wild geese mary oliver analysis: The Age of Capitalism, Consumer Culture, and the Collapse of Nature in the Anthropocene Jack Thornburg, 2024-10-02 The Age of Capitalism, Consumer Culture, and the Collapse of Nature in the Anthropocene argues that the stability of post-industrial, postmodern society is threatened by the convergence of three distinct, yet interrelated, crises: environmental degradation, capitalist economic development, and the primacy of consumption and self-absorption as the basis for economic development at the expense of community and social relationships. Jack Thornburg contrasts advanced modern society with indigenous cultures in terms of nature and conceptions of the communal self. The complex nature of capitalist-oriented society has influenced how individuals conceptualize themselves. The outcome, the author contends, is a competitive society in which individuals are alienated living in uncertain times. One consequence of these crises (all of which derive from the Enlightenment and the concomitant appearance and evolution of capitalism) has been the destruction of a worldview balancing and connecting well-being with prosperity of the natural world. Money and materialism cannot buy happiness as capitalist narrative asserts. Thornburg claims that the happiness sought by individuals seeking meaning through consumption can only be realized by reintegrating nature with the human spirit.

wild geese mary oliver analysis: The Other Worldview Peter Jones, 2015-06-24 A must-read for every concerned American--and especially for every Christian who weeps at the graveside of his culture. --R.C. Sproul A cataclysmic change has occurred as our culture has shifted toward belief in Oneism. Every religion and philosophy fits into one of two basic worldviews: Oneism asserts that everything is essentially one, while Twoism affirms an irreducible distinction between creation and Creator. The Other Worldview exposes the pagan roots of Oneism, traces its spread throughout Western culture, and demonstrates its inability to save. For bodily holiness and transformed thinking . . . we depend entirely on one amazing thing: the incredibly powerful message of the Gospel to a sinful world, which is the ultimate expression and goal of Twoism. The only hope is in Christ alone.

wild geese mary oliver analysis: Contact Improvisation Cheryl Pallant, 2017-02-16 In most forms of dancing, performers carry out their steps with a distance that keeps them from colliding with each other. Dancer Steve Paxton in the 1970s considered this distance a territory for investigation. His study of intentional contact resulted in a public performance in 1972 in a Soho gallery, and the name contact improvisation was coined for the form of unrehearsed dance he introduced. Rather than copyrighting it, Paxton allowed it to evolve and spread. In this book the author draws upon her own experience and research to explain the art of contact improvisation, in which dance partners propel movement by physical contact. They roll, fall, spiral, leap, and slip along the contours and momentum of moving bodies. The text begins with a history, then describes the elements that define this form of dance. Subsequent chapters explore how contact improvisation relates to self and identity; how class, race, gender, culture and physiology influence dance; how dance promotes connection in a culture of isolation; and how it relates to the concept of community. The final chapter is a collection of exercises explained in the words of teachers from across the United States and abroad. Appendix A describes how to set up and maintain a weekly jam; Appendix B details recommended reading, videos and Web sites. wild geese mary oliver analysis: Blue Straggler MST Publishing, 2011-08-06 Kathy Lynn Harris' clever debut novel is a laugh-out-loud, yet poignant, story about good friends, bad choices, quirky families and new beginnings - a Texas version of Anna Maxted's Getting Over It with the wit and humor of a Melissa Banks story. Just what is a blue straggler? A blue straggler is a star that appears to be disconnected from those stars surrounding it in its globular cluster and has an anomalous blue color and high luminosity relative to those stars that surround it. But this is not a story about astronomy. Bailey Miller is disconnected from the cluster of her rural south Texas family. She has never quite fit in and now in her early 30s, she finds herself struggling with inner turmoil and a series of bad choices in her life. She blames many of her personal demons, and there are many, on a self-proclaimed condition called RODA- short for Recurring, Obstinate Dread and Anguish. She's drinking too much (even for a member of her family), has a penchant to eat spoonful after spoonful of Cool Whip, works in a job that bores her beyond description and can't keep a relationship longer than it takes for milk to expire in her fridge. Even with the help of her two outspoken friends, Idamarie - owner of a local cafe and fourth-generation Texas woman with the big hair to prove it -

and her quirky college pal Rudy, she's having a hard time. As a series of sometimes humorous, often semi-tragic, events send her reeling, Bailey packs up her Honda and heads out of Texas, in search of herself and answers to secrets from her great-grandmother's past. Chock full of memorable characters, this novel takes readers on a journey from San Antonio to a small mountain town in Colorado and back, as Bailey uncovers not only the secrets of her great-grandmother's life, but also her own, and finding love along the way. In the end, you'll ask yourself, as Bailey does: Are bad choices passed down through generations like tarnished wedding silver, frayed quilts and not-so-tasteful costume jewelry? Can we really define family and home for ourselves, or does the past always determine who we are today?

wild geese mary oliver analysis: Exposed Stacy Alaimo, 2016-10-15 Opening with the statement "The anthropocene is no time to set things straight," Stacy Alaimo puts forth potent arguments for a material feminist posthumanism in the chapters that follow. From trans-species art and queer animals to naked protesting and scientific accounts of fishy humans, *Exposed* argues for feminist posthumanism immersed in strange agencies and scale-shifting ethics. Including such divergent topics as landscape art, ocean ecologies, and plastic activism, Alaimo explores our environmental predicaments to better understand feminist occupations of transcorporeal subjectivity. She puts scientists, activists, artists, writers, and theorists in conversation, revealing that the state of the planet in the twenty-first century has radically transformed ethics, politics, and what it means to be human. Ultimately, *Exposed* calls for an environmental stance in which, rather than operating from an externalized perspective, we think, feel, and act as the very stuff of the world.

