.

Core Rotations

Residents complete core rotations in:

- Primary Care/Internal Medicine
- Pediatrics
- Obstetrics and Gynecology
- Emergency Medicine
- Inpatient Family Medicine
- Behavioral Health
- Surgical Subspecialties

These rotations provide essential clinical knowledge and procedural skills necessary for family medicine practice.

Continuity Clinic

Residents maintain a longitudinal continuity clinic throughout their training, managing their own patient panel under faculty supervision. This experience fosters long-term patient relationships and continuity of care,

critical components of family medicine.

Procedural Training

The program emphasizes competency in common family medicine procedures such as joint injections, skin biopsies, and obstetrical deliveries. Simulation labs and supervised clinical practice ensure residents develop confidence and proficiency.

Faculty and Mentorship

The Mayo Jacksonville Family Medicine Residency boasts a dedicated faculty team consisting of experienced family physicians, subspecialists, and allied health professionals. Faculty members are committed to resident education, mentorship, and career development.

Faculty Expertise

Faculty members bring expertise in various family medicine domains, including geriatrics, sports medicine, women's health, and behavioral health. This diversity enriches the educational experience and allows residents to tailor their training to individual interests.

Mentorship Programs

Residents benefit from structured mentorship programs that provide guidance on clinical skills, research opportunities, and career planning. Regular feedback and professional development sessions support resident growth and well-being.

Research and Scholarly Activity

Research is a vital component of the Mayo Jacksonville Family Medicine Residency, encouraging residents to engage in scholarly activities that advance clinical knowledge and improve patient care.

Research Opportunities

Residents have access to Mayo Clinic's extensive research resources, including biostatistics support, research coordinators, and collaborative projects across specialties. Areas of research include preventive medicine, health disparities, clinical trials, and quality improvement initiatives.

Scholarly Activity Requirements

Each resident is required to complete at least one scholarly project during their training. This may include original research, quality improvement projects, case reports, or literature reviews. Presentation at conferences and publication in medical journals are encouraged.

Application Process and Eligibility

The application process for the Mayo Jacksonville Family Medicine Residency is competitive and follows the National Resident Matching Program (NRMP) guidelines. Prospective applicants must meet specific eligibility criteria and submit required documentation.

Eligibility Criteria

Applicants must have graduated from an accredited medical school and be eligible for medical licensure in Florida. Both U.S. and international medical graduates are welcome to apply, provided they meet visa and licensing requirements.

Application Components

The application includes:

- ERAS application form
- Personal statement
- Curriculum vitae (CV)
- Three letters of recommendation
- USMLE or COMLEX scores
- Medical school transcripts

Interviews are conducted with selected candidates to assess clinical aptitude, professionalism, and alignment with the program's values.

Resident Life and Support

Resident well-being and work-life balance are priorities within the Mayo Jacksonville Family Medicine Residency. The program offers numerous resources

and a supportive community to foster a positive training environment.

Work-Life Balance

The residency incorporates reasonable work hours, scheduled time off, and wellness initiatives to reduce burnout. Residents have access to counseling services, fitness facilities, and social events to promote mental and physical health.

Community Engagement

Residents are encouraged to participate in community outreach programs and volunteer activities. These experiences enhance cultural competency and strengthen ties with the local population.

Housing and Relocation Assistance

The program provides guidance on housing options and relocation logistics to assist incoming residents in transitioning smoothly to Jacksonville. Resources include information on neighborhoods, transportation, and local amenities.

Frequently Asked Questions

What is the Mayo Jacksonville Family Medicine Residency program?

The Mayo Jacksonville Family Medicine Residency program is a postgraduate training program designed to prepare physicians for a career in family medicine through comprehensive clinical education at Mayo Clinic in Jacksonville, Florida.

mayo jacksonville family medicine residency: Concussion Management for Primary Care Deepak S. Patel, 2020-03-20 Concussions are increasing in incidence each year, and each state has a law on management of concussions in children. These factors strengthen the need for primary care providers to be well-versed in the evaluation and management of them. This text provides primary care physicians and clinicians with an evidence-based yet practical approach to diagnosing and treating concussions in children and adults. The book begins with a general overview of concussions. It then goes on to identify risks, signs and symptoms of concussions. Next, physicians and providers learn when and how to perform appropriate physical exams for suspected concussions. The following

chapters focus on finding the correct type of testing to perform in suspected concussions. The testing options addressed include diagnostic, neurocognitive and imaging. Return-to-learn and return-to-play recommendations are then discussed to ensure that providers are able to properly educate patients on them. The book concludes by explaining post-concussion syndrome and identifying methods to prevent concussions and complications in the future. Each chapter presents a specific case along with 3-5 followup questions as well as a summary of key concepts. Written from the unique perspective of a primary care physician who also specializes in sports medicine and concussions, *Concussion Management for Primary Care* is a first-of-its-kind book that serves as a valuable resource for primary care physicians, sports medicine physicians and any other clinician treating patients suffering from a possible concussion.

mayo jacksonville family medicine residency: Conn's Current Therapy 2023 - E-Book

Rick D. Kellerman, David P. Rakel, 2022-11-02 Trusted by clinicians for more than 75 years, Conn's Current Therapy presents today's evidence-based information along with the personal experience and discernment of expert physicians. The 2023 edition is an excellent resource for a wide range of healthcare professionals, including primary care, subspecialists, and allied health, providing current treatment information in a concise yet in-depth format. Nearly 350 topics have been carefully reviewed and updated to bring you state-of-the-art content in even the most rapidly changing areas of medicine. - Offers personal approaches from recognized leaders in the field, covering common complaints, acute diseases, and chronic illnesses along with the most current evidence-based clinical management options. - Follows a consistent, easy-to-use format throughout, with diagnosis, therapy, drug protocols, and treatment pearls presented in quick-reference boxes and tables for point-of-care answers to common clinical questions. - Includes new chapters on leg edema and venous stasis, multisystem inflammatory syndrome in children (MIS-C), monoclonal antibodies, and genetic testing. - Incorporates more electronic links throughout the text that connect the reader to apps and clinical prediction tools that can easily be accessed in practice. - Features thoroughly reviewed and updated information from many new authors and two new associate editors, Drs. Joel J. Heidelbaugh and Ernestine M. Lee, who offer a fresh perspective and their unique personal experience and judgment. - Provides current drug information thoroughly reviewed by PharmDs. - Features nearly 300 images, including algorithms, anatomical illustrations, and photographs, that provide useful information for diagnosis.
