

target video interview reddit

target video interview reddit has become a popular search query for job seekers looking to prepare for video interviews, especially those conducted by Target Corporation and similar retail giants. This article delves into insights and experiences shared on Reddit about Target's video interview process, offering valuable advice on how to excel. From understanding the format and common questions to tips on technical setup and presentation, the information provided here aims to boost confidence and performance. Additionally, this guide explores Reddit's role as a community-driven platform where candidates exchange practical strategies and firsthand feedback. Whether preparing for a first-round video interview or seeking post-interview reflections, this comprehensive article covers essential aspects of the target video interview reddit topic. The following sections outline the key points and detailed guidance to navigate this increasingly common hiring step.

- Understanding Target's Video Interview Format
- Common Questions in Target Video Interviews
- Technical Preparation and Best Practices
- Insights and Experiences from Reddit Users
- Strategies for Success and Follow-Up

Understanding Target's Video Interview Format

Target's video interview is often the initial step in their hiring process for various positions, including seasonal roles and corporate jobs. This format typically involves a pre-recorded or live video session where candidates respond to predefined questions. The purpose is to assess communication skills, cultural fit, and problem-solving abilities before inviting applicants for in-person interviews or further evaluation. Understanding the structure of Target's video interview is crucial for effective preparation.

Pre-Recorded vs. Live Interviews

Most candidates encounter pre-recorded video interviews, where they record responses to a set number of questions within a limited time frame. This asynchronous format allows Target's recruiters to review answers at their convenience. In contrast, some positions may require live video interviews

conducted via platforms like Zoom or Microsoft Teams, enabling real-time interaction with interviewers.

Duration and Question Format

Typically, Target's video interviews last between 15 to 30 minutes, depending on the number of questions and response length requirements. Questions are often behavioral and situational, designed to evaluate how candidates handle workplace scenarios. Each question usually has a preparation time of 30 seconds to 1 minute, followed by 1 to 2 minutes to record an answer.

Common Questions in Target Video Interviews

Reddit users frequently share the types of questions asked during Target's video interviews, providing a valuable resource for prospective candidates. These questions often target core competencies such as teamwork, customer service, adaptability, and problem-solving. Familiarity with common questions can significantly improve response quality and confidence.

Behavioral Questions

Behavioral questions are predominant in Target's video interview, focusing on past experiences to predict future performance. Examples include:

- Describe a time when you provided excellent customer service.
- How do you handle difficult situations with coworkers or customers?
- Give an example of a time you worked effectively in a team.

Situational and Hypothetical Questions

Situational questions assess candidates' problem-solving and decision-making skills in hypothetical workplace scenarios. Common questions include:

- What would you do if a customer was upset about a product?
- How would you prioritize tasks during a busy shift?
- Describe how you would handle a conflict with a supervisor.

Technical Preparation and Best Practices

Successful performance in a target video interview reddit thread emphasizes the importance of thorough technical preparation. Ensuring a smooth, professional interview experience requires attention to equipment, environment, and presentation.

Equipment and Environment Setup

Reliable hardware and a quiet, well-lit setting are essential. Candidates should use a functioning webcam and microphone, test their internet connection, and select a background that is free from distractions. Proper lighting improves video quality and creates a professional impression.

Appearance and Body Language

Maintaining a professional appearance aligned with Target's corporate culture is beneficial. Dressing in business casual attire and displaying confident body language can positively influence interviewer perception. Candidates should maintain eye contact by looking at the camera and use natural gestures to enhance communication.

Practice and Timing

Practicing answers aloud and timing responses according to the interview platform's limits helps manage pacing. Recording mock interviews or rehearsing with a friend can reduce anxiety and improve fluency. Being concise yet thorough in responses ensures clarity and engagement.

Insights and Experiences from Reddit Users

Reddit serves as a rich repository of firsthand accounts and advice for candidates preparing for Target's video interview. Users share detailed experiences, highlighting successful strategies and common pitfalls to avoid.

