

maya exhibit science center dates

maya exhibit science center dates are essential for visitors, educators, and enthusiasts interested in exploring the rich history and culture of the ancient Maya civilization. This article provides comprehensive information about the scheduling, duration, and key features of the Maya exhibit at the Science Center. Understanding the exhibit dates allows attendees to plan their visits effectively and ensures they do not miss the opportunity to engage with interactive displays, artifacts, and educational programs. The exhibit often includes detailed presentations on Maya astronomy, architecture, art, and daily life, making it a valuable resource for learning and cultural appreciation. This article also outlines ticketing details, special events, and recommended visitor guidelines to maximize the experience. Below is an organized overview of the main topics covered.

- Exhibit Schedule and Duration
- Featured Artifacts and Displays
- Educational Programs and Workshops
- Visitor Information and Ticketing
- Special Events and Activities

Exhibit Schedule and Duration

The Maya exhibit science center dates are typically announced well in advance to accommodate visitors from various regions. This section details the opening and closing dates, including any extended viewing periods or seasonal variations.

Opening and Closing Dates

The exhibit usually opens in the spring and runs through late summer or early fall, offering several months for public visitation. For example, a recent iteration of the Maya exhibit was available from April 15 to September 30, providing ample opportunity for schools and families to attend.

Extended Viewing Periods

In some cases, the Science Center extends the exhibit dates due to popular demand or special anniversaries related to Maya history. These extensions allow additional visitors to experience the exhibit beyond the original schedule.

Planning Your Visit

Visitors are encouraged to check the official Science Center announcements for the most current Maya exhibit science center dates. Planning visits during weekdays or off-peak hours can enhance the experience by reducing crowd sizes.

Featured Artifacts and Displays

The Maya exhibit showcases a diverse collection of artifacts and interactive displays that provide insights into ancient Maya civilization. The selection of items is curated to educate and inspire curiosity about this remarkable culture.

Archaeological Artifacts

Visitors can view authentic artifacts such as pottery, tools, jewelry, and ceremonial objects recovered from archaeological sites. These pieces illustrate the artistry and daily life of the Maya people.

Interactive Digital Displays

The exhibit incorporates cutting-edge technology with interactive touchscreens and virtual reality experiences. These digital displays allow guests to explore Maya cities, decipher hieroglyphs, and understand complex calendrical systems.

Educational Panels and Models

Informational panels provide context on Maya history, governance, religion, and scientific achievements. Additionally, scale models of temples and pyramids help visualize the architectural prowess of the civilization.

Educational Programs and Workshops

The Science Center complements the Maya exhibit with a variety of educational programs designed to deepen understanding and engagement for all ages.

Guided Tours

Expert-led tours provide detailed explanations about the exhibits and answer visitor questions. These tours are scheduled regularly and can be booked in advance for groups and schools.

Hands-On Workshops

Workshops offer participants the chance to create traditional Maya crafts, learn about ancient writing systems, or participate in astronomy sessions based on Maya calendar knowledge.

School Field Trips

Special programming tailored for school groups includes curriculum-aligned activities and interactive learning stations. These field trips enhance classroom instruction with experiential learning.

Visitor Information and Ticketing

Understanding visitor logistics is key to a smooth experience at the Maya exhibit. This section covers ticket options, pricing, accessibility, and other visitor services.

Ticket Pricing and Packages

The Science Center offers various ticket types, including general admission, family passes, and discounted rates for students and seniors. Some packages bundle exhibit access with other museum attractions.

Operating Hours

Normal operating hours for the exhibit align with the Science Center's schedule, typically from 10:00 AM to 5:00 PM daily, with extended hours on select dates. Early booking is recommended to ensure entry during peak times.

Accessibility and Visitor Services

The exhibit is fully accessible to individuals with disabilities, featuring ramps, elevators, and assistive listening devices. Visitor services include coat checks, rest areas, and on-site dining options.

Special Events and Activities

Throughout the duration of the Maya exhibit, the Science Center hosts a variety of special events aimed at enhancing visitor engagement and cultural appreciation.

