post baccalaureate teacher certification online: The Mathematics Teacher Education Partnership W. Gary Martin, Brian R. Lawler, Alyson E. Lischka, Wendy M. Smith, 2020-01-01 This book provides an overview of a body of work conducted over the past seven years related to the preparation of secondary mathematics teachers by the Mathematics Teacher Education Partnership (MTE-Partnership), a national consortium of more than 90 universities and 100 school systems. The MTE-Partnership is organized as a Networked Improvement Community (NIC), which combines the disciplined inquiry of improvement science with the power of networking to accelerate improvement by engaging a broad set of participants. The MTE-Partnership is addressing key challenges in secondary mathematics teacher preparation, including: • Supporting the development of content knowledge relevant to teaching secondary mathematics; • Providing effective clinical experiences to teacher candidates; • Recruiting secondary mathematics teacher candidates, ensuring program completion and their subsequent retention in the field as early career teachers; • Supporting overall transformation of secondary mathematics teacher preparation in alignment with these challenges; • Ensuring a focus on equity and social justice in secondary mathematics teacher recruitment, preparation, and induction. post baccalaureate teacher certification online: *Dancing Mind, Minding Dance* Doug Risner, Jennifer McNamara, 2023-06-05 *Dancing Mind, Minding Dance* encompasses a collection of pivotal texts published by scholar and researcher Doug Risner, whose work over the past three decades has emphasized the significance of social relevance and personal resonance in dance education. Drawing upon Risner's breakthrough research and visionary scholarship, the book contextualizes critical issues of dance making in the rehearsal process, dance curriculum and pedagogy in 21st-century postsecondary dance education, the role of dance teaching artists in schools and community environments, and dance, gender, and sexual identity, especially the feminization of dance and the

marginalization of males who dance. This book concludes with Risner's prophetic vision for employing reflective practice in order to address social justice and inclusion and humanizing pedagogies in dance and dance education throughout all sectors of dance training and preparation. Beginning with his first book, *Stigma and Perseverance in the Lives of Boys Who Dance* (2009), Risner has distinguished himself as the leading education researcher, scholar, and practitioner to improve young dancers' education and training and in humanistic ways. The book will appeal to dance educators and teachers, dance education scholars and researchers, choreographers, parents and care-givers of dance students, and those who work as teaching artists, arts administrators, private sector dance studio directors and teachers, as well as arts education researchers and scholars broadly. post baccalaureate teacher certification online: *Community College Teacher Preparation for Diverse Geographies* Mark M. D'Amico, Chance W. Lewis, 2019-07-01 Community colleges serve as the open door to higher education for marginalized, place bound, and/or financially challenged students and communities. One of the key ways marginalization occurs in diverse geographies is through access limitations: access to affordable postsecondary education, access to curricula that lead to viable professions, access to diverse educational role models, and access to employment opportunities that can sustain communities. This underscores the importance of understanding "place" when addressing access and equity in higher education and the role of community colleges. The discussion of access and equity through the community college has implications for teacher education. Considering the documented importance of having a diverse teacher workforce in K-12 schools and the current mismatch between the diversity of students and the teachers in their schools, community colleges have a significant role to play. This book explores many topics related to the community college role in K-12 teacher education, including the community college mission, the policy landscape, partnerships, the transfer function, the community college baccalaureate, and others. Throughout the volume, the authors explore implications of access, equity, and geography and conclude with recommendations to guide future research and practice.