Common Themes and Tips

Many Reddit posts emphasize the importance of preparation and calmness. Key tips include:

- Reading each question carefully before answering to ensure relevance.
- Avoiding scripted responses to maintain authenticity.

- Using the STAR method (Situation, Task, Action, Result) to structure answers.
- Keeping answers focused on Target's values, such as inclusivity and customer satisfaction.
- Double-checking technical setup immediately before starting the interview.

Challenges Reported by Candidates

Some users report challenges like time constraints to prepare answers, nervousness affecting delivery, and occasional technical glitches. Recognizing these common issues allows candidates to anticipate and mitigate them effectively.

Strategies for Success and Follow-Up

Implementing targeted strategies can enhance performance in the video interview and improve chances of advancing. Additionally, appropriate follow-up actions reinforce professionalism and interest in the position.

Effective Response Techniques

Crafting responses that highlight relevant skills and experiences tailored to Target's job description is critical. Candidates should demonstrate problem-solving capabilities, teamwork, and adaptability. Using specific examples rather than vague statements strengthens credibility.

Post-Interview Actions

While video interviews may not always allow immediate interaction, sending a thank-you message if possible or preparing for subsequent interview stages is advisable. Reflecting on the interview experience and noting areas for improvement contributes to ongoing development.

Leveraging Reddit and Other Resources

Continuing to monitor forums like Reddit for updates and new candidate feedback helps stay informed about evolving interview formats and expectations. Combining this with official company information and professional advice creates a well-rounded preparation approach.

Frequently Asked Questions

What types of questions are commonly asked in a Target video interview?

Target video interviews typically include behavioral questions based on the STAR method, situational questions related to customer service, and some role-specific queries depending on the position you applied for.

How should I prepare for a Target video interview found on Reddit experiences?

Based on Reddit experiences, you should research Target's company values, practice answering common behavioral questions, ensure a quiet and well-lit environment, and test your technology before the interview.

Are Target video interviews recorded or live according to Reddit users?

Most Reddit users report that Target video interviews are pre-recorded, meaning you record your answers to preset questions within a given timeframe rather than interacting live with an interviewer.

What is the typical length of a Target video interview as shared on Reddit?

According to Reddit discussions, a Target video interview usually lasts about 15 to 30 minutes, with several questions requiring concise yet thoughtful answers.

Do Reddit users mention technical issues during Target video interviews?

Yes, some Reddit users have mentioned facing technical issues such as video freezing or audio problems during their Target video interviews, so it's advised to check your internet connection and equipment beforehand.

Can I retake the Target video interview if I make a mistake, according to Reddit threads?

Most Reddit users indicate that once you submit your answers in a Target video interview, you cannot retake or redo the responses, so it's important to be prepared and answer carefully the first time.

Additional Resources

1. *Mastering Target Video Interviews: The Ultimate Guide*

This book offers a comprehensive walkthrough of Target's video interview process, providing candidates with strategies to prepare effectively. It includes sample questions, tips for presenting oneself confidently on camera, and insights into what Target recruiters are looking for. Readers will find practical advice on technical setup and how to handle common interview challenges.

2. *Cracking the Code: Target Video Interview Secrets from Reddit*

Drawing from real Reddit user experiences, this book compiles insider tips and firsthand accounts of Target's video interviews. It highlights common themes and questions shared by candidates, helping readers anticipate and prepare for their own interviews. The book also discusses how to interpret feedback and improve for follow-up rounds.

3. *Video Interview Success: Navigating Retail Giant Target's Hiring Process*

Focused on the retail industry, this book guides job seekers through Target's unique video interview steps. It explains the company culture and values, aligning interview answers to resonate with Target's expectations. Readers will learn how to showcase relevant skills and personality traits during a video interview.