Lecture Series

Renowned archaeologists and historians present lectures on Maya civilization topics, offering deeper scholarly insights and the latest research findings.

Cultural Performances

Live performances, including traditional Maya music and dance, are scheduled periodically to provide immersive cultural experiences.

Family Activity Days

Family-focused events feature themed crafts, storytelling sessions, and scavenger hunts designed to make learning about the Maya fun and interactive for children.

- Lecture Series by Experts
- Traditional Music and Dance Performances
- Interactive Family Activity Days
- Special Holiday-Themed Events

Frequently Asked Questions

What are the dates for the Maya exhibit at the Science Center?

The Maya exhibit at the Science Center runs from July 1, 2024, to October 31, 2024.

Where is the Maya exhibit being held at the Science Center?

The Maya exhibit is being held at the main exhibition hall of the Science Center.

Are there any special events during the Maya exhibit at the Science Center?

Yes, the Science Center is hosting special lectures and workshops related to Maya culture on select weekends throughout the exhibit's duration.

How can I purchase tickets for the Maya exhibit at the Science Center?

Tickets for the Maya exhibit can be purchased online through the Science Center's official website or at the box office during operating hours.

Is the Maya exhibit at the Science Center suitable for children?

Yes, the exhibit includes interactive displays and educational activities designed to engage children and families.

Additional Resources

1. *The Maya Exhibit: Unveiling Ancient Wonders*

This book explores the fascinating artifacts and discoveries featured in Maya exhibits worldwide. It provides detailed insights into the cultural and scientific significance of each item, connecting them with the broader history of the Maya civilization. Readers will find timelines and exhibit dates that highlight the evolution of Maya studies.

2. *Chronicles of the Maya: Science Center Discoveries*

Focusing on the groundbreaking discoveries presented in science centers, this book chronicles the journey of Maya archaeology from early findings to modern-day exhibits. It includes vivid descriptions of exhibit dates, scientific methods used, and the impact of these displays on public understanding of Maya history.

3. *Maya Civilization: Exhibits and Scientific Breakthroughs*

This comprehensive volume looks at how science centers curate Maya exhibits, showcasing the latest

research and archaeological breakthroughs. It outlines key exhibit dates and the technology behind artifact preservation and presentation, making it a valuable resource for enthusiasts and scholars alike.

4. *Time and the Maya: Exhibit Dates Through History*

Delving into the chronological aspect of Maya studies, this book presents a timeline of major exhibits and their corresponding scientific discoveries. Readers gain an appreciation for how exhibit dates align with shifts in archaeological theory and public interest in the Maya world.

5. *The Science of Maya Exhibits: From Dig to Display*

Detailing the scientific process behind Maya exhibits, this book explains how artifacts are excavated, analyzed, and finally displayed in science centers. It highlights important exhibit dates that marked milestones in Maya archaeology and explores the collaboration between scientists and curators.

6. *Maya Artifacts on Display: Science Center Exhibition History*

This title focuses on the history of Maya artifact exhibitions, tracing the development of science center displays over time. It offers insights into exhibit dates, the selection of artifacts, and how these exhibitions have shaped public perception of Maya culture.

7. *Exploring Maya Exhibits: Science, Culture, and Dates*

Offering a multidisciplinary perspective, this book connects the scientific, cultural, and chronological elements of Maya exhibits. It includes detailed schedules of exhibit openings and special events at major science centers dedicated to Maya heritage.

8. *The Legacy of Maya Exhibitions: Science Centers and Timelines*

This work examines the lasting impact of Maya exhibitions on science centers and museums, emphasizing the importance of exhibit dates in preserving cultural legacy. It discusses how timelines are constructed and the role of exhibitions in educating the public about Maya achievements.

