max richtman political party affiliation: *Tax-funded Politics* James T. Bennett, 2017-12-02
The past two decades have seen the growth of well-coordinated networks of political activists who have managed to obtain hundreds of millions of taxpayers' dollars for political lobbying. Although federal regulations prohibit such activities, loopholes in the law allow these monies to be masked as private resources. State and federal taxpayers, monies fund the lobbying efforts of private advocacy groups on both the political left and the right. In *Tax-Funded Politics*, James Bennett argues that governmental agencies, rather than combating these abuses, aid and abet them in order to increase their own size and scope. Drawing on a broad range of examples, Bennett shows how the ideals of the nation's Founding Fathers have been subverted by molding and manipulating the will of the people through government-orchestrated propaganda. Government agencies, far from being indifferent to self-aggrandizement and the consolidation of wealth and power, are concerned with their own self-interest, whether it is enhancing their budget or supporting a particular political agenda. Likewise, nonprofit entities claim to operate solely in the public interest but also engage in political advocacy and lobbying activities. But when charities do the lobbying, blatant self-interest is wrapped in the halo of the public interest. *Tax-Funded Politics* exposes dozens of mutually beneficial arrangements between government and charities involving hundreds of millions of dollars. It then explores their implications. Groups that receive government funds are loath to criticize failed government programs and are advocates for the expansion of the agencies that provide their support. Even charities learn not to bite the hand that feeds them. Although the vast majority of the funds are directed to nonprofit groups on the left of the political spectrum, so-called conservative organizations have also sought and received taxpayers' funds, despite promise to get g

Alan R Parker, 2018-04-01 In a story that could only be told by someone who was an insider, this book reveals the background behind major legislative achievements of U.S. Tribal Nations leaders in the 1970s and beyond. American Indian attorney and proud Chippewa Cree Nation citizen Alan R. Parker gives insight into the design and development of the public policy initiatives that led to major changes in the U.S. government's relationships with Tribal Nations. Here he relates the history of the federal government's attempts, beginning in 1953 and lasting through 1965, to "terminate" its obligations to tribes that had been written into over 370 Indian treaties in the nineteenth century. When Indian leaders gathered in Chicago in 1961, they developed a common strategy in response to termination that led to a new era of "Indian Self-Determination, not Termination," as promised by President Nixon in his 1970 message to Congress. Congressional leaders took up Nixon's challenge and created a new Committee on Indian Affairs. Parker was hired as Chief Counsel to the committee, where he began his work by designing legislation to stop the theft of Indian children from their communities and writing laws to settle long-standing Indian water and land claims based on principles of informed consent to negotiated agreements. A decade later, Parker was called back to the senate to work as staff director to the Committee on Indian Affairs, taking up legislation designed by tribal leaders to wrest control from the Bureau of Indian Affairs over governance on the nation's 250 Indian reservations and negotiating agreements between the tribes that led to the Indian Gaming Regulatory Act. A valuable educational tool, this text weaves together the ideas and goals of many different American Indian leaders from different tribes and professional backgrounds, and shows how those ideas worked to become the law of the land and transform Indian Country.