4. *From Reddit to Real Life: Preparing for Target's Video Interview*

This book bridges online advice with practical preparation techniques, synthesizing Reddit discussions and expert recommendations. It provides a checklist for interview readiness, including technical, mental, and physical preparation. The author also shares motivational stories from successful candidates.

target video interview reddit: *Media Interview Techniques* Robert Taylor, 2015-11-03 Never has media training been more relevant, or in-demand. Confidently deliver a key message, even in crisis conditions, and represent yourself or your organization using this unique collection of models and techniques. Featuring insightful anecdotes of interviews from the likes of George W. Bush, HRH Prince Philip, and more, this is a must-read for any PR executive, press officer or communications professional. Any individual preparing for an interview with the media, however practised or well-rehearsed they are, worries about failing to convey the essential points, or encountering that awkward question in the glare of public scrutiny. As media channels multiply by the day, offering ever more opportunities for exposure, so they also present a growing probability of finding oneself in front of the camera, webcam, or microphone in a make-or-break encounter where every word, gesture or expression counts. *Media Interview Techniques* is the authoritative guide to giving successful media interviews, combining the author's own unique models and techniques with a survey of published research and influential opinion, to help the reader prepare for any occasion when called upon to represent an organization publicly. Supported throughout with insightful anecdotes and transcripts of good and bad interviews given by George W. Bush, HRH Prince Philip, David Cameron and numerous public figures, this book presents a methodology which has been proven across the spectrum of industry sectors both nationally and internationally. Written for those who speak on behalf of commercial companies, public services, charities, NGOs, or as a subject expert (or for those briefing clients prior to interviews), no communications professional can afford to be without a copy. The book is also supported by online resources, including web links to relevant media interviews for each chapter and high-profile news stories.

target video interview reddit: Reboot Hiring Katrina Collier, 2024-10-07 An incisive, practical guide giving managers and leaders the principles to elevate hiring processes—a fix within their control, today. Even today, managers and leaders can be unaware that their actions impact current and future hiring because people post openly about their experiences online. Boggled down in the day-to-day, recruiting loses priority due to time, team and project pressures. Though it should

help, AI won't solve the collaboration and communication issues creating clunky, expensive, and wasteful talent acquisition processes. In *Reboot Hiring: The Key To Managers and Leaders Saving Time, Money and Hassle When Recruiting*, author Katrina Collier gives managers and leaders the knowledge to reset their thinking and reboot their hiring. You'll also hear tips from 60 expert recruiters and find: Forward-looking prompts to help describe the hiring need Steps for a time and energy-saving recruitment experience Critical considerations for assessments and interviews Tips for online profiles that modern applicants expect to see. An easy checklist and inspiration to encourage readers to reboot their hiring. In the distraction and transparency created by over 5 billion internet users, managers and leaders must know who they need to hire and partner effectively with talent acquisition to succeed. *Reboot Hiring* gives you the missing pieces of the puzzle and is invaluable to all managers and leaders wanting to save time, money and hassle when recruiting.

target video interview reddit: We Are the Nerds Christine Lagorio-Chafkin, 2018-10-02 Named a Best Book of 2018 by Fast Company, this is a sharply written and brilliantly reported (Shelf Awareness) look inside Reddit, the wildly popular, often misunderstood website that has changed the culture of the Internet. Reddit hails itself as the front page of the Internet. It's the third most-visited website in the United States -- and yet, millions of Americans have no idea what it is. *We Are the Nerds* is an engrossing look deep inside this captivating, maddening enterprise, whose army of obsessed users have been credited with everything from solving cold case crimes and spurring tens of millions of dollars in charitable donations to seeding alt-right fury and landing Donald Trump in the White House. *We Are the Nerds* is a gripping start-up narrative: the story of how Reddit's founders, Steve Huffman and Alexis Ohanian, rose up from their suburban childhoods to become millionaires and create an icon of the digital age -- before seeing the site engulfed in controversies and nearly losing control of it for good. Based on Christine Lagorio-Chafkin's exclusive access to founders Ohanian and Huffman, *We Are the Nerds* is also a compelling exploration of the way we all communicate today -- and how we got here. Reddit and its users have become a mirror of the Internet: it has dingy corners, shiny memes, malicious trolls, and a sometimes heart-melting ability to connect people across cultures, oceans, and ideological divides.

