- Overview of the Wilson Economic Development Council
- Key Initiatives and Programs
- Impact on Local Economy
- Business Resources and Support
- Workforce Development Efforts
- Infrastructure and Community Development

Overview of the Wilson Economic Development Council

The Wilson Economic Development Council is a public-private partnership focused on enhancing the economic landscape of Wilson County, North Carolina. Established to serve as the primary agency for economic growth, the council aims to attract new industries, assist in business retention, and promote workforce readiness. The WEDC works closely with local government entities, community organizations, and educational institutions to create a business-friendly environment that supports long-term prosperity. Its strategic initiatives align with regional and state economic development plans, reinforcing Wilson County's position as a competitive location for investment and growth.

Mission and Vision

The mission of the Wilson Economic Development Council is to promote sustainable economic development that benefits the entire community by fostering job creation, business expansion, and innovation. The vision is to position Wilson County as a premier destination for business and talent, characterized by a diverse economy, strong infrastructure, and a skilled workforce. These guiding principles drive the council's strategic planning and collaborative efforts.

Organizational Structure

The WEDC operates under a board of directors composed of local business leaders, elected officials, and community representatives. This diverse leadership ensures that the council's activities reflect the needs and priorities of Wilson County's stakeholders. Staff members specialize in areas such as business recruitment, marketing, workforce development, and project management to deliver comprehensive economic development services.

Key Initiatives and Programs

The Wilson Economic Development Council implements a variety of initiatives designed to stimulate economic activity and support the growth of local businesses. These programs address critical areas such as business attraction, retention, and expansion, as well as workforce training and infrastructure enhancement.

Business Attraction and Recruitment

One of the core functions of the WEDC is to attract new businesses and industries to Wilson County. This is achieved through targeted marketing campaigns, participation in trade shows, and direct outreach to companies seeking to relocate or expand. The council highlights Wilson's strategic advantages, including its geographic location, transportation assets, and available workforce, to position the county as an ideal business destination.

Business Retention and Expansion

Supporting existing businesses is equally important to the WEDC's mission. The council regularly engages with local companies to understand their needs and challenges, providing assistance through resources, networking opportunities, and advocacy. Programs focused on business retention help ensure the continued vitality and growth of Wilson's economic base.

Entrepreneurship and Innovation

The WEDC encourages entrepreneurship by facilitating access to capital, mentorship, and training for startups and small businesses. By fostering a culture of innovation, the council contributes to the diversification of the local economy and the creation of new employment opportunities.

Impact on Local Economy

The Wilson Economic Development Council has a measurable impact on the economic well-being of Wilson County. Through its efforts, the region experiences increased investment, job creation, and an expanding tax base, all of which contribute to improved quality of life for residents.

Job Creation and Workforce Growth

One of the most significant outcomes of the WEDC's work is the creation of new jobs across various sectors. By attracting manufacturers, technology firms, and service providers, the council helps diversify the employment landscape. This growth supports a stable labor market and provides career opportunities for a wide range of skill levels.

Investment and Capital Inflows

The council's success in securing new business investments translates into millions of dollars in capital inflows. These investments often fund the construction of new facilities, purchase of equipment, and expansion of operations, which have a multiplier effect on the local economy.

Community Benefits

Economic development efforts spearheaded by the WEDC contribute to enhanced public services, improved infrastructure, and increased funding for education and health initiatives. These community benefits reinforce the county's attractiveness to both businesses and residents.

Business Resources and Support

The Wilson Economic Development Council provides a comprehensive suite of resources designed to assist businesses at every stage of development. These services are tailored to meet the unique needs of Wilson County's business community.

Site Selection Assistance

For companies considering relocation or expansion, the WEDC offers detailed site selection support. This includes access to available industrial and commercial properties, demographic data, and information on utilities and transportation networks.

Incentives and Financing Options

The council helps businesses identify and apply for various incentive programs, including tax credits, grants, and low-interest loans. These financial tools are critical in reducing startup costs and facilitating growth.

Networking and Partnerships

Through organized events, workshops, and business roundtables, the WEDC fosters connections among local entrepreneurs, industry leaders, and government officials. These networks provide valuable opportunities for collaboration and knowledge sharing.

Workforce Development Efforts

A skilled workforce is fundamental to economic success, and the Wilson Economic Development Council actively supports initiatives that enhance workforce readiness and training.

