tampa bay tv guide: Reality Chick Lauren Barnholdt, 2008-06-17 All-hour study fests ...all-night parties ...Going away to college means total independence and freedom. Unless of course your freshman year is taped and televised for all the world to watch. On uncensored cable. Sweet and normal Ally Cavanaugh is one of five freshpeople shacking up on In the House, a reality show filmed on her college campus. (As if school isn't panic-inducing enough!) The cameras stalk her like paparazzi, but they also capture the fun that is new friends, old crushes, and learning to live on your own. Sure, the camera adds ten pounds, but with the freshman fifteen a given anyway, who cares? Ally's got bigger issues -- like how her long-distance bf can watch her loopy late-night episode with a certain housemate...Freshman year on film. It's outrageous. It's juicy. And like all good reality TV, it's impossible to turn off.

tampa bay tv guide: Media Spectacle Douglas Kellner, 2003-08-29 During the mid-1990s, the O.J. Simpson murder trial dominated the media in the United States and were circulated throughout the world via global communications networks. The case became a spectacle of race, gender, class and violence, bringing in elements of domestic melodrama, crime drama and legal drama. According to this fascinating new book, the Simpson case was just one example of what the author calls 'media spectacle' - a form of media culture that puts contemporary dreams, nightmares, fantasies and values on display. Through the analysis of several such media spectacles - including Elvis, The X Files, Michael Jordan, and the Bill Clinton sex scandals - Doug Kellner draws out important insights into media, journalism, the public sphere and politics in an era of new technologies. In this excellent follow up to his best selling Media Culture, Kellner's fascinating new volume delivers an informative read for students of sociology, culture and media.

tampa bay tv guide: Race-Baiter Eric Deggans, 2012-10-30 Gone is the era of Edward R. Murrow and Walter Cronkite, when news programs fought to gain the trust and respect of a wide spectrum of American viewers. Today, the fastest-growing news programs and media platforms are fighting hard for increasingly narrow segments of the public and playing on old prejudices and deep-rooted fears, coloring the conversation in the blogosphere and the cable news chatter to distract from the true issues at stake. Using the same tactics once used to mobilize political parties and committed voters, they send their fans coded messages and demonize opposing groups, in the process securing valuable audience share and website traffic. Race-baiter is a term born out of this tumultuous climate, coined by the conservative media to describe a person who uses racial tensions to arouse the passion and ire of a particular demographic. Even as the election of the first black president forces us all to reevaluate how we think about race, gender, culture, and class lines, some areas of modern media are working hard to push the same old buttons of conflict and division for new purposes. In Race-Baiter, veteran journalist and media critic Eric Deggans dissects the powerful ways modern media feeds fears, prejudices, and hate, while also tracing the history of the word and its consequences, intended or otherwise.

tampa bay tv guide: Cue the Sun! Emily Nussbaum, 2024-06-25 The rollicking saga of reality television, a "sweeping" (The Washington Post) cultural history of America's most influential, most divisive artistic phenomenon, from the Pulitzer Prize-winning New Yorker writer—"a must-read for anyone interested in television or popular culture" (NPR) "Passionate, exquisitely told . . . With muscular prose and an exacting eye for detail . . . [Nussbaum] knits her talents for sharp analysis and telling reportage well."—The New York Times (Editors' Choice) In development as a docuseries from the studio behind Spencer and Spotlight ONE OF THE CHICAGO TRIBUNE AND THE CHICAGO PUBLIC LIBRARY'S TEN BEST BOOKS OF THE YEAR A BEST BOOK OF THE YEAR: The New York Times Book Review, NPR, The New Yorker, Vanity Fair, The Boston Globe FINALIST FOR THE ANDREW CARNEGIE MEDAL FOR EXCELLENCE IN NONFICTION Who invented reality television, the world's most dangerous pop-culture genre? And why can't we look away? In this revelatory, deeply reported account of the rise of "dirty documentary"—from its contentious roots in radio to the ascent of Donald Trump—Emily Nussbaum unearths the origin story of the genre that ate the world, as told through the lively voices of the people who built it. At once gimlet-eyed and empathetic, Cue the Sun! explores the morally charged, funny, and sometimes tragic consequences of the hunt for something real inside something fake. In sharp, absorbing prose, Nussbaum traces the jagged fuses of experimentation that exploded with Survivor at the turn of the millennium. She introduces the genre's trickster pioneers, from the icy Allen Funt to the shambolic Chuck Barris; Cops auteur John Langley; cynical Bachelor ringmaster Mike Fleiss; and Jon Murray and Mary-Ellis

Bunim, the visionaries behind The Real World—along with dozens of stars from An American Family, The Real World, Big Brother, Survivor, and The Bachelor. We learn about the tools of the trade—like the Frankenbite, a deceptive editor's best friend—and ugly tales of exploitation. But Cue the Sun! also celebrates reality's peculiar power: a jolt of emotion that could never have come from a script. What happened to the first reality stars, the Louds—and why won't they speak to the couple who filmed them? Which serial killer won on The Dating Game? Nussbaum explores reality TV as a strike-breaker, the queer roots of Bravo, the dark truth behind The Apprentice, and more. A shrewd observer who adores television, Nussbaum is the ideal voice for the first substantive history of the genre that, for better or worse, made America what it is today.
