In *Scriptlessness*, Benjamin Antwi-Boasiako looks at how our upbringing and the habits we learn as children affect how we deal with life changes. He explains that these old habits can make it hard to thrive when we move into a different social class. Using engaging stories, Antwi-Boasiako compares moving up in social class (class migration) to moving to a new country (geographic migration) and shows the difficulties when the excitement dies, worsened by the lack of scripts to guide you. This book gives readers a new way to think about getting too much too soon and questions the usual zero-to-hero narrative.