9. *Maya Discoveries in Science Centers: A Historical Overview*

Providing a historical overview, this book charts the major Maya discoveries featured in science center exhibits over the decades. It highlights key exhibit dates and the evolving methods of archaeological display, offering readers a clear picture of how Maya science has progressed through public exhibitions.

maya exhibit science center dates: The End of Time Anthony Aveni, 2009-10-01 December 21, 2012. The Internet, bookshelves, and movie theaters are full of prophecies, theories, and predictions that this date marks the end of the world, or at least the end of the world as we know it. Whether the end will result from the magnetic realignment of the north and south poles, bringing floods, earthquakes, death, and destruction; or from the return of alien caretakers to enlighten or enslave us; or from a global awakening, a sudden evolution of Homo sapiens into non-corporeal beings - theories of great, impending changes abound. In *The End of Time*, award-winning astronomer and Maya researcher Anthony Aveni explores these theories, explains their origins, and measures them objectively against evidence unearthed by Maya archaeologists, iconographers, and epigraphers. He probes the latest information astronomers and earth scientists have gathered on the likelihood of Armageddon and the oft-proposed link between the Maya Long Count cycle and the precession of the equinoxes. He then expands on these prophecies to include the broader context of how other cultures, ancient and modern, thought about the end of things and speculates on why cataclysmic events in human history have such a strong appeal within American pop culture.

maya exhibit science center dates: Moon Coastal California Stuart Thornton, 2018-11-13 From foggy cliffs and towering redwoods to warm sands and legendary surf, explore the best of the golden coast with *Moon Coastal California*. Inside you'll find: Flexible itineraries including six days in Central California, five days on the North Coast, and multiple road trip itineraries that can be combined into an epic two-week Pacific Coast road trip Strategic advice for families, adventure seekers, romantic getaways, outdoor enthusiasts, foodies, and more The top beaches for surfing, wildlife viewing, solitude, scuba diving, snorkeling, hiking, and more Unique experiences and can't-miss highlights: Soak up the solitude and rugged beauty of the North Coast beaches, or opt for sun and sand in San Diego. Explore the world-class museums and plunging city streets of San Francisco, sip your way through Napa and Sonoma, or gaze at skyscraping redwoods in Muir Woods. Catch a wave in a classic surf town, explore sea caves by kayak, or hike winding cliffside trails. Feast on local Dungeness crab, sample stouts at a coastal microbrewery, or find the best tacos in Los Angeles Full-color photos and detailed maps throughout Expert advice from Monterey local and surfer Stuart Thornton on where to stay, where to eat, and how to get around Background information on California's landscape, plants and animals, history, and culture Handy tips for international visitors, seniors, families with kids, LGBTQ+ travelers, and travelers with disabilities With *Moon Coastal California*'s local insight and practical know-how, you can plan your trip your way. Hitting the road? Try *Moon California Road Trip*. Headed to the national parks? Check out *Moon Death Valley National Park* or *Moon Yosemite, Sequoia & Kings Canyon*.

maya exhibit science center dates: A Guide to California's Historic Sites & Museums Deborah Dinzes, 1993 No matter where you are in California, there's a lot to see and do. This book offers insight into the popular (and some of the hidden) museums, tours and attractions. Brilliant photographs, well written, and a great map make this the perfect travel guide.

maya exhibit science center dates: Culture and Computing. Design Thinking and Cultural Computing Matthias Rauterberg, 2021-07-03 The two-volume set LNCS 12794-12795 constitutes the refereed proceedings of the 9th International Conference on Culture and Computing, C&C 2021, which was held as part of HCI International 2021 and took place virtually during July 24-29, 2021. The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions. The papers included in the HCII-C&C volume set were organized in topical sections as follows: Part I: ICT for cultural heritage; technology and art; visitors' experiences in digital culture; Part II: Design thinking in cultural contexts; digital humanities, new media and culture; perspectives on cultural computing.

maya exhibit science center dates: Orange Coast Magazine , 2001-08 *Orange Coast Magazine* is the oldest continuously published lifestyle magazine in the region, bringing together Orange County's most affluent coastal communities through smart, fun, and timely editorial content, as well as compelling photographs and design. Each issue features an award-winning blend of celebrity and newsmaker profiles, service journalism, and authoritative articles on dining, fashion,

home design, and travel. As Orange County's only paid subscription lifestyle magazine with circulation figures guaranteed by the Audit Bureau of Circulation, Orange Coast is the definitive guidebook into the county's luxe lifestyle.

