Overview of the TCC Continuing Education Catalog

The TCC continuing education catalog is a centralized directory that lists all continuing education courses available through Tulsa Community College. It is designed to provide detailed descriptions of each course, including objectives, prerequisites, duration, and fees. The catalog is updated regularly to reflect new course additions, scheduling changes, and any modifications to course content. It is accessible online, allowing prospective students to search by subject area, course number, or keyword. This comprehensive resource ensures that learners can find relevant educational opportunities that align with their professional goals and personal interests.

Purpose and Audience

The primary purpose of the tcc continuing education catalog is to serve as an informational guide for adult learners, professionals seeking certification renewal, and individuals aiming to develop new competencies.

The catalog addresses the needs of a diverse audience, including working professionals, recent graduates, and community members interested in lifelong learning. By offering flexible scheduling options such as evening, weekend, and online classes, the catalog accommodates a variety of learning preferences and lifestyles.

Access and Navigation

Accessing the TCC continuing education catalog is straightforward through the college's official website. Users can utilize search filters to narrow down course options by category, delivery format, or date. Each course listing provides comprehensive information that assists students in making informed decisions about their education paths. Additionally, the catalog integrates with the college's registration system, enabling seamless enrollment once a course is selected.

Course Categories and Offerings

The tcc continuing education catalog encompasses a broad spectrum of course categories designed to meet the diverse needs of the community. These categories range from professional development to personal enrichment, ensuring that learners can find programs that support both career advancement and individual growth. Courses are developed by subject matter experts and are periodically reviewed to maintain relevance and quality.

Professional Development Courses

Professional development courses are a significant component of the catalog, catering to industries such as healthcare, information technology, business management, and education. These courses often include certification preparation, skill enhancement workshops, and industry-specific training designed to keep professionals up to date with current trends and standards.

Technology and IT Training

Technology courses within the catalog focus on areas such as computer programming, cybersecurity, network administration, and software applications. These offerings are ideal for individuals seeking to enter the tech industry or expand their technical skill set. Many technology courses provide hands-on experience and practical applications to ensure learners gain competencies applicable in the workplace.

Health and Wellness Programs

The health and wellness section includes courses on healthcare certification, patient care, nutrition, and

mental health awareness. These programs support individuals working in healthcare settings or those interested in pursuing careers in health-related fields. Continuing education units earned through these courses often contribute toward professional licensure requirements.

Personal Enrichment and Lifelong Learning

Beyond career-focused offerings, the catalog includes personal enrichment classes such as language learning, art, music, and financial literacy. These courses promote lifelong learning and personal development, enhancing the overall well-being and cultural competence of participants.

Registration and Enrollment Process

Enrolling in courses listed in the tcc continuing education catalog involves a straightforward process designed to facilitate easy access to educational opportunities. The registration system integrates with the catalog, providing a user-friendly interface for course selection and payment.

Creating an Account

Prospective students must first create an account on the TCC continuing education portal. This account allows users to track course registrations, payments, and completion records. Account creation requires basic personal information and the establishment of login credentials.

Selecting and Registering for Courses

Once logged in, users can browse the catalog and add desired courses to their registration cart. The system provides details such as course schedules, fees, and instructor information to assist in decision-making. After selecting courses, students can proceed to payment and receive confirmation of enrollment.

Payment and Financial Options

The catalog supports multiple payment methods, including credit/debit cards and electronic checks. Additionally, some courses may be eligible for financial assistance or employer reimbursement programs. It is advisable to review payment policies and deadlines to ensure successful enrollment.

tcc continuing education catalog: The Open Door Dale Coleman, 2015-01-22 On September 13, 1965, Tacoma Community College opened its doors to the public. The founding of the College was the culmination of four years of coordinated effort, steadfast leadership and grassroots community support. Built around the idea that educational opportunity is a critical component of a thriving community, TCC set forth on a mission to bring high-quality, affordable education to all, without regard to means or circumstance. Over the next 50 years, as thousands of students passed through the open door to previously unavailable opportunity and achievement, the strength and resilience of this simple idea would be tested. Through economic hardship, social upheaval, changing job markets and times of crisis both global and local, Tacoma Community College would prove to be an enduring educational institution. This is the story of TCC, as told by the students, faculty, staff and community leaders who helped to build, develop and defend Tacoma's open door college.

Considerations in Niche Online Communities Venkatesh, Vivek, Wallin, Jason, Castro, Juan Carlos, Lewis, Jason Edward, 2014-02-28 Online communities continue to evolve as more people take on a virtual presence. This shift in online communities and the diversity of individuals populating the web has allowed for the emergence of virtual communities centered on niche topics of interests ranging from heavy metal music to indigenous and native culture. Educational, Psychological, and Behavioral Considerations in Niche Online Communities examines the presence of online communities centered around niche topics of interest and the impact of these virtual spaces on community members. Taking perspectives from interdisciplinary fields such as sociology, psychology, and education, this publication will appeal to educators, psychologists, behaviorists, students, and researchers interested in the impact of virtual communities on individuals as well as the opportunities these online communities present.

tcc continuing education catalog: Political and Military Sociology Neovi M. Karakatsanis, 2017-07-05 This volume of Political and Military Sociology focuses on the perceptions and identities of those serving in the military, using survey or interview data to explore those perceptions. A range of military forces are examined, including those of the United States, Israel, Norway, and Denmark. The first article, using survey data from Denmark, compares the views of Danish soldiers to civilians. The second article looks at the effects of military education upon the attitudes and values of soldiers. The third article explores Israeli soldiers' attitudes regarding formal military education. The fourth article addresses the impact of Norwegian soldiers' self-identity on military performance. In a different vein, the survey results of the fifth article show that support for soldiers on active duty in Iraq and Afghanistan does not necessarily translate into support for veterans. Military lawyers in the Israel Defense Forces are the subject of the sixth article. This volume concludes with an article that argues that military service should be offered as a legal policy alternative to incarceration.

tcc continuing education catalog: The Community College Library Janet Pinkley, Kaela Casey, 2022-04-13 Community colleges are a cornerstone of higher education and serve the unique needs of the communities in which they reside. In 2019, community colleges accounted for 41 percent of all undergraduate students in the United States. Community college librarians are engaged in meaningful work designing and delivering library programs and services that meet the needs of their diverse populations and support student learning. The Community College Library series is meant to lift the voices of community college librarians and highlight their creativity, tenacity, and commitment to students. The Community College Library: Assessment explores the research, comprehensive plans, and new approaches to assessment being created by community college librarians around the U.S. Chapters include sample activities and materials and cover topics including assessing student learning while shifting from Standards to Framework; investigating and communicating library instruction's relationship to student retention; and building librarian assessment confidence through communities of research practice. This book demonstrates the innovative and replicable ways community college librarians are measuring, evaluating, and reflecting on the services they provide, and how to use these assessments to demonstrate the value and impact of library services and advocate for resources.