Collaboration with Educational Institutions

The WEDC partners with community colleges, vocational schools, and universities to align educational programs with the needs of local employers. This collaboration ensures that students are equipped with the skills required by the county's key industries.

Training and Skill Development Programs

Programs aimed at upskilling workers, such as apprenticeships, certification courses, and continuing education, are promoted and sometimes administered by the council. These efforts help maintain a competitive labor force and reduce barriers to employment.

Workforce Attraction Strategies

To address labor shortages, the WEDC implements strategies to attract skilled workers from outside the region. This includes marketing Wilson County as a desirable place to live and work, emphasizing quality of life factors and career opportunities.

Infrastructure and Community Development

Robust infrastructure and community amenities are critical to supporting economic growth, and the Wilson Economic Development Council plays a role in advocating for and facilitating improvements in these areas.

Transportation and Utilities

The WEDC collaborates with local and state agencies to enhance transportation networks, including highways, railroads, and airports. Reliable utilities such as water, electricity, and broadband internet are also priorities to meet the demands of businesses and residents.

Industrial and Commercial Development

The council supports the development of industrial parks, commercial zones, and mixed-use areas that provide suitable locations for business operations. These developments are designed to accommodate a range of industries and promote economic diversification.

Quality of Life Enhancements

Recognizing that quality of life influences economic development, the WEDC advocates for community projects that improve housing, healthcare, recreation, and cultural amenities. These enhancements help attract and retain both businesses and talent.

- Strategic marketing targeting industries with growth potential
- Partnerships with education and training providers
- Access to financial incentives and grants
- Comprehensive site selection and relocation assistance
- Support for entrepreneurship and innovation
- Infrastructure advocacy and development planning
- Community engagement and quality of life improvements

wilson economic development council: The Wilson Governments 1964-1970
Reconsidered glen O'Hara, Helen Parr, 2014-01-02 This book provides a fascinating re-assessment of our view of the Wilson governments of 1964-1970. This new text draws on newly available sources, across the range of British government, and for the first time looks at the whole range of political and state activity. This critical appraisal provides a fascinating case study of British government in action in this key period of British History. This book was previously published as a special issue of the leading journal *Contemporary British History*. It is an excellent resource for students of governance, foreign policy, economics and social policy.

wilson economic development council: White Heat Dominic Sandbrook, 2015-02-05 'An active pleasure to read' Mail on Sunday Harold Wilson's famous reference to 'white heat' captured the optimistic spirit of a society in the midst of breathtaking change. From the gaudy pleasures of Swinging London to the tragic bloodshed in Northern Ireland, from the intrigues of Westminster to the drama of the World Cup, British life seemed to have taken on a dramatic new momentum. The memories, images and colourful personalities of those heady times still resonate today: mop-tops and mini-skirts, strikes and demonstrations, Carnaby Street and Kings Road, Harold Wilson and Edward Heath, Mary Quant and Jean Shrimpton, Enoch Powell and Mary Whitehouse, Marianne Faithfull and Mick Jagger. In this wonderfully rich and readable historical narrative, Dominic Sandbrook looks behind the myths of the Swinging Sixties to unearth the contradictions of a society caught between optimism and decline.

wilson economic development council: Fiber Susan Crawford, 2018-01-01 The world of fiber optic connections reaching neighborhoods, homes, and businesses will represent as great a change from what came before as the advent of electricity. The virtually unlimited amounts of data we'll be able to send and receive through fiber optic connections will enable a degree of virtual presence that will radically transform health care, education, urban administration and services, agriculture, retail sales, and offices. Yet all of those transformations will pale compared with the innovations and new industries that we can't even imagine today. In a fascinating account combining policy expertise and compelling on-the-ground reporting, Susan Crawford reveals how the giant corporations that control cable and internet access in the United States use their tremendous lobbying power to tilt the playing field against competition, holding back the infrastructure improvements necessary for the country to move forward. And she shows how a few cities and towns are fighting monopoly power to bring the next technological revolution to their communities.

