taylor swift 73 questions: *Traveling in Bardo* Ann Tashi Slater, 2025-09-09 A luminous guide to navigating transition and impermanence rooted in the Tibetan Buddhist tradition of bardo. In a world where nothing lasts forever, how do we live? Life is perpetually, endlessly filled with change: new jobs and new loves, unfamiliar places and faces. And entwined in that change is loss: loss of what was or is, or what could have been. In the midst of this shifting landscape, *Traveling in Bardo* invites us to embrace impermanence in a powerful way, rooted in ancient wisdom. Interweaving explorations of bardo in relation to marriage and friendship, parents and children, work and creativity with stories of her Tibetan ancestors and the Buddhist teachings on the fleeting nature of existence, Ann Tashi Slater illuminates what the teachings have to tell us in our contemporary lives. She relays vital wisdom from Tibetan culture, giving us a bold, new framework to navigate moments of change and live life fully. During over forty years of writing and speaking about her Tibetan-American heritage and the relevance of Buddhism in Western society, Slater has come to see how Tibetan bardo views on impermanence can transform the way we live. In Tibetan belief, bardo is the interval between death and rebirth, as well as the intermediate state between birth and death. It also refers to liminal periods in life when the reality we know comes to an end. A time of great possibility, it offers us the opportunity to find happiness in an impermanent world.

taylor swift 73 questions: WHAT'S THE MEANING OF LIFE? And Other Easily Answered Questions Robert J. Taylor, 2025-07-21 What's the Meaning of Life? and other easily answered questions. The question: What's the Meaning of Life? has nagged at us since Eve took a bite from that fateful apple. It's a question endlessly asked of philosophers, sages, and mountaintop gurus with answers that are often trite and frequently obscure. Some think the answer is a number, with 42, 137, and 9 as leading contenders. Others think there's no answer to be gotten, life just is. And others think that's the wrong question. Maybe so, but the quest for a better question has been hard and elusive. Until now. The other big question: Is There a God? was probably first articulated in the grunts of one of our ancient ancestors, awestruck and quaking in fear as a meteor flashed across the star-strewn heavens. People have found conflicting answers to that question and haven't always been very tolerant of those who don't share their view. Others of us have concluded the answer is "no" or "maybe." And others think God is a verb not a noun. There's no consensus on the answer. And in our modern smartphone-dominated lives, less philosophical but urgent questions badger us incessantly and unsettle our minds: Am I really so inept and out-of-touch? Should I fear Artificial Intelligence? Are climate doomsayers right? Is democracy in peril? Do you need to keep ketchup in the refrigerator? It's a struggle just to cope. Taylor's essays are illuminating and provocative. His off-beat cartoons are clever, but on his own admission, not worthy of The New Yorker.

taylor swift 73 questions: The Media Swirl Carol Vernallis, 2023-02-20 From fan-generated content on TikTok to music videos, the contemporary media landscape is becoming ever more vast, spectacular, and intense. In *The Media Swirl* Carol Vernallis examines short-form audiovisual media—Beyoncé's *Lemonade*, brief sequences from Baz Luhrmann's *The Great Gatsby*, TikTok challenges, YouTube mashups, commercials, and many other examples—to offer ways of understanding digital media. She analyzes music videos by Beyoncé, Lady Gaga, Janelle Monáe, Kendrick Lamar, Anderson .Paak, and others to outline how sound and image enhance each other and shape a viewer's mood.
