porta potty fight interview: *The Man in the Arena* Rodger Eugene McDaniel, 2018-09-01 There was a time when Wyoming and other Rocky Mountain and midwestern states were as likely to elect a liberal Democrat to Congress as they were a conservative Republican. Gale McGee (1915-92) was elected to the U.S. Senate in 1958, at the height of American liberalism. He typified what Teddy Roosevelt called the man in the arena and was a major player in the development of America's post-World War II foreign policy and almost every legislative milestone in U.S. history from the 1950s to 1980. McGee's careers as an academic, a senator, and an ambassador spanned World War II, the Red Scare, the Korean and Vietnam Wars, and the activist Congress of the 1960s. This elegantly conceived biography of a liberal from the conservative rural state of Wyoming offers readers a glimpse into formative political shifts of the twentieth century. The national liberal consensus of the 1960s, in which McGee played a major role, gave the nation Social Security, Medicare, Medicaid, the minimum wage, and the right to collective bargaining, as well as landmark civil rights and environmental reforms. That consensus had ended by the mid-1970s as McGee's liberalism would no longer be welcome to represent the Equality State. Moving beyond biography, Rodger McDaniel addresses the significant shift in government and details how the attribution liberal became a candidate's epitaph, as widespread distrust of government cast a shadow on the many benefits acquired through the old liberal consensus. McDaniel's insights into the past as well as McGee's experiences in the arena shed unexpected light on the present state of U.S. politics and government.

porta potty fight interview: *Fighting Blind* Ivan Castro, Jim DeFelice, 2016-11-15 *Fighting* was a practiced routine for Lieutenant Ivan Castro. But when a mortar round struck the rooftop of his sniper's post in Iraq, he found himself in a battle more difficult than even he could have imagined. The direct hit killed two other soldiers and nearly claimed Castro's life as well. Mangled by shrapnel and badly burned, Castro was medevac'd to Germany more dead than alive. His lungs were collapsed. He couldn't hear. One eye had been blown out, the nerve to the other severed. In the weeks and months that followed, Castro would find that physical darkness was nothing compared to the emotional darkness of loss and despair. Desperate for a reason to live, he eventually fought his way back to health through exercise and a single-minded goal: running a marathon. Once he set his course, there was no stopping him. Stubborn to a point that at times bordered on insanity, he managed not only to recover but to return to active duty. Since 2007, he has run over two dozen marathons, including the Boston Marathon in 2013, where he was one of the runners diverted when the bombs exploded. Today, Castro helps prepare soldiers for combat, working exactly as if he were "sighted." *Fighting Blind*, this frankly told account of his struggle through adversity, the highs and lows and the always bumpy road in between, is a story of hope and perseverance against the odds: an Unbroken for the present generation.

porta potty fight interview: *Voting in Indian Country* Jean Reith Schroedel, 2020-10-09 *Voting in Indian Country* uses conflicts over voting rights as a lens for understanding the centuries-long fight for Native self-determination. Among the American public, there is a collective amnesia about the U.S. government's shameful policies toward the continent's original inhabitants and their descendants. Only rarely, such as during the Wounded Knee standoff in the 1970s and the recent

Dakota Access Pipeline protests, do Native issues reach the public consciousness. But even during those times, there is little understanding of historical context—of the history of promises made and broken over seven generations—that shape current events. Voting in Indian Country uses conflicts over voting rights as a lens for understanding the centuries-long fight for Native self-determination. Weaving together history, politics, and law, Jean Reith Schroedel provides a view of this often-ignored struggle for social justice from the ground up. Differentiating this volume from other voting rights books is its use of ethnographic data, including the case study of a county with a population evenly split between whites and Native Americans, as well as oral histories of the people who have chosen to fight for voting rights. The stories of these lawyers, activists, and plaintiffs illuminate both the complexity and the vividness of their experiences on the front lines and their understanding of a connection to broader Native struggles for self-determination—both to control the lands and resources promised to them in perpetuity through treaties and to freely exercise the political rights and liberties promised to all Americans.

porta potty fight interview: WrestleCrap Randy Baer, R. D. Reynolds, 2010-12-16 *WrestleCrap: The Very Worst of Professional Wrestling* examines some of the ridiculously horrible characters and storylines that pro wrestling promoters have subjected their fans to over the past twenty years. Why would any sane person think that having two grown men fight over a turkey was actually a reasonable idea? Was George Ringo, the Wrestling Beatle, really the best gimmick that a major promotional organization could come up with? And who would charge fans to watch a wrestler named the Gobbeldy Gooker emerge from an egg? In an attempt to answer such questions and figure out just what the promoters were thinking, authors Randy Baer and R.D. Reynolds go beyond what wrestling fans saw on the screen and delve into the mindset of those in the production booth. In some instances, the motivations driving the spectacle prove even more laughable than what was actually seen in the ring. Covering such entertainment catastrophes as an evil one-eyed midget and a wrestler from the mystical land of Oz, not to mention the utterly comprehensible Turkey-on-a-Pole match (a gimmick which AWA fans might recall), *WrestleCrap* is hysterically merciless in its evaluation of such organizations as the WCW and the WWF. This retrospective look at the wrestling world's misguided attempts to attract viewers will leave wrestling fans and critics alike in stitches.
