will i be a good mother quiz: A woman's place? Ciara Meehan, 2023-02-28 This book explores representations of the domestic in Irish women's magazines. Published in 1960s Ireland, during a period of transformation, they served as modern manuals for navigating everyday life. Traditional themes - dating, marriage, and motherhood - dominated. But editors also introduced conflicting voices to complicate the narrative. Readers were prompted to reimagine their home life, and traditional values were carefully subverted. The domestic was shown to be a negotiable concept in the coverage of such issues as the body and reproductive rights, working wives and equal pay. Dominant societal perceptions of women were also challenged through the inclusion of those who were on the margins - widows, unmarried mothers, and never-married women. This book considers the motivations of editors, the role of readers, and the influence of advertisers in shaping complex debates about women in society in 1960s Ireland.

will i be a good mother quiz: Two Nuts in Italy Sue Ellen Haning, 2011-06 Traipsing through a foreign country with nothing but faith, a backpack, and an overly confident twenty-one-year-old daughter had never been a dream of fifty-six-year-old Sue Ellen Haning. But when her daughter, Jenny, proposed the trip, Haning, with reservation, finally agreed. A veteran teacher, she was excited to lose herself across the ocean, learn things by accident, and have adventure find her. Haning's friends thought she was nuts. In this travel memoir, Haning recounts the adventures she and her daughter experienced during a three-month summer backpacking trip in Italy. Their plan was to take a backpack, a little cash, no credit cards, stay in homes of Italians they did not know (or sleep on park benches, if necessary), have no itinerary, and stay in small towns for the full cultural experience. Two Nuts in Italy recounts an array of adventures—finding herself in bed with a strange Italian, surviving a five-hour car ride with a psychic who claimed she was the devil, and looking out the window of a moving train to see her daughter clinging to the side. It narrates a no-holds-barred

travel experience that transformed Haning into a different person.

will i be a good mother quiz: Covenant Betrayed: Revelations of the Sixties, the Best of Time; the Worst of Time Mark Dahl, 2005-03-08 One can not understand the Sixties without understanding the Fifties. The Fifties were the first time the American youth had excess freedom. Before the 50s they worked on the family farm; dusk till dawn, slaved in the sweat shops, 12 ours a day, six days a week; starved in the depression; and fought not knowing it they would be alive the next day in World War II and the Korean War. Than, suddenly, came the fifties. First there were the beatniks lead by their spiritual leader Williams Burrough, than the bad boys of rock and roll Elvis, Johnny Cochran, and Jerry Lee Lewis prevailed. This excess freedom, led to freedom to think, freedom to question, freedom to challenge. In the sixties, the peaceful non-violent Civil Rights Movement, progressed to the Black Power and the Black Panthers. The Civil Rights Movement was followed by the creeping involvement in Vietnam, first with military advisors, than massive troop deployments to Vietnam resulting in death, violence, destruction, and then disillusion. And complementing the war, initially, the educational teach-ins led to massive antiwar demonstrations, to the Weathermen busting windows on Michigan Ave and planting bombs in the Capital. This all digressed to the second civil war which recently resurfaced with the Iraq War, I afraid now is progressing to the third civil war. Throughout the book we follow the characters lives from romantic innocence to reality to Expressionism. Some fighting in Vietnam, some protesting the war, some marching for civil rights, friendships destroyed and than repaired. Some lives lost, some destroyed, some survived, but all caught up in the hubris characterized by a gross failure of governmental leadership. Those betrayed the most have their names on a black granite wall in Washington DC.

