tattoos about self confidence: Covered in Ink Beverly Yuen Thompson, 2015-07-24 A small dolphin on the ankle, a black line on the lower back, a flower on the hip, or a child's name on the shoulder blade—among the women who make up the twenty percent of all adults in the USA who have tattoos, these are by far the most popular choices. Tattoos like these are cute, small, and can be easily hidden, and they fit right in with society's preconceived notions about what is 'gender appropriate' for women. But what about women who are heavily tattooed? Or women who visibly wear imagery, like skulls, that can be perceived as masculine or ugly when inked on their skin? Drawing on autoethnography, and extensive interviews with heavily tattooed women, Covered in Ink provides insight into the increasingly visible subculture of women with tattoos. Author Beverly Thompson visits tattoos parlors, talking to female tattoo artists and the women they ink, and she attends tattoo conventions and Miss Tattoo pageants where heavily tattooed women congregate to share their mutual love for the art form. Along the way, she brings to life women's love of ink, their very personal choices of tattoo art, and the meaning tattooing has come to carry in their lives, as

well as their struggles with gender norms, employment discrimination, and family rejection. Thompson finds that, despite the stigma and social opposition heavily tattooed women face, many feel empowered by their tattoos and strongly believe they are creating a space for self-expression that also presents a positive body image. A riveting and unique study, *Covered in Ink* provides important insight into the often unseen world of women and tattooing.

tattoos about self confidence: Prison Tattoos Efrat Shoham, 2015-03-10 This Brief studies the important role that tattoos play in prison culture, and examines its unique manifestation among minority inmates. This work aims to provide a better understanding of prison group culture, particularly among social marginal groups, through the lens of Russian immigrants in Israeli prisons. Russian immigrants currently represent approximately 25% of the total Israeli prison population, and this book examines how tattoos show an important form of rebellion amongst this group. As tattoos are forbidden in some forms of Islam and Judaism, and the Israeli prison service confiscates over 200 homemade tattoo devices per year, this is a significant phenomenon both before and during

incarceration. This work examines how despite the transition to Israel, the main social codes of Russian prisoners are still dominant and help segregate this group from the larger prison population. It provides a lens to understand Russian criminal activity in Israel, and in a larger context, the modes of social cohesion and criminal activity of organized crime groups operating in prison systems. This work will be of interest to researchers studying the organized crime and the criminal justice system, Russian organized crime in particular, as well as related studies of immigration, demography, and social cohesion.

tattoos about self confidence: *Southeast Asian Perspectives on Power* Liana Chua, Joanna Cook, Nicholas Long, Lee Wilson, 2012-05-04 Southeast Asia has undergone innumerable far-reaching changes and dramatic transformations over the last half-century. This book explores the concept of power in relation to these transformations, and examines its various social, cultural, religious, economic and political forms. The book works from the ground up, portraying Southeast Asians' own perspectives, conceptualizations and experiences of power through empirically rich case studies. Exploring concepts of power in diverse settings, from the stratagems of Indonesian politicians and the aspirations of marginal Lao bureaucrats, to mass 'Prayer Power' rallies in the Philippines, self-cultivation practices of Thai Buddhists and relations with the dead in Singapore, the book lays out a new framework for the analysis of power in Southeast Asia in which orientations towards or away from certain models, practices and configurations of power take centre stage in analysis. In doing so the book demonstrates how power cannot be pinned down to a single definition, but is woven into Southeast Asian lives in complex, subtle, and often surprising ways. Integrating theoretical debates with empirical evidence drawn from the contributing authors' own research, this book is of particular interest to scholars and students of Anthropology and Asian Studies.

tattoos about self confidence: *Human Rights Law and Personal Identity* Jill Marshall, 2014-06-20 This book explores the role human rights law plays in the formation, and protection, of our personal identities. Drawing from a range of disciplines, Jill Marshall examines how human rights law includes and excludes specific types of identity, which feed into moral norms of human

freedom and human dignity and their translation into legal rights. The book takes on a three part structure. Part I traces the definition of identity, and follows the evolution of, and protects, a right to personal identity and personality within human rights law. It specifically examines the development of a right to personal identity as property, the inter-subjective nature of identity, and the intercession of power and inequality. Part II evaluates past and contemporary attempts to describe the core of personal identity, including theories concerning the soul, the rational mind, and the growing influence of neuroscience and genetics in explaining what it means to be human. It also explores the inter-relation and conflict between universal principles and culturally specific rights. Part III focuses on issues and case law that can be interpreted as allowing self-determination. Marshall argues that while in an age of individual identity, people are increasingly obliged to live in conformed ways, pushing out identities that do not fit with what is acceptable. Drawing on feminist theory, the book concludes by arguing how human rights law would be better interpreted as a force to enable respect for human dignity and freedom, interpreted as empowerment and self-determination whilst acknowledging our inter-subjective identities. In drawing on socio-legal, philosophical, biological and feminist outlooks, this book is truly interdisciplinary, and will be of great interest and use to scholars and students of human rights law, legal and social theory, gender and cultural studies.