target video interview reddit: Target New Pattern CLAT 2022: 10 Mock Tests & 2 Solved Papers (2020 & 2021) Disha Experts, 2021-12-30 TARGET CLAT 2022 contains 10 Quality Mock Tests designed especially on the new Passage based Pattern of the CLAT exam. target video interview reddit: TARGET MH-CET (MBA / MMS) 2021 - Solved Papers (2007 - 2020) + 5 Mock Tests 12th Edition Disha Experts,

target video interview reddit: Eugene Jarvis Matthew Thomas Payne, 2025-01-09 This book explores the influential work of Eugene Jarvis, designer of the wildly-successful arcade games *Defender*, *Robotron: 2084*, *NARC*, *Smash TV*, and *Cruis'n USA*, among others. Embracing a variety of genres across decades, the video games of Eugene Jarvis offer a series of design lessons in how to craft coin-operated game machines that can survive and thrive even as the arcade was disappearing from the American landscape. In particular, his titles demonstrate the enduring appeal of gameplay challenges, taboo content, and possessing a larger-than-life form factor and accessible gameplay. Drawing upon multiple interviews with Jarvis and his collaborators, as well as scholarly reflections on game design, historic industry data, and archival documents, this book makes the case that Jarvis is the unparalleled "King of the Arcade" for his ability to craft gameplay experiences that cannot be replicated on home consoles or personal computers.

target video interview reddit: Digital Witness Sam Dubberley, Alexa Koenig, Daragh Murray, 2020 This book covers the developing field of open source research and discusses how to use social media, satellite imagery, big data analytics, and user-generated content to strengthen human rights research and investigations. The topics are presented in an accessible format through

extensive use of images and data visualization.

target video interview reddit: The DevOps Handbook Gene Kim, Jez Humble, Patrick Debois, John Willis, 2016-10-06 Increase profitability, elevate work culture, and exceed productivity goals through DevOps practices. More than ever, the effective management of technology is critical for business competitiveness. For decades, technology leaders have struggled to balance agility, reliability, and security. The consequences of failure have never been greater—whether it's the healthcare.gov debacle, cardholder data breaches, or missing the boat with Big Data in the cloud. And yet, high performers using DevOps principles, such as Google, Amazon, Facebook, Etsy, and Netflix, are routinely and reliably deploying code into production hundreds, or even thousands, of times per day. Following in the footsteps of The Phoenix Project, The DevOps Handbook shows leaders how to replicate these incredible outcomes, by showing how to integrate Product Management, Development, QA, IT Operations, and Information Security to elevate your company and win in the marketplace.

target video interview reddit: Machine Learning Interviews Susan Shu Chang, 2023-11-29 As tech products become more prevalent today, the demand for machine learning professionals continues to grow. But the responsibilities and skill sets required of ML professionals still vary drastically from company to company, making the interview process difficult to predict. In this guide, data science leader Susan Shu Chang shows you how to tackle the ML hiring process. Having served as principal data scientist in several companies, Chang has considerable experience as both ML interviewer and interviewee. She'll take you through the highly selective recruitment process by sharing hard-won lessons she learned along the way. You'll quickly understand how to successfully navigate your way through typical ML interviews. This guide shows you how to: Explore various machine learning roles, including ML engineer, applied scientist, data scientist, and other positions Assess your interests and skills before deciding which ML role(s) to pursue Evaluate your current skills and close any gaps that may prevent you from succeeding in the interview process Acquire the skill set necessary for each machine learning role Ace ML interview topics, including coding assessments, statistics and machine learning theory, and behavioral questions Prepare for interviews in statistics and machine learning theory by studying common interview questions

