potomac family practice sterling virginia: The Lees of Virginia: Seven Generations of an American Family Paul C. Nagel, 1990-08-16 In The Lees of Virginia, Paul Nagel chronicles seven generations of Lees, from the family founder Richard to General Robert E. Lee, covering over two hundred years of American history. We meet Thomas Lee, who dreamed of America as a continental

empire. His daughter was Hannah Lee Corbin, a non-conformist in lifestyle and religion, while his son, Richard Henry Lee, was a tempestuous figure who wore black silk over a disfigured hand when he made the motion in Congress for Independence. Another of Thomas' sons, Arthur Lee, created a political storm by his accusations against Benjamin Franklin. Arthur's cousin was Light-Horse Harry Lee, a controversial cavalry officer in the Revolutionary War, whose wild real estate speculation led to imprisonment for debt and finally self-exile in the Caribbean. One of Harry's sons, Henry Lee, further disgraced the family by seducing his sister-in-law and frittering away Stratford, the Lees' ancestral home. Another son, however, became the family's redeeming figure--Robert E. Lee, a brilliant tactician who is still revered for his lofty character and military success. In these and numerous other portraits, Nagel discloses how, from 1640 to 1870, a family spirit united the Lees, making them a force in Virginian and American affairs. Paul Nagel is a leading chronicler of families prominent in our history. His *Descent from Glory*, a masterful narrative account of four generations of Adamses, was hailed by *The New Yorker* as intelligent, tactful, and spiritually generous, and Pulitzer Prize-winning historian W.A. Swanberg, in the *Chicago Sun-Times*, called it a magnificent embarrassment of biographical riches. Now, in *The Lees of Virginia*, Nagel brings his skills to bear on another major American family, taking readers inside the great estates of the Old Dominion and the turbulent lives of the Lee men and women.

potomac family practice sterling virginia: The Huguenot-Anglican Refuge in Virginia , Lonnie H. Lee, 2023-06-21 The Huguenot-Anglican Refuge in Virginia is the history of a Huguenot emigrant community established in eight counties along the Rappahannock River of Virginia in 1687, with the arrival of an Anglican-ordained Huguenot minister from Cozes, France named John Bertrand. This Huguenot community, effectively hidden to researchers for more than 300 years, comes to life through the examination of county court records cross-referenced with French Protestant records in England and France. The 261 households and fifty-three indentured servants documented in this study, including a significant group from Bertrand's hometown of Cozes, comprise a large Huguenot migration to English America and the only one to fully embrace Anglicanism from its inception. In July 1687 a French exile named Durand de Dauphiné published a tract at The Hague outlining the pattern and geography of this migration. The tract included a short list of inducements Virginia officials were offering to attract Huguenot settlers to Rappahannock County. These included access to French preaching by a Huguenot minister who would also serve an established Anglican parish, and the availability of inexpensive land. John Bertrand was the first of five French exile ministers performing this dual track ministry in the Rappahannock region between 1687 and 1767.