wild geese mary oliver analysis: Architecture, Ethics, and the Personhood of Place Gregory Caicco, 2007 Architecture and environmental design are among the last professional fields to develop a sustained and nuanced discussion concerning ethics. Hemmed in by politics and powerful clients on one side and the often unscrupulous practices of the construction industry on the other, environmental designers have been traditionally reluctant to address ethical issues head on. And yet

the rapid urbanization of the world's population continues to swell into new megacities, each less healthy, welcoming, secure, or environmentally sustainable than the next. Green, carbon-reduced, and sustainable building practices are important ways architects have recently responded to the symptoms of the crisis, but are these efforts really addressing the core issues? Taking the Dine (Navajo) Hogan Song—a song used to protect and nourish the personhood of newly constructed dwellings—as their inspiration, the architects, philosophers, poets, and other contemporary scholars contributing to this volume demonstrate that a deeper, more radical change in our relationship to the built world needs to occur. While offering a careful critique of modernist, corporate, or techno-enthralled design practices, these essays investigate an alternative relational ecology whose wisdom draws from ancient and often-marginalized voices, if not the whisperings of the earth itself. Contributors include: Richard Kearney, Alberto Perez-Gomez, Juhani Pallasmaa, Karsten Harries, Edward Casey, Susan Stewart, David Abram, Stacy Alaimo, Jace and Laura Weaver, Philip Sheldrake, and Sebnem Yucel Young.

In *Keeping the Chattahoochee*, she tells stories that range from joyous and funny to frustrating—even alarming—to illustrate what it takes to save an endangered river. Pairing natural and political history with reflective writing, she draws readers into her watershed and her memories. Bethea’s passion for the natural world—and for defending it with a strong, informed voice animates this instructive memoir. Offering lessons on how to fight for our fundamental right to clean water, Bethea and her colleagues take on powerful corporate and government polluters. They strengthen environmental policies and educate children, reviving the great river from a century of misuse.

wild geese mary oliver analysis: Irritable Hearts Mac McClelland, 2015-02-24 An award-winning journalist explores the pain of bearing witness: “A valuable portrait of what it is like to live with PTSD . . . striking candor.” —The New York Times Book Review Back in California after reporting on Haiti’s devastating 2010 earthquake, Mac McClelland can’t stop reliving vivid scenes of horror. She’s plagued by waking terrors, violent fantasies, and crippling emotional breakdowns. She can’t sleep or stop crying. It becomes clear that she’s suffering from post-traumatic stress disorder. Her bewilderment about this sudden loss of control is magnified by the intensity of her feelings for Nico—a French soldier she met in Port-au-Prince and with whom she connected instantly and deeply. In this book, the foreign correspondent tackles perhaps her most harrowing assignment to date: investigating the damage in her own mind. She probes the depths of her illness, explores our culture’s history with PTSD, delves into the latest research, and spends time with veterans and their families. She learns that while we associate PTSD with wartime, it is more often caused by other types of trauma, and can even be contagious. *Irritable Hearts* is a searing, personal medical mystery that unfolds at a breakneck pace. But it is also a love story, as McClelland fights desperately to repair her heart so she can give it to the kind, patient, and compassionate man with whom she wants to share a life. Ultimately, it is a remarkable exploration of vulnerability and resilience. “Unforgettable.” —Roxane Gay, New York Times-bestselling author of *Hunger* “[A] deft, emotionally engaged memoir . . . As much as the love story at the heart of the book is a great romance, it’s also a very funny one. McClelland is not the sort of person who needs to idealize either herself or the man who became her husband. It’s a grown-up relationship story. And as a bonus, *Irritable Hearts* has a section on trauma and triggers that adds useful context to many of our present debates about discourse on the Internet.” —The Washington Post “McClelland pulls back a dark, heavy curtain on the costs paid by those who travel to the far corners of the planet to gather difficult news on difficult subjects . . . Writing like this takes courage, perhaps as much—or even more—than reporting from a

war-ravaged land.” —San Francisco Chronicle

wild geese mary oliver analysis: Humanities Perspectives in Peace Education Nicole L. Johnson, 2021-08-01 In *Humanities Perspectives in Peace Education: Re-Engaging the Heart of Peace Studies*, scholar-teachers across a variety of humanities fields explore the content, methods, and pedagogies that are unique to their respective disciplines in contributing to the study of peace and justice. In recent decades, even as peace scholarship has burgeoned, many peace studies texts—including those that purport to be interdisciplinary in nature—have emphasized social science perspectives and, in some cases, have foregone exploration of the role of the humanities altogether in comprehensive peace education. While humanities scholars continue to stake out space for peace scholarship within their fields, no volume has attempted to collect the wisdom of multiple humanities disciplines in order to make the case for their critical role in authentic peace education. *Humanities Perspectives in Peace Education* addresses that shortcoming in the field of peace studies by exploring the ways in which the humanities are uniquely situated to contribute particular content, knowledge, skills, and values required of comprehensive peace education, scholarship, and activism. These include the development of empathy and understanding, creative vision and imagination, personal and communal transformation toward “the good” in society (such as the pursuit of justice, nonviolence, freedom, and human thriving), and field-specific analytical lenses of their own, among other contributions. Both teachers and students of peace will find value in this interdisciplinary humanities volume. Each chapter of *Humanities Perspectives in Peace Education* offers a deep-dive into a particular humanities field—including philosophy, literature, language and culture studies, rhetoric, religion, history, and music—to mine the field’s unique contributions to peace and justice studies. Scholars ask: “What are we missing in peace education if we fail to include this academic discipline?” Chapters include suggestions for peace pedagogies within the humanities field as well as bibliographies and suggestions for further reading.
