maus chapter 4 questions and answers: Courts, Jurisdictions, and Law in John Milton and His Contemporaries Alison A. Chapman, 2020-10-10 John Milton is widely known as the poet of liberty and freedom. But his commitment to justice has been often overlooked. As Alison A. Chapman

shows, Milton's many prose works are saturated in legal ways of thinking, and he also actively shifts between citing Roman, common, and ecclesiastical law to best suit his purpose in any given text. This book provides literary scholars with a working knowledge of the multiple, jostling, real-world legal systems in conflict in seventeenth-century England and brings to light Milton's use of the various legal systems and vocabularies of the time—natural versus positive law, for example—and the differences between them. Surveying Milton's early pamphlets, divorce tracts, late political tracts, and major prose works in comparison with the writings and cases of some of Milton's contemporaries—including George Herbert, John Donne, Ben Jonson, and John Bunyan—Chapman reveals the variety and nuance in Milton's juridical toolkit and his subtle use of competing legal traditions in pursuit of justice.

maus chapter 4 questions and answers: *Shakespeare's book* Richard Meek, Jane Rickard, Richard Wilson, 2024-06-04 This collection of essays is part of a new phase in Shakespeare studies. The traditional view of Shakespeare is that he was a man of the theatre who showed no interest in the printing of his plays, producing works that are only fully realised in performance. This view has

recently been challenged by critics arguing that Shakespeare was a literary 'poet-playwright', concerned with his readers as well as his audiences. Shakespeare's Book offers a vital contribution to this critical debate, and examines its wider implications for how we conceive of Shakespeare and his works. Bringing together an impressive group of international Shakespeare scholars, the volume explores both Shakespeare's relationship with actual printers, patrons, and readers, and the representation of writing, reading, and print within his works themselves.
