**matthew mcconaughey oscar speech:** Matthew McConaughey - The Biography Neil Daniels, 2014-11-06 Matthew McConaughey is a Hollywood star with an Oscar to his name and the world at his feet. Growing up in Texas, the youngest of three boys, he was known for his good looks and charm. His acting career began quietly with TV commercials, B movies and lowbudget independent films, which included the much respected coming of age drama *Dazed and Confused*. In 1996, his big break came as lawyer Jack Brigrance in *A Time to Kill*, based on the best-selling legal thriller by John Grisham, and he was subsequently cast in such acclaimed films as *Amistad*, *Contact*, *Edtv* and *U-571*. However the new millennium brought an unfortunate change in his fortunes as he moved into risible romantic comedies. Movies such as *The Wedding Planner*, *How To Lose A Guy In 10 Days*, *Failure To Launch*, *Fool's Gold* and *Ghosts Of Girlfriends Past* were only moderately successful and failed to win over the critics; the critical acclaim that he garnered in the nineties as a serious actor was a thing of the past, and McConaughey desperately needed to reinvent himself. *The Lincoln Lawyer*, released in 2011, commenced McConaughey's revival and he returned to serious roles in such revered films as *Bernie*, *Killer Joe*, *Magic Mike* and *Dallas Buyers Club*, which won him a Golden Globe and Oscar for Best Lead Actor in 2014. He was also cast with Woody Harrelson in HBO's critically acclaimed series *True Detective* which won him rave reviews. Happily married to Brazilian model Camila Alves, the McConaughey's live in Austin, Texas with their three children. This is the authoritative biography of one of Hollywood's leading lights.

**matthew mcconaughey oscar speech:** You vs You Todd Cahill, 2019-02-19 The greatest battles we face are with ourselves In *You vs You*, author Todd Cahill starts with a simple premise: As people strive for any improvement in their lives—whether it's more income, a better relationship, a promotion, a bigger business, or a better body—the most important battles they will face are against themselves. People invite problems into their lives through poor choices, apathy, indecision, arrogance, anxiety, selfishness, and other traits they would rather not discuss but must be addressed. In this valuable book, Cahill shares what he has learned about these battles that either keep people from success and significance or usher them to victory. As a life coach and leadership trainer, he has taught thousands of people these lessons, and many of them are now experiencing a level of personal achievement, relational abundance, and financial freedom they never thought possible. People often self-sabotage if they're not mindful, wise, and willing. Cahill reinforces the idea that readers can choose today to fight against who they once were (or are) and become who they are made to be. *You vs You* is about that choice and the challenging, rewarding quest that ensues.

**matthew mcconaughey oscar speech: Best Loser Wins** Tom Hougaard, 2022-08-16 *Best Loser Wins* is an intimate insight into one of the most prolific high-stake retail traders in the world. Tom Hougaard is the winner of multiple trading competitions and on one occasion traded £25,000 into more than £1 million over the course of a year. While the average retail trader risks £10 per point in the underlying asset, Tom Hougaard frequently risks up to £3,500 per point. This risk exposure requires a mindset that is out of the ordinary. Normal thinking leads to normal results. For exceptional results, traders must think differently. This book will guide and inspire you in ways no other trading book has. It is not about strategies and money management. It is about mind management. Tom Hougaard provides a unique and refreshingly personal account of how an ordinary trader elevated his game to incredible heights by focusing as much on his mental approach as on his technical analysis. *Best Loser Wins* explains how you, by thinking differently when you are trading, can elevate your game from mediocre and sporadic, to excellent and consistent. No amount of technical analysis will ever do that for you. Tom Hougaard says, "People don't fail because they don't know enough about technical analysis. They fail because they don't understand what the markets are doing to their minds." *Best Loser Wins* is an antidote to conventional and flawed thinking in trading, and a blueprint for a new belief system for traders who want to elevate their results to levels they never dreamed they could reach.

**matthew mcconaughey oscar speech: *Finding Our Compass*** Chris Wright, 2013-12-31 There's a time when the operation of the Machine becomes so odious, makes you so sick at heart, that you can't take part, you can't even passively take part. So said Mario Savio in 1964; so say millions of the disenfranchised now. As the apparatus of elite institutions grinds on, pushing society to the brink, protesters across the world are putting their bodies upon its gears and its wheels, to open up space for freedom and creativity unconstrained by institutional strictures. It's time we all followed their lead. In a series of freewheeling reflections and summaries of historical scholarship, this book reinterprets history and culture along anarchist lines. From a rationalistic and Marxian point of view it illuminates capitalism, economics, U.S. history, popular culture, gender relations, and human psychology, even the nature of the fascinating concepts genius and greatness. Its agenda is that of the seventeenth-century Levellers: deflate the pomposities of elite authority, and bring the world down to the level of democratic reason. In the process, one hopes, we will find our way out of the crisis of the present and into a more just civilization in the future.

**matthew mcconaughey oscar speech: And the Loser is: A History of Oscar Oversights [2nd Edition]** Aubrey Malone, 2020-10-06 This is the first book of its kind. Aubrey Malone has gone back to the start of the Oscar ceremonies and discovered that mistakes have been made every year in the choice of what has been deemed "best" in the categories of acting, directing, producing and the subsidiary awards. He has identified all the great stars (Garbo, Montgomery Clift, Peter O'Toole, Barbara Stanwyck, etc.) who never held Oscars in their hands, and also iconic directors like Stanley Kubrick who were never thus honored. Why were some people over-rewarded by the Academy and why did others fall below the radar? The author outlines all of the extraneous factors leading to voting choices, and how Oscar pariahs have often been subsequently (or even posthumously) awarded for the wrong films to make up for omissions in a given year. With both wit and wisdom he has written an "alternative" history of the Oscars that will be required reading for both academics and film buffs alike. It tells the story behind the story. "If there were Oscars for research, Aubrey Malone would be right up there with the best of them." (Film Ireland)
