Horseman about his recurring issues in relationships and behavior. This moment was widely shared and adapted, resonating with audiences for its blunt yet insightful message. Over time, the phrase was extracted from its context and transformed into a meme format that could be applied to various scenarios where people deflect blame or refuse to self-reflect.

Context within BoJack Horseman

In the original scene, Diane Nguyen delivers the line "Maybe you're the problem" during a candid conversation with BoJack, highlighting his tendency to blame external circumstances rather than accept personal responsibility. As the words "at work" suggest, Peter Seibel focuses on how his interviewees tackle the day-to-day work of programming, while revealing much more, like how they became great programmers, how they recognize programming talent in others, and what kinds of problems they find most interesting.
