Victoria Hunt, Alcira Jaar, Rebeca Madrigal, Consuelo Villegas, 2024-08-13 This edited book showcases the lessons, successes and challenges of starting and growing a fully bilingual school. Reflecting on the first 10 years of Dos Puentes Elementary School in New York City, it explores the evolution of the school through its four founding pillars: (1) bilingüismo, biliteracidad y multiculturalismo, (2) las familias son partners, leaders and advocates, (3) investigaciones and hands-on learning, and (4) partnerships with universities, organizations y la comunidad. The chapter authors include families, teachers, school administrators and university partners, centering the voices of those directly involved in the school community and highlighting key moments in the life of the school. At the end of each chapter, researcher commentary contextualizes these experiences within the wider literature and discusses implications and next steps for the field of bilingual education. This book will be of interest to pre- and in-service teachers and school administrators, particularly those looking to develop bilingual programs in their own context.

**potluck in spanish language:** *Teaching Culturally and Linguistically Relevant Social Studies for Emergent Bilingual and Multilingual Youth* Ashley Taylor Jaffee, Cinthia Salinas, Wayne Journell, 2024 In recent years, social studies scholars have pushed to consider critical ways of thinking about curriculum, particularly challenging what we teach and how we teach. Authors in this book, however, speak specifically about culturally and linguistically accessing and engaging with social studies and citizenship education curricula and instruction. Through this project, the notion of inclusiveness and relevance centers on culture and language that emphasize the civic identity, agency, and membership of communities most often marginalized by social studies and civic instruction, public schools, and U.S. democratic society. We hope this collection of chapters acts as a resource to address pedagogical, sociocultural, and civic wonderings by highlighting ways of using language as an asset and means in the social studies classroom. This book presents new pedagogical ideas, theoretical frameworks, and research methodologies on teaching culturally and linguistically relevant social studies with and for emergent bilingual and multilingual (EBML) youth. The compilation of chapters seeks to forefront scholarship and teaching that centers the needs, interests, and experiences of EBML youth in social studies education. Chapter authors draw from multiple, intersecting critical and interdisciplinary frameworks that center culture and language to inform and write about social studies taking place inside, outside, and beyond the classroom that engages youth in varying disciplinary and non-disciplinary spaces across social studies education: (e.g., community, geography, family, civics, history). The chapters also challenge oppressive structures, policies, and practices that marginalize EBML youth. The book is intended for Pre-K-12 teachers and administrators, social studies teacher educators and researchers, and pre-service social studies teachers to actively read, reflect on, and strive to enact the work shared by chapter authors--

**potluck in spanish language:** *Speaking American* Zevi Gutfreund, 2019-03-07 When Lyndon B. Johnson signed the Bilingual Education Act of 1968, language learning became a touchstone in the emerging culture wars. Nowhere was this more apparent than in Los Angeles, where elected officials from both political parties had supported the legislation, and where the most disruptive protests over it occurred. The city, with its diverse population of Latinos and Asian Americans, is the ideal locus for Zevi Gutfreund's study of how language instruction informed the social construction of American citizenship. Combining the history of language instruction, school desegregation, and civil rights activism as it unfolded in Japanese American and Mexican American communities in L.A., this timely book clarifies the critical and evolving role of language instruction in twentieth-century American politics. *Speaking American* reveals how, for generations, language instruction offered a forum for Angelino educators to articulate their responses to policies that racialized access to citizenship—from the “national origins” immigration quotas of the Progressive Era through Congress's removal of race from these quotas in 1965. Meanwhile, immigrant communities designed language experiments to counter efforts to limit their liberties. Gutfreund's book is the first to place the experiences of Mexican Americans and Japanese Americans side by side as they navigated debates over Americanization programs, intercultural education, school desegregation, and bilingual education. In the process, the book shows, these language experiments helped Angelino immigrants

introduce competing concepts of citizenship that were tied to their actions and deeds rather than to the English language itself. Complicating the usual top-down approach to the history of racial politics in education, *Speaking American* recognizes the ways in which immigrant and ethnic activists, as well as white progressives and conservatives, have been deeply invested in controlling public and private aspects of language instruction in Los Angeles. The book brings compelling analytic depth and breadth to its examination of the social and political landscape in a city still at the epicenter of American immigration politics.

**potluck in spanish language: Protestant Hispanic Churches of Oregon** Deborah L. Berho, 2012-03-02 The number of Hispanics living in Oregon has burgeoned over the past several decades. The number of Spanish-speaking churches in the state has also grown exponentially. However, most non-Hispanic Oregonians know very little about the Hispanic population. This lack of knowledge about Latinos, and about Hispanic ministries specifically, is found among academics and Anglo Protestants alike. This book is the result of my desire to provide information that will serve as a bridge between Spanish-speaking and English-speaking churches and facilitate understanding between groups in the broader population, and provide a well-documented study for the academy.