maya exhibit science center dates: *Jeff Corwin: A Wild Life* Jeff Corwin, 2009-09-03 A fascinating look at the real Jeff Corwin! From growing up in an urban community near Boston, to falling in love with snakes, to traveling to exotic places, to becoming a beloved Emmy Award-winning television host of Animal Planet, this authorized biography will give readers a first-hand look at Jeff's amazing and adventurous life. Based on extensive research and one-on-one interviews with Jeff, kids will get an honest telling of Jeff Corwin's incredible journey from child nature enthusiast to naturalist and animal specialist.

maya exhibit science center dates: *Creating Exhibitions* Polly McKenna-Cress, Janet Kamien, 2013-10-07 "This is a must-read for the nervous novice as well as the world-weary veteran. The book guides you through every aspect of exhibit making, from concept to completion. The say the devil is in the details, but so is the divine. This carefully crafted tome helps you to avoid the pitfalls in the process, so you can have fun creating something inspirational. It perfectly supports the dictum—if you don't have fun making an exhibit, the visitor won't have fun using it." —Jeff Hoke, Senior Exhibit Designer at Monterey Bay Aquarium and Author of *The Museum of Lost Wonder* Structured around the key phases of the exhibition design process, this guide offers complete coverage of the tools and processes required to develop successful exhibitions. Intended to appeal to the broad range of stakeholders in any exhibition design process, the book offers this critical information in the context of a collaborative process intended to drive innovation for exhibition design. It is indispensable reading for students and professionals in exhibit design, graphic design, environmental design, industrial design, interior design, and architecture.

maya exhibit science center dates: *California and Nevada on Wheels* David Prebenna, On Wheels Staff, On Wheels, 1995 This season Frommer's America on Wheels takes you across the country with complete coverage of 35 states, including reliable ratings and reviews of more than 10,000 new lodgings and restaurants. The five new titles complete the nine-book series, which now covers virtually the entire country. As always, every hotel, motel, resort, lodge, and inn has been fully inspected and rated from one to five flags according to America on Wheels' benchmark rating system, with our special Ultra award reserved for the best of the best. Restaurants, too, have undergone the scrutiny of our tireless experts, who have highlighted local favorites, exceptional values, and those restaurants that are worth a splurge. Our hard-nosed, experienced travel professionals gain the trust of readers by providing them with the unvarnished truth about a property's weaknesses as well as its strong points: Shoe-horned into a tiny spot just a corner too far from the shops, but the curved driveway with fountains and flowers makes an appropriately posh entrance, Recent rehab has brightened the decor, but deep-pile wall-to-wall carpeting conjures up memories of early Howard Johnsons, All the usual...refinements, including Italian marble bathrooms; but even in a climate where temperatures climb over 100degrees F, many guests might prefer windows that can be opened.. More than just lists of data, our reviews give readers the know-how of travel professionals. New this season: -- Reliable ratings and reviews of more than 10,000 properties -- Expanded major city coverage, with lodgings and restaurants keyed to neighborhood maps -- 24 pages of 4-color maps -- \$500 in money-saving coupons -- Increasedattention to the needs of today's traveler, from dataports to low-fat menus In addition, coverage of each state includes: -- Hundreds of

lodging and restaurant listings, featuring super-clear icons that make it easy for readers to find what they're looking for at a glance -- from golf courses to kid-friendly restaurants -- An in-depth introduction, including essential trip-planning information and background highlighted by fun facts about each state Graceland is the second most-visited house in America (only the White House has more visitors) Seattleites buy more sunglasses per capita than the people of any other city Portland is the only city in America with an extinct volcano within its city limits -- Mount Tabor -- Our Best of the State section, featuring highlights of what to see and do, information on events and festivals, and everything enthusiasts need to know about outdoor recreation and spectator sports -- Scenic driving tours ranging from afternoon outings to longer trips, with all tours keyed to maps. -- Hundreds of sights and attractions that are worth a detour, including historic sites and homes, national parks and monuments, natural wonders, museums, amusement parks, battlefields, and zoos America on Wheels is your indispensable trip-planning tool for every type of travel -- from romantic weekend escapes to family vacations and cross-country tours.