target video interview reddit: The Revolution That Wasn't Spencer Jakab, 2022-02-01 The saga of GameStop and other meme stocks is revealed with the skill of a thrilling whodunit. Jakab writes with an anti-Midas touch. If he touched gold, he would bring it to life. --Burton G. Malkiel, author of A Random Walk Down Wall Street From Wall Street Journal columnist Spencer Jakab, the real story of the GameStop squeeze—and the surprising winners of a rigged game. During one crazy week in January 2021, a motley crew of retail traders on Reddit's r/wallstreetbets forum had seemingly done the impossible—they had brought some of the biggest, richest players on Wall Street to their knees. Their weapon was GameStop, a failing retailer whose shares briefly became the most-traded security on the planet and the subject of intense media coverage. The Revolution That Wasn't is the riveting story of how the meme stock squeeze unfolded, and of the real architects (and winners) of the GameStop rally. Drawing on his years as a stock analyst at a major bank, Jakab exposes technological and financial innovations such as Robinhood's habit-forming smartphone app as ploys to get our dollars within the larger story of evolving social and economic pressures. The surprising truth? What appeared to be a watershed moment—a revolution that stripped the ultra-powerful hedge funds of their market influence, placing power back in the hands of everyday investors—only tilted the odds further in the house's favor. Online brokerages love to talk about empowerment and “democratizing finance” while profiting from the mistakes and volatility created by novice investors. In this nuanced analysis, Jakab shines a light on the often-misunderstood profit motives and financial mechanisms to show how this so-called revolution is, on balance, a bonanza for Wall Street. But, Jakab argues, there really is a way for ordinary investors to beat the pros: by refusing to play their game.

target video interview reddit: Photography Censorship Mia Collins, AI, 2025-02-26 Photography Censorship explores the multifaceted issue of image control and its impact on visual

culture, freedom of expression, and historical accuracy. It examines why certain photographs are suppressed, altered, or restricted, highlighting the underlying motivations that range from overt political suppression to subtle ideological control. The book reveals how controlling images equates to controlling narratives and shaping public opinion. The book delves into the methods of photographic censorship, including destruction, manipulation, and restricted access, while also exploring the evolution of censorship alongside technological advancements and political shifts. Case studies, ranging from Soviet-era image manipulation to contemporary digital manipulation and algorithmic filtering, illustrate how image control undermines democratic principles. The book uniquely combines historical analysis with contemporary examples, focusing on both state-sponsored and non-state actors engaged in photography censorship. The book begins by introducing the core concepts of photography and censorship, then progresses through historical precedents, contemporary methods, and the impact on historical narratives and individual rights. It concludes with strategies for combating censorship and promoting transparency. By understanding these mechanisms, individuals can become more critical consumers of visual information.

target video interview reddit: Reception Studies and Audiovisual Translation Elena Di Giovanni, Yves Gambier, 2018-06-15 The coming of age of audiovisual translation studies has brought about a much-needed surge of studies focusing on the audience, their comprehension, appreciation or rejection of what reaches them through the medium of translation. Although complex to perform, studies on the reception of translated audiovisual texts offer a uniquely thorough picture of the life and afterlife of these texts. This volume provides a detailed and comprehensive overview of reception studies related to audiovisual translation and accessibility, from a diachronic and synchronic perspective. Focusing on all audiovisual translation techniques and encompassing theoretical and methodological approaches from translation, media and film studies, it aims to become a reference for students and scholars across these fields.