wilson economic development council: Hearings, Reports and Prints of the Senate Committee on Government Operations United States. Congress. Senate. Committee on Government Operations, 1968

wilson economic development council: Harold Wilson Andrew S. Crines, Kevin Hickson, 2016-03-11 This year marks the centenary of Harold Wilson's birth, the fiftieth anniversary of his most impressive general election victory and forty years since his dramatic resignation as Prime Minister. He was one of the longest-serving premiers of the twentieth century, having won a staggering four general elections, yet, despite this monumental record, his place in Labour's history remains somewhat ambiguous. By the end of his two periods in power, both the left and right of the party were highly critical of Wilson - the former regarding him as a traitor to socialism, the latter as contributing directly to British decline. With contributions from leading experts in the fields of political study, and from Wilson's own contemporaries, this remarkable new study offers a timely and wide-ranging reappraisal of one of the giants of twentieth-century politics, examining the context within which he operated, his approach to leadership and responses to changing social and

economic norms, the successes and failure of his policies, and how he was viewed by peers from across the political spectrum. Finally, it examines the overall impact of Harold Wilson on the development of British politics.

wilson economic development council: *Sustainable Prosperity in the Arab Gulf* Jarmo T. Kotilaine, 2023-08-16 Tracing the development journey of the Arabian Gulf region with a forward-looking perspective, this book describes how a combination of good fortune, creative experimentation, and determination has enabled the region to achieve prosperity. Today, the Arabian Gulf is well positioned to assume a pivotal role in the new global order. Forced to balance an extreme climate and acute resource constraints, but also an exceptional location, the region's progress and prosperity have historically been precarious and vulnerable to external shocks. Efforts to transcend resource dependency have typically involved proactive attempts to enable other economic activities. This book argues that, while conventional economic diversification is making headway, the Gulf region is in fact amidst a far more holistic transformation that positions it for a pivotal role in the emerging multipolar global order. It now offers globally competitive regulations and world-class infrastructure at the heart of the Old World, flanked by two fast-growing continents. It has become the hub of choice for a growing share of inter-continental flows of people, trade, and capital, and has established strong economic ties in all directions. This book shows how, despite many risks and challenges, the region possesses the forward-looking vision and necessary resilience that can finally liberate it from its long-standing resource curse and a development paradigm that looks likely to provide the foundation for sustained well-being in the decades ahead. The scope and rigor of the book make it suitable as a reference on the Arabian Gulf and for those interested in global affairs and economic development, as well as policymakers and the business community.

wilson economic development council: *High Financier* Niall Ferguson, 2012-10-25 In this groundbreaking biography, based on more than 10,000 hitherto unavailable letters and diary entries, Niall Ferguson returns to his roots as a financial historian to tell the story of the extraordinary Siegmund Warburg. A refugee from Hitler's Germany, Warburg rose to become the dominant figure in the post-war City of London and one of the architects of European financial integration. Seared by events in the 1930s, when the long-established Warburg bank was first almost destroyed by the Depression and then 'Aryanized' by the Nazis, Warburg was determined that his own bank would learn from the past and contribute to the economic recovery of Britain, the unity of Western Europe and the birth of globalization. Siegmund Warburg was a complex and ambivalent man, as much a psychologist, politician and actor-manager as a banker. In *High Financier* Niall Ferguson reveals Warburg's idiosyncracies but above all he recaptures the meticulous business methods and strict ethical code that set Warburg apart from the mere speculators and traders who inhabit today's financial world.

wilson economic development council: *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954* United States. Internal Revenue Service, 2002

wilson economic development council: Spinning for Labour: Trade Unions and the New Media Environment Paul Manning, 2019-01-04 First published in 1998, this volume asks: are groups or organisations beyond the sphere of Westminster politics doomed to be marginalised in mainstream news coverage, or can the currently fashionable emphasis upon media techniques and 'spin doctoring' offer such non-official news sources a means of securing media success?. This question is now surfacing as a major issue within politics and cultural debates, as well as within the sociology of the mass media and communication studies. We are living through a period of remarkable transformation in politics, culture and social arrangements. Communications experts in the 'new Labour' camp believe that trade unions must respond by becoming more sophisticated in their use of the media and marketing techniques; and by employing new vocabularies for communicating their messages to the public. However, can trade unions succeed in using the tricks of the 1990s spin doctor to restore their position?. This study uses extensive interviews with leading national newspaper journalists and senior figures within trade unions to explore the question. Drawing upon unique archive material the study points to the importance of government in fostering or undermining branches of journalism including coverage of labour relations.
