target team member handbook 2023: Breaking the Gender Code Georgina Hickey, 2023-12-12 Historian Georgina Hickey investigates challenges to the code of urban gender segregation in the 20th century, focusing on organized advocacy to make the public spaces of American cities accessible to women. She traces waves of activism from the Progressive Era, with its

calls for public restrooms, rooming houses, anti-spitting ordinances, covered bus stops, employment bureaus, lunch rooms, and women police, through and beyond second-wave feminism, and its focus on the creation of alternative, women-only spaces. In doing so, Hickey looks at how class, race, and sexuality shaped activists' agendas and shaped women's experiences of urban space and the gains and limitations of this activism. She uses a wide range of archival material, from press coverage to neighborhood association records to etiquette manuals, and studies a variety of cities, from Minneapolis to Atlanta. Throughout, she draws connections between the vulnerability of women in public spaces, real and presumed, and contemporary debates surrounding rape culture, bathroom bills, and domestic violence. Ultimately, Hickey unveils the institutionalized hierarchies that have made women feel uncomfortable in American cities and the both strikingly successful and incomplete initiatives activists undertook to open up public space to women. The manuscript is organized into eight chapters that move chronologically through the twentieth century, with an epilogue that reflects on how these issues manifest in the present--

target team member handbook 2023: In Defense of the Second Amendment Larry Correia, 2023-01-24 What Part of the Second Amendment Don't You Understand? That's the question posed by award-winning, New York Times bestselling author, and professional firearms instructor, Larry Correia. Bringing with him the practical experience that comes from having owned a high-end gun store—catering largely to law enforcement—and as a competitive shooter and self-defense trainer, Correia blasts apart the emotion-laden, logic-free rhetoric of the gun control fanatics who turn every “mass shooting” into a crazed call for violating your rights, abusing the Constitution—and doing absolutely nothing to really fight crime. In his essential new book, In Defense of the Second Amendment, Correia reveals: Why “gun-free” zones are more dangerous for law-abiding citizens How the Second Amendment does indeed include your right to own an AR-15—and why that's not an “outdated” concept Why “red flag” laws don't work, can be easily abused, and ignore a much more commonsensical approach to keeping guns out of the wrong hands The insanity of “criminal justice reform” that frees dangerous criminals and “gun reform” that penalizes your right to self-defense How we can return to a society that has a safe and healthy relationship with guns—as we had for most of our history Correia's promise: “Believe me, I've heard

every argument relating to gun control possible. I can show you how to defend your rights.” Urgent, informed, with vitally important information for whoever who owns a gun—or is thinking about owning a gun—or who cares about the preservation of our constitutional rights, *In Defense of the Second Amendment* is a landmark book of enduring importance.