target video interview reddit: MUBI and the Curation Model of Video on Demand Mattias Frey, 2021-08-12 Subscription video on demand (SVOD) represents the fastest-growing means to consume films and series. Although market leaders Netflix and Amazon Prime have received much scholarly attention for the way that they use algorithms and big data to connect users to content, there is another significant, relatively unexamined model: curation-style services such as BFI Player, IFC Unlimited, the Criterion Channel or MUBI — the latter, which forms the focus of this book, claims to be the world's most subscribed independent video on demand service. These platforms take advantage of common anxieties about algorithms, cultural surplus and filter bubbles to promote discovery, human-generated recommendations and quality over quantity of content. Deploying an original, holistic methodology that includes analysis of technological affordances, marketing rhetoric, business models, interviews with company executives and a qualiquantitative audience study, this book critically analyses MUBI as a way to understand this particular mode of content aggregation, cultural recommendation, choice architecture and community building. Curation services address a real, but decidedly circumscribed gap in the market. Ultimately, MUBI offers film, media and business scholars an instructive example of the fate of art cinema and media diversity in a digital culture increasingly dominated by a few giant tech companies.

target video interview reddit: Federalism in Myanmar Pau Sian Lian, 2023-05-08 The central purpose of this book is to examine answers to questions regarding the kind of political system that Myanmar urgently needs to develop. Myanmar has suffered the endless civil war for decades since regaining its sovereignty in 1948. Therefore, the lead research question is: What kind of federal democratic model is the most suitable for Myanmar and what kind of political arrangements should be in place? To examine answers for this question, the author employed a descriptive-qualitative approach and triangulation research method including interviews with politicians and activists in Myanmar, field observation and analysis of historical documents. The author examines the contemporary political issues of Myanmar in term of federalism to ensure that analysis of this book does not omit the actual political process performed by the government. As a result of the study, Myanmar needs a tailored federal model which is the best to accommodate the

ethnically divided country that would enhance solutions to ethnic conflicts and end the civil war.

target video interview reddit: Start a Niche Business with Explosive Demand: How to Find and Fill Market Gaps Simon Schroth, 2025-04-05 Starting a niche business is one of the smartest ways to avoid competition and quickly generate profits. Start a Niche Business with Explosive Demand shows you how to identify under-served markets and create a business that fills those gaps. This book provides a step-by-step guide to researching niches, understanding customer needs, and building a business model that meets those demands. You'll learn how to find profitable niches by conducting market research, spotting emerging trends, and analyzing customer pain points. The book also covers how to create compelling offers that stand out in your niche and how to scale quickly by positioning yourself as the go-to provider in your space. If you want to build a business in a niche with explosive demand and little competition, this book provides the tools and strategies to do just that.

target video interview reddit: Meme Wars Joan Donovan, Emily Dreyfuss, Brian Friedberg, 2022-09-20 A groundbreaking investigation into the digital underworld, where far-right operatives wage wars against mainstream America, from a masterful trio of experts in media and tech. Memes have long been dismissed as inside jokes with no political importance. Nothing could be further from the truth. Memes are bedrock to the strategy of conspiracists such as Alex Jones, provocateurs like Milo Yiannopoulos, white nationalists like Nick Fuentes, and tacticians like Roger Stone. While the media and most politicians struggle to harness the organizing power of the internet, the "redpill right" weaponizes memes, pushing conspiracy theories and disinformation into the mainstream to drag people down the rabbit hole. These meme wars stir strong emotions, deepen partisanship, and get people off their keyboards and into the streets--and the steps of the US Capitol. Meme Wars is the first major account of how "Stop the Steal" went from online to real life, from the wires to the weeds. Leading media expert Joan Donovan, PhD, veteran tech journalist Emily Dreyfuss, and cultural ethnographer Brian Friedberg pull back the curtain on the digital war rooms in which a vast collection of antiesablistmentarians bond over hatred of liberal government and media. Together as a motley reactionary army, they use memes and social media to seek out new recruits, spread ideologies, and remake America according to their desires. A political thriller with the substance of a rigorous history, Meme Wars is the astonishing story of how extremists are yanking our culture and politics to the right. And it's a warning that if we fail to recognize these powerful undercurrents, the great meme war for the soul of America will soon be won.

