I dont know where you are in the process; so let me describe the four stages. The first stage involves fully understanding your situation and your motives for wanting to resolve the question that comes from being in that situation. The second stage involves separating yourself from the situation you are in. You cannot resolve a situation if you see yourself as part of it. You have to gain perspective by separating yourself from your situation in as many ways as possible. The third stage involves letting go of something that keeps you attached to, and subject to, the situation you are in. Something is holding you back. Some fear, some projection of implications, some belief about what is possible and what is not possible. Something. As long as you hold onto these things they will hold you back. Fourth, you need to perceive new possibilities for resolving your Big Question. For various reasons, you are not able to see alternative resolutions today. You need to reframe your question in a way that will enable you to apply the substantial resources you have to address each and every part of the question. If you have a Big Question, you are stuck at one of those four stages. At which stage are you stuck? tasted my own medicine: Friends Simone Knox, Kai Hanno Schwind, 2019-09-16 This book offers a long overdue, extensive study of one of the most beloved television shows: Friends. Why has this sitcom become the seminal success that it is? And how does it continue to engage viewers around the world a quarter century after its first broadcast? Featuring original interviews with key creative personnel (including co-creator Marta Kauffman and executive producer Kevin S. Bright), the book provides answers by identifying a strategy of intimacy that informs Friends' use of humour, performance, style and set design. The authors provide fascinating analyses of some of the most well-remembered scenes—the one where Ross can't get his leather pants back on, and Ross and Rachel's break-up, to name just a couple—and reflect on how and why A-list guest performances sometimes fell short of the standards set by the ensemble cast. Also considered are the iconic look of Monica's apartment as well as the programme's much discussed politics of representation and the critical backlash it has received in recent years. An exploration of Joey, the infamous spin-off, and several attempts to adapt Friends' successful formula across the globe, round out the discussion, with insights into mistranslated jokes and much more. For students, scholars, creative industry practitioners and fans alike, this is a compelling read that lets us glimpse behind the scenes of what has become a cultural phenomenon and semi-permanent fixture in many of our homes.

THE FLAME Here lies Louchana Valentine. She was a homeless, orphaned virgin. I never cared what my gravestone would say until I landed in deep with a powerful gangster. Lucky for me, my best friend happens to be ruthless too. I should feel guilty that he's forced to turn on the man who's been a father to him. Except I've always known that Wren's soul wasn't as black as he claimed. He was good. He was beautiful. He was mine. He just didn't know it yet. And with Wren keeping me safe, I've got time left to rewrite the end of my story. But if he has his way, virgin is already carved in stone. THE MOTH I've never known anyone as alluring as Lou. Or as frustrating. Since the night she saved my life and stole my wallet for her troubles, I couldn't stay away. She became my onus. My light. My...anyway. With nowhere to run, I'm forced to trust someone I never expected. At least with Lou safe in Blackwood Keep—far away from me—I'll die with my conscience intact.