**potluck in spanish language: Language and Life on Ocracoke** Jeffrey Reaser, Walt Wolfram, Candy Gaskill, 2025-05-06 In this follow-up to the celebrated *Hoi Toide* on the Outer Banks, Jeffrey Reaser, Walt Wolfram, and Candy Gaskill have produced the most comprehensive linguistic look at Ocracoke yet. Many visitors are drawn to Ocracoke's natural beauty and fascinating dialect, known as the Ocracoke Brogue. During the summer on the island, despite the required ferry ride to even set foot there, tourists (or, as the locals might call them, dingbatters or tourons) can easily outnumber residents fifteen to one. Though small in number, O'Cockers remain as iconic as the lighthouse. The authors have continued to study Ocracoke and the Ocracoke Brogue

while also participating in and partnering with the community itself. Building on the legacy of Hoi Toide, this book includes 120 new interviews with Ocracokers, documenting their evolving language and culture. With this prolonged and comprehensive approach to the region, the authors document the island's changes, providing readers with a deeply researched, empathetic, and engagingly written snapshot of one of North Carolina's most cherished places, one with a linguistic heritage worth celebrating.

**potluck in spanish language:** Latino Educational Leadership Cristóbal Rodríguez, Melissa A Martinez, Fernando Valle, 2018-09-01 Latino Educational Leadership acknowledges the unique preparation and support for both Latinx educational leaders and Latino communities needed throughout the education and policy pipeline. While leadership in communities exists for educational purposes, this effort focuses on the institutional aspect of Latino Educational Leadership across K-12 schools and university settings. The purpose of this book is to create a greater collaborative focus on Latino Educational Leadership by inviting scholarly contributions and insights from both established and up-and-coming scholars. Latino Educational Leadership also advocates for the preparation of all leaders as well as the preparation of Latinx educational leaders, to serve Latino communities. Our impetus on Latino Educational Leadership primarily stems from the changing demographics of our country. As of Fall 2017, Latinx student enrollment in K-12 schools reached an all-time high, with Latinxs comprising 26.8% of the nation's public school enrollment. Postsecondary level Latinx student enrollment has also improved; rising from 25% in 2005 to 37% in 2015. Given this growth,

particularly at the K-12 level, there has been an increasing urgency to prepare and support more Latinx educational leaders. Their rich cultural and linguistic connections to communities help them more readily understand and meet the needs of Latino students and families. Aside from enrollment growth, Latinxs have made record strides in postsecondary attainment; between 2003-04 and 2013-14, bachelor's degrees more than doubled from 94,644 to 202,412, master's degrees conferred rose from 29,806 to 55,965, and doctoral degrees rose from 5,795 to 10,665. Despite such promising gains, concern has not waned over how to best address the challenges this diverse student population continues to face in accessing, persisting, and matriculating across the P-20 Pipeline. There is still work to be done, as only 11% of all bachelor's degrees, 9% of all master's degrees, and 7% of all doctoral degrees were awarded to Latinxs in 2013-14. In particular, there is increasing urgency to address how higher education institutions can better prepare, develop, and retain Latinx leaders and scholars, who will serve and meet the needs of Latinx college students to ensure their academic success. Thus, the purpose of this book is to advance the knowledge related to serving Latino communities and preparing Latinx leaders.

In Rivermouth, Oliva focuses on the physical spaces that make up different phases of immigration, looking at how language and opportunity move through each of them: from the river as the waterway that separates the US and Mexico, to the table as the place over which Oliva prepares asylum seekers for their Credible Fear Interviews, and finally, to the wall as the behemoth imposition that runs along America's southernmost border. With lush prose and perceptive insight, Oliva encourages readers to approach the painful questions that this crisis poses with equal parts critique and compassion. By which metrics are we measuring who "deserves" American citizenship? What is the point of humanitarian systems that distribute aid conditionally? What do we owe to our most disenfranchised? As investigative and analytical as she is meditative and introspective, sharp as she is lyrical, and incisive as she is compassionate, seasoned interpreter Alejandra Oliva argues for a better world while guiding us through the suffering that makes the fight necessary and the joy that makes it worth fighting for.

**potluck in spanish language: A Heart for the Community** John Fuder, Noel Castellanos, 2013-08-28 Our nation used to look at violence, poverty, and gentrification and assign those problems to urban centers. In A Heart for the Community: New Models for Urban and Suburban Ministry, you will be challenged by a collection of voices seeking community renewal. The voices within these pages write from experience and offer workable, vibrant models of ministry that make a difference.