target video interview reddit: Like, Comment, Subscribe Mark Bergen, 2022-09-06 The gripping inside story of YouTube, the company that upended media, culture, industry, and democracy—by a leading tech journalist Across the world, people watch more than a billion hours of video on YouTube every day. Every minute, more than five hundred additional hours of footage are uploaded to the site, a technical feat unmatched in the history of computing. YouTube invented the attention economy we all live in today, forever changing how people are entertained, informed, and paid online. Everyone knows YouTube. And yet virtually no one knows how it works. Like, Comment, Subscribe is the first book to reveal the riveting, behind-the-scenes account of YouTube's technology and business, detailing how it helped Google, its parent company, achieve unimaginable power, a narrative told through the people who run YouTube and the famous stars born on its stage. It's the story of a revolution in media and an industry run amok, how a devotion to a simple idea—let everyone broadcast online and make money doing so—unleashed an outrage and addiction machine that spun out of the company's control and forever changed the world. Mark Bergen, a top technology reporter at Bloomberg, might know Google better than any other reporter in Silicon Valley, having broken numerous stories about its successes and scandals. As compelling as the very platform it investigates, Like, Comment, Subscribe is a thrilling, character-driven story of technological and creative ingenuity and the hubris that undermined it.

target video interview reddit: The Publishing Challenge for Independent Video Game Developers Odile Limpach, 2020-02-04 Professor Odile Limpach gives independent developers everything they need to succeed in the world of video game publishing. The Publishing Challenge for

Independent Video Game Developers: A Practical Guide defines what game publishing means for the indie developer and offers a concise framework to tackle the decision of whether to self-publish or not. Furthermore, the text establishes a catalogue of current known publishers with some salient characteristics and offers a list of useful publishing tools. Odile Limpach is also involved as a volunteer in the areas of vocational training and acts as a German partner for Games for Change Europe. Furthermore, she acts as an advisor (Conseiller du Commerce Extérieur) for the French Ministry for International Business Development.

target video interview reddit: How To Watch Television Ethan Thompson, Jason Mittell, 2013-09-16 Examines social and cultural phenomena through the lens of different television shows We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it 'good' or 'bad.' Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and its place in a broader social context. How to Watch Television brings together forty original essays from today's leading scholars on television culture, writing about the programs they care (and think) the most about. Each essay focuses on a particular television show, demonstrating one way to read the program and, through it, our media culture. The essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs that are likely to be covered in a media studies course. While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium's earliest days to contemporary online transformations of television, How to Watch Television is designed to engender classroom discussion among television critics of all backgrounds.

target video interview reddit: *Rules of the Father in The Last of Us* J. Jesse Ramirez, 2022-02-15 Widely regarded by critics and fans as one of the best games ever produced for the Sony Playstation, The Last of Us is remarkable for offering players a narratively rich experience within the parameters of cultural and gaming genres that often prioritize frenetic violence by straight white male heroes. The Last of Us is also a milestone among mainstream, big-budget (AAA) games because its development team self-consciously intervened in videogames' historical exclusion of women and girls by creating complex and agentic female characters. The game's co-protagonist, Ellie, is a teenage girl who is revealed to be queer in The Last of Us: Left Behind (DLC, 2014) and The Last of Us II (2020). Yet The Last of Us also centers Joel, Ellie's fatherly protector. How is patriarchy, the rule of the father, encoded in rule-based systems like videogames? How does patriarchal rule become an algorithmic rule and vice-versa? These questions are at the heart of this book, the first comprehensive scholarly analysis of the zombie apocalypse/ action-adventure/ third-person shooter videogame The Last of Us (2013). On the one hand, the book is a close, extended study of The Last of Us and its themes, genres, procedures, and gameplay. On the other hand, the book is a post-GamerGate reflection on the political and ethical possibilities of progressive play in algorithmic

mass culture, of which videogames are now the dominant form.