will i be a good mother quiz: One Man's America George Will, 2009-11-17 In his provocative and compelling new book, America's most widely read and most influential commentator casts his gimlet eye on our singular nation. Moving far beyond the strict confines of politics, George F. Will offers a fascinating look at the people, stories, and events-often unheralded-that make the American drama so endlessly entertaining and instructive. With Will's signature erudition and wry wit always on display, One Man's America chronicles a spectacular, eclectic procession of figures who have shaped our cultural landscape-from Playboy founder Hugh Hefner to National Review founder William F. Buckley Jr., from Victorian poet Henry Wadsworth Longfellow to Beat poet Lawrence Ferlinghetti, from cotton picker-turned-country singer Buck Owens to actor-turned-president Ronald Reagan. Will crisscrosses the country to illuminate what it is that makes America distinctive. He visits the USS Arizona memorial in Pearl Harbor and ponders its enduring links to the present. He travels to Milwaukee to celebrate the hundredth anniversary of an iconic brand, Harley-Davidson. In Los Angeles he finds the inspiring future of education, while in New York he confronts the dispiriting didacticism of the avant-garde. He ventures to the Civil War battlefields of Virginia to explore what we risk when we efface our own history. And on the outskirts of Chicago he investigates one of the darkest chapters in American history, only to discover a shining example of resilience and grace-the best the country has to offer. Will's wide lens takes in much more as well-everything from the "most emblematic novel of the 1930s" (and no, it is not about the Joads) to the cult of ESPN to Brooks Brothers and Ben & Jerry's. And of course, One Man's America would not

be complete without the author's insights on the national pastime, baseball—the icons and the cheats, the hapless and the greats. Finally, in a personal and reflective turn, Will writes movingly of his thirty-five-year-old son Jon, born with Down syndrome, and pays loving and poignant tribute to his mother, who died at the age of ninety-eight after a long struggle with dementia. The essays in *One Man's America*, even when critiquing American culture, reflect Will's deep affection and regard for our nation. After all, he notes, when America falls short, it does so only as compared to "the uniquely high standards it has set for itself." In the end, this brilliantly informative and entertaining book reminds us of the enduring value of "the simple virtues and decencies that can make communities flourish and that have made America great and exemplary."

will i be a good mother quiz: *The Columbia Guide to Central African Literature in English Since 1945* Adrian A. Roscoe, 2008 Columbia's guides to postwar African literature paint a unique portrait of the continent's rich and diverse literary traditions. This volume examines the rapid rise and growth of modern literature in the three postcolonial nations of Zimbabwe, Malawi, and Zambia. It tracks the multiple political and economic pressures that have shaped Central African writing since the end of World War II and reveals its authors' heroic efforts to keep their literary traditions alive in the face of extreme poverty and AIDS. Adrian Roscoe begins with a list of key political events. Since writers were composing within both colonial and postcolonial contexts, he pays particular attention to the nature of British colonialism, especially theories regarding its provenance and motivation. Roscoe discusses such historical figures as David Livingstone, Cecil Rhodes, and Sir Harry Johnston, as well as modern power players, including Robert Mugabe, Kenneth Kaunda, and Kamuzu Banda. He also addresses efforts to create a literary-historical record from an African perspective, an account that challenges white historiographies in which the colonized was neither agent nor informer. A comprehensive alphabetical guide profiles both established and emerging authors and further illustrates issues raised in the introduction. Roscoe then concludes with a detailed bibliography recommending additional reading and sources. At the close of World War II the people of Central Africa found themselves mired in imperial fatigue and broken promises of freedom. This fueled a desire for liberation and a major surge in literary production, and in this illuminating guide Roscoe details the campaigns for social justice and political integrity, for education and economic empowerment, and for gender equity, participatory democracy, rural development, and environmental care that characterized this exciting period of development.

The master has once again found a startling freshness."—*Le Monde des Livres* A European expatriate living in New York, Doriël suffers from a profound sense of desperation and loss. His mother, a member of the Resistance, survived World War II only to die soon after in France in an accident, together with his father. Doriël was a hidden child during the war, and his knowledge of the Holocaust is largely limited to what he finds in movies, newsreels, and books. Doriël's parents and their secrets haunt him, leaving him filled with longing but unable to experience the most basic joys in life. He plunges into an intense study of Judaism, but instead of finding solace, he comes to believe that he is possessed by a dybbuk. Surrounded by ghosts, spurred on by demons, Doriël finally turns to Dr. Thérèse Goldschmidt, a psychoanalyst who finds herself particularly intrigued by her patient. The two enter into an uneasy relationship based on exchange: of dreams, histories, and secrets. And despite Doriël's initial resistance, Dr. Goldschmidt helps bring him to a crossroads—and to a shocking denouement. "In its own high-stepping yet paradoxically heart-wracking way, [Wiesel's

novel] can most assuredly be considered beautiful (almost beyond belief).”—The Philadelphia Inquirer
