why women want relationships: What a Man Really Wants to Say About Relationships J. Riggins, 2016-11-05 We all have relationship issues of some type. Many of us have endured breakups after long marriages or severed ties with someone after a lengthy relationship, but are we actually insightful enough to understand why this occurred? Some individuals never seem to find a happy relationship no matter who they date or pursue. Most of us want companionship and affection, and in 'What A Man Really Wants To Say', the author attempts to explain why relationships fail and steps we can take to improve our ability in sustaining lifelong partnerships. Maybe we take our spouse or partner for granted and don't even realize it. We get comfortable, let ourselves go a little, don't put as much effort into our appearance, and then expect that our partner should still be as excited by us as they used to be. We also tend to believe rumors regarding our partners and become suspicious, a definite hazard to relationships no matter how long a history two people have. In 'What A Man Really Wants To Say', we learn how to determine fact from fiction when it comes to our friends and family telling us things about our significant other, how to keep the spark alive in our relationship, how to manage money effectively and how to begin a path to a lifetime of happiness.

why women want relationships: Swoon: Great Seducers and Why Women Love Them

Betsy Prioleau, 2013-02-04 Lose yourself: Swoon has wicked fun answering that age-old query: What do women want?—Chicago Tribune Contrary to popular myth and dogma, the men who consistently beguile women belie the familiar stereotypes: satanic rake, alpha stud, slick player, Mr. Nice, or big-money mogul. As Betsy Prioleau, author of *Seductress*, points out in this surprising, insightful study, legendary ladies' men are a different, complex species altogether, often without looks or money. They fit no known template and possess a cache of powerful erotic secrets. With wit and erudition, Prioleau cuts through the cultural lore and reveals who these master lovers really are and the arts they practice to enswoon women. What she discovers is revolutionary. Using evidence from science, popular culture, fiction, anthropology, and history, and from interviews with colorful real-world ladykillers, Prioleau finds that great seducers share a constellation of unusual traits. While these men run the gamut, they radiate joie de vivre, intensity, and sex appeal; above all, they adore women. They listen, praise, amuse, and delight, and they know their way around the bedroom. And they've finessed the hardest part: locking in and revving desire. Women never tire of these fascinators and often, like Casanova's conquests, remain besotted for life. Finally, Prioleau takes stock of the contemporary culture and asks: where are the Casanovas of today? After a critique of the twenty-first-century sexual malaise—the gulf between the sexes and women's record discontent—she compellingly argues that society needs ladies' men more than ever. Groundbreaking and provocative, *Swoon* is underpinned with sharp analysis, brilliant research, and served up with seductive verve.

why women want relationships: In the Name of Love Heather Fraser, 2008-10-07 Although

love is the hallmark of humanity, it is not widely discussed in social work and other related professions with respect to its potential connection to abuse. In this groundbreaking book the author argues that, while love and abuse should not co-exist, they often do. Using a feminist narrative approach, stories about love, abuse, and social work are told with the purpose of understanding domestic violence and other forms of abuse. Based on interviews with 84 women of varying ages in Canada and Australia, the author shows how the pain and shame of intimate abuse can leave its mark on the bodies, minds, and souls of victims/survivors long after abusive episodes have ended. Additionally, Fraser also discusses the importance of hope, enlightened witnesses, income support,

and educational opportunities for women who refuse to renounce love relationships altogether, but are instead trying to foster relationships that are respectful as well as erotic.

why women want relationships: Return to God: Men and Women Vladimir Živković, Who am I and what is the world? Where do I come from? Where do I go? Does God exist? If it exists, where it can be found? What is he like? How does he look? Is God perfect, and does he love me unconditionally? Is it true that I can't have a partner, live sexuality, have money eat and sleep well if I want to achieve happiness and God? If I love to live and to indulge my desires, does that mean that I'm sinful and that God doesn't like me? Does it have the sense to condemn people, you, God? Does it have the sense to love oneself, people, God? What's my path and what's my purpose? If I'm unhappy, how can I cure that? If I'm discontented, how much good is that? How much are self-respect, self-worth, and dignity important? What is the real knowledge, and how to recognize it? There are much more questions like this. This book deals with them. This book is not offering just mere answers to questions asked previously. It also offers guidance to the reader, who on its own, by perusing this book can consciously experience the truth presented in this book. The book 'Return to God' is composed of 3 parts, which together form a whole. Each part deals with the certain secret of

life. The first part, called 'Men and Women', gives us an insight into similarities and differences between the sexes. The modern men and women have their desires and their misconceptions. The first part of the book aims at helping the reader to separate the positive desires, to destroy hidden self-destruction and a bad course, to avoid mistakes, and to fulfill wishes and achieve happiness. This book helps a man gain fundamental and minimal dignity that is essential for happiness in love relationships and marriage. Therefore, it is essential to understand laws of the first part of trilogy 'Return to God', called 'Man and Women' as the prerequisite for marriage, love, and sexual relationships' happiness. Pay close attention to things you consider impossible. Biljana Obradovic, poetess and the writer of several novels from Valjevo will tell us more about the book: - Vladimir Zivkovic is a man dedicated to the lifelong study of the soul. His writing reveals calmness, consistency in his path to God, as the only light that sustains the inner being. I really like his voice which pays special respect to everyone, especially to girls and women. By reading his works related to the faith in God, and therefore in you, I realized that the path of knowledge is difficult but fruitful. I realized that badly directed ego might destroy even the greatest minds, as well as biggest believers. Vladimir talks about the modesty life and balanced desires. Thus he shares his knowledge with others, to make them deeply think about the life they live nowadays, in the modern times. I hope he will publish more books to shed light on the path of the just and truly believing men. With due respect of this writing, I wish you success and a large number of readers! Maja Djolovic, translator and writer say about the book: - If you've just been searching for self-help reading and an easy and quick fix for your problems, there is no such advice in this book. Vladimir's trilogy 'Return to God' is an authentic collection of real life stories and situations which were created by the author as the result of his personal spiritual journaling. His stories offer great insights into the modern life of man and women, their inner struggle, and problems they face in their search for meaning and true spirituality. The external influences of the corrupted individuals and society, as well as main reasons and internal sources of corruption, could be found in our closest surroundings. These stories, in a nutshell, deal with the current lack of morality, truth, and spiritual guidance in everyday life, as well in male-female relationships. Vladimir sheds the light on possible underlying problems and their true origin in human misconceptions, blurred moral vision, and false beliefs.
